Proceedings

OF THE

Government of His Highness the Maharaja of Mysore

MARCH 1912.

BANGALORE:
PRINTED AT THE GOVERNMENT PRESS.
1912

CONTENTS FOR MARCH 1912.

PART I, IN EXTENSO.

I. REVENUE.

PAGES

SECTION 1—LAND REVENUE.

No. R. 4563-72—L. R. 450-09-3, dated 4th—

Stating that the issue of joint pattas cannot be revived as prayed for in the Representative Assembly Subject No. 82 of 1909 1—2

No. R. 4642—L. R. 164-11-4, dated 5th—

Approving of the action of the Revenue Commissioner in assigning Gomal Survey No. 39 (Resurvey No. 44), measuring 11 acres and 10 guntas, of Puttenahalli, Bangalore Taluk, as special gomal for the communal use of the raiyats, subject to certain conditions 1—5

No. R. 5042-83—L. R. 442-10-2, dated 20th—

Laying down rules regulating the transfer of officials from malnad to maidan districts 6—7

No. R. 5105-13—L. R. 266-11-3, dated 20th—

Dismissing the appeal of Sanna Sidda and other raiyats of Nimbemaradahalli in the Sira Taluk, against the order of the Deputy Commissioner of the Tumkur District, cancelling the darkhast sale of Survey No. 4 below the breached Agrahar tank in the Sira Taluk 8—9

No. R. 5130-38—L. R. 413-11-2, dated 22nd—

Dismissing the appeal of Sonnappa and others of Kalavibagi village, Hiriyur Taluk, regarding the registry of their names in the village accounts as co-sharers of Survey No. 40 of the said village 10

No. R. 5186-95—L. R. 183-11-2, dated 23rd—

Explaining what kind of crops can be regarded as catch crops which could be grown on lands granted for rubber cultivation under the existing orders 11

No. R. 5208-16—L. R. 415-11-2, dated 25th—

Cancelling the order of the Deputy Commissioner, Mysore District, directing the resale of certain lands in the Melapur village, Seringapatam Taluk, purchased by the appellant in a revenue sale, observing that the sale having been duly confirmed and no appeal having been filed by any person interested, within the time allowed, the Deputy Commissioner was not competent to set it aside on the sole ground that a third party offered a higher price ... 12—13

No. R. 5253-5—L. R. 45-08-6, dated 26th—

Rejecting the prayer of the holders of inam lands benefited by the restoration of the Kotebetta tank, Nagamangala Taluk, for the reduction of the water-rate charged on their lands in accordance with Government Order No. R. 9146-8—L. R. 358-04-6, dated 10th April 1907 14—15

No. R. 5355-63—L. R. 421-11-2, dated 30th—

Declining to cancel the revenue sale of Survey No. 65 of the Karigal village in the Heggaddevankote Taluk, on the ground that, though there were certain irregularities in the sale proceedings, the appellant had notice of the sale and the price realised was adequate 16—17

SECTION 2—LAND SURVEY.

No. R. 4797-808—L. S. 33-10-4, dated 11th—

Sanctioning the introduction of revision settlement into the Shimoga Taluk. 1—35

PAGES

SECTION 3—AGRICULTURE.

No. R. 5411-52—Agri. 77-11-2, dated 30th—
Sanctioning a scale of fees to be levied on animals other than cattle, treated at the Veterinary Hospitals at Bangalore and Mysore 1—2

SECTION 4—FORESTS.

No. R. 4590-99—Ft. 50-11-7, dated 4th—
Reviewing the Administration Report of the Forest Department for the year 1910-11. 1—2

SECTION 5—REVENUE MISCELLANEOUS.

No. R. 5196-205—R. M. 31-05-11, dated 23rd—
Passing orders in the matter of levying tax on kanas 1—3

II. FINANCIAL.

SECTION 1—GENERAL FINANCE.

No. Fl. 3631-76—G. F. 570-11-2, dated 7th—
Prescribing the form of bond to be executed by persons taking house-building advances 1—3

No. Fl. 4168-9—G. F. 463-11-12, dated 30th—
Sanctioning a loan under certain conditions of a sum of Rs. 35,000 to the Bangalore Central Co-operative Bank, Limited, for a period of five years ... 1

SECTION 2—SEPARATE REVENUE.

No. Fl. 3896-8—S. R. 38-02-22, dated 15th—
Disallowing the claims of the Inamdars to the toddy Excise revenue of Dolosigere and six other villages in the Nandagudi Hobli, Hoskote Taluk ... 1—2

SECTION 3—BANKING.—*Nil.*

SECTION 4—SALARIES AND ALLOWANCES.

No. Fl. 3778-823—S. & A. 12-11-59, dated 12th—
Issuing instructions in the matter of claims for arrears of pay and allowances more than two years old 1

No. Fl. 4129-38—S. & A. 145-11-2, dated 29th—
Laying down rules regulating the rates of travelling allowances admissible to midwives 2

SECTION 5—CIVIL ACCOUNTS.—*Nil.*

SECTION 6—CENSUS.—*Nil.*

III. JUDICIAL AND LEGISLATIVE.

SECTION 1—LEGISLATION.

No. J. 2588-95—Legis. 16-11-9, dated 7th—
Reviewing the Report on the working of the Mysore Merchandise Marks Regulation during the year 1910-11 1

SECTION 2—COURTS.

No. J. 2538-41—Cts. 162-10-2, dated 1st—
Ordering the introduction of stamped copying sheets for use in the Civil and Criminal Courts in the State 1—2

No. J. 2647-9—Cts. 63-09-13, dated 13th—
Ordering the transfer of the Civil jurisdiction over the Tarikere Taluk to the Sub-Judge of Shimoga 1

PAGES

SECTION 3—PRISONS AND JAILS.—*Nil.*

SECTION 4—REGISTRATION.

No. J. 2624-32—Regis. 30-10-2, dated 11th—

Modifying Rule 30A of the Rules under the Registration Regulation so as to make the taking of thumb impression compulsory in all cases 1

SECTION 5—POLICE.—*Nil.*

IV. LOCAL FUNDS AND SANITARY.

SECTION 1—LOCAL BOARDS.

No. 6275-315—L. B. 47-11-5, dated 7th—

Accords sanction to the transfers of the officials from service paid from General Revenues to service paid from Local Funds and *vice versa* 1

No. 6571-2—L. B. 61-10-9, dated 12th—

Empowers the Sanitary Board, Kolar Gold Fields, to prescribe bye-laws for the regulation and inspection of bakeries and aerated water factories in the area under their authority 1—3

SECTION 2—MUNICIPAL.

No. 6981-9—Ml. 148-10-11, dated 26th—

Records the correspondence relating to the abolition of octroi in the Municipalities of the State with the remark that, if any Municipal Council or Board is disposed to abolish octroi either entirely or partially, it may do so after submitting definite proposals and obtaining the sanction of Government 1

SECTION 3—MEDICAL.

No 7050-1 —Med. 128-10-6, dated 29th—

Directs that Assistant Surgeons of the 5th class be promoted to the 4th class after an approved service of three years in the former class 1

SECTION 4—SANITARY.

No. 6381-92—San. 250-07-33, dated 8th—

Passes orders in the matter of the reduction of the provisions in the Plague Budget 1—2

No. 6438-78—San. 54-10-56, dated 9th—

Directs that the Heads of Departments except Public Works and Geological Departments should submit to the General and Revenue Secretariat half-yearly statements in the annexed form showing the demand, collection and balance in respect of supplies made on credit 3

SECTION 5—EDUCATION.

No. 6540-9—Edn. 35-11-9, dated 12th—

Reviewing the Report on Public Instruction in Mysore for the year 1910-11 1—2

No. 7103-4—Edn. 322-10-5, dated 30th—

Sanctioning the establishment of a model Anglo-Hindustani School at Bangalore 2—3

SECTION 6—EXAMINATION.—*Nil.*

V. GENERAL.

SECTION 1—REPORTS.—*Nil.*

SECTION 2—PRESS—*Nil.*

SECTION 3—MISCELLANEOUS.

No. G. 4697-4744—G. M. 60-11-3, dated 7th—

Explaining the scope of Circular No. G. 6124-71—G. M. 264-10-1, dated the 22nd April 1911, regulating the use of the Mysore Coat of Arms and authorizes the Superintendent, Government Press, to use a plain Coat of Arms in the case of Administration Reports and other Government publications. 1

PAGES

No. G. 4914-23—G. M. 46-11-36, dated 18th—

Directing that the concession shown in Government Order No. G. 622-33—G. M. 74-10-36, dated 27th July 1911, of supplying patels, nad patels and shanbhogs with the English and Kannada portions of the *Mysore Gazette* at half the usual rates of subscription be granted to shekdars also. 4

VI. MILITARY.

No. 1028-—Mily. 29-11-3, dated 25th—

Reviewing the Annual Report of the Mysore Military Forces for the year 1910-11 1

VII. MUZRAI.

No. 2055-6—Muz. 139-10-6, dated 1st—

Directing that in conformity with their Proceedings No. 2681-2, dated 25th January 1905, Survey No. 56 of Kannur village be transferred as inam to the new temple built at Sagar by Kanle Dyavappa and dedicated to the Sri Venkataramanaswami temple on the Govardhanagiri Hill 1

No. 2085-7—Muz. 382-07-6, dated 5th—

Directing the assumption by Government of the management of the Sri Prasanna Ramalingeswaraswami temple at Avani in the Mulbagal Taluk with its endowments 2

No. 2128-30—Muz. 355-10-7, dated 8th—

Accepting the deposit of Rs. 3,600 at a favourable rate of interest, offered by Jagadesi Narasimhachar of Jagalimochundi near Somanahalli of Malvalli Taluk, for certain sevarthas in the Sri Varadarajaswami temple at Hemmige in the T.-Narsipur Taluk and in the Sri Narayanaswami temple at Melkote. 3—4

No. 2283-97—Muz. 386-11-3, dated 25th—

Recognising the succession to the Sri Uttaradi Matt of Vedamurti Seturamacharya under the titular name of Sri Satya Dhyana Tirtha Swamigalavaru. 5

No. 2313—Muz. 74-08-8, dated 25th—

Rejecting the appeal petition of Revanniah, Son of Siddappa, in the matter of the remission of khalsat on a portion of the Devadaya Inam lands endowed to Sivapuje Revanniah Matt at Maiganahalli in the Tumkur Taluk 6

VIII. PUBLIC WORKS.—*Nil.*

IX. RAILWAYS.—*Nil.*

X. GEOLOGICAL.

No. 1584-6, dated 5th—

Passing orders in the matter of Mr. Jodidar Venkatabhatta's application for certain concessions in respect of license No. 5 granted to him for collecting corundum in the Arsikere Taluk 1—2

XI. GOVERNMENT HOUSES, ETC.—*Nil.*

PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Government Order No. R. 14313-21—L. R. 639-05-2, dated 9th May 1906, declaring that joint pattas are not allowed by the Land Revenue Code and the Rules thereunder.

(2) Representative Assembly Subject No. 82 of 1909 and 126 of 1910, praying that the system of granting joint pattas may be revived.

(3) Letter No. 12673, dated 14th June 1910, from the Revenue Commissioner in Mysore, expressing his opinion in the matter:—

"Adverting to your No. R. 7851—L. R. 450-09-1, dated 18th May 1910, requesting my opinion regarding the revival of the system of joint pattas (D. R. A. Subject No. 82 of 1909), I have the honor to state as follows:—

2. The definition of the term 'Registered Occupant' given in Section 3 of the Land Revenue Code, clearly shows that the legislature intended that only one person should be registered as such even though there may be more occupants than one. Section 68 and Para 3 of Section 71 emphasises the same view. In all these sections there is no room for the application of the general rule of interpretation that the use of the word 'person' in the singular number may in certain cases be construed as comprising more than one person. The Government Order No. R. 14313-21—L. R. 639-05-2, dated 9th May 1906, stating that joint pattas are not allowed by the Land Revenue Code and the rules thereunder must therefore be admitted to be a clear exposition of the law as it is.

3. But I must say that the conditions existing in our Revenue administration render the strict enforcement of the rule not only hard and inconvenient to the people but are actually the cause of much fraud and abuse in practice. It is desirable to refer in fuller detail so as to explain the above remark. Many of our land-holders of all classes are members of joint families and hold the lands in common or enjoy in shares even when the coparceners are two or three degrees removed. Even when they enjoy their shares separately and such shares consist of separate numbers, they do not like to have them registered in separate khatas either from laziness, the trouble and expense of the step or from a feeling that the importance of the family would suffer thereby. Further, in a good many instances, independent numbers have been clubbed together and measured by the Survey Department on account of their being of small extent or to facilitate the survey operations and to keep down the cost of bandhs. Unoccupied lands have often been divided into large blocks and people have been obliged to combine together to take them up for cultivation. The evils resulting from this state of things have been many. For one thing the collection of revenue is very much impeded and the officers of Revenue Department are hampered in the carrying out of coercive processes. It has placed large power of mischief in the hands of dishonest persons while the weaker and quieter people are annoyed and fleeced. Most of the *revenue sales* when not due to the actual worthlessness of the land on which the arrears are due or the abject poverty of the holder, are the result of this indefinite and vague joint tenancy.

4. It may be urged that the provisions of Sections 77, 78 and 97 and the rules framed thereunder are sufficient to counteract the said evils. But as a rule, our raiyats and for that matter even people of higher degree, possessing greater influence, are very backward and not only ignorant of these safeguards, but slow and unwilling to resort to them. Even our subordinate revenue officers are generally ignorant of these salutary provisions and of the other measures, precautionary and remedial, which they can have recourse to, for collecting the revenue without placing it in the power of the unscrupulous to harass the weaker and quieter members of the community and deprive them of their lands.

5. In these circumstances, I strongly feel that our revenue law may be said to favour ease and simplicity in administration at the risk of loss and trouble to the community and the Article XXV of the old Revenue Rules was a very wholesome provision. It will be a great blessing to the people if it can be restored even by amending our Land Revenue Regulation if need be. The above remarks have perhaps gone beyond the question raised by the proposal of the Representative Member but they clearly include it and show most vividly the need of the proposed change."

(4) Unofficial note, dated 30th August 1910, from the Superintendent, Revenue Survey and Settlements, expressing his opinion against the system of joint pattas.

Land Revenue, dated 4th March 1912.

No. R. 4563-72—L. R. 450-09-3, DATED BANGALORE, 4TH MARCH 1912.

ORDER THEREON.—In the Government Order read above, it has been pointed out that the Land Revenue Code does not authorize the grant of joint pattas and Government observe that they cannot be allowed without amending the existing law. The system of joint pattas was, to some extent, countenanced by Rule XXV of the Revenue Rules of 1890, but it was given up as they were not only contrary to the provisions of the Land Revenue Code but were also found to be a source of great embarrassment and inconvenience to Government in the recovery of revenue. The system also encouraged people to neglect, to some extent, other means provided by law of protecting their rights. It has been repeatedly held that the mere existence of the patta in the name of a particular individual does not strengthen his right and that the interests of others in the land are in no way affected thereby. The existing rules amply provide for a share-holder protecting himself against the risk of the land in which he has an interest being sold for arrears of revenue without his knowledge (*vide* Sections 77 and 78 of the Land Revenue Code and Rule 40 of the rules) and the introduction of joint pattas will not improve his position. Rule 75 of the Land Revenue Rules serves moreover most of the objects for which joint pattas are asked for as share-holders may get their shares recorded in the revenue registers under that rule and they can further get their names entered in the special notice register under Rule 40 without payment of any fee. Joint pattas can also be of little use unless at the same time provision is made for apportioning the assessment payable by each share-holder and allowing separation of shares by means of sub-division in case of default on the part of some of the share-holders in paying their quota of Government revenue. As this is obviously inexpedient for several reasons, Government are not in favour of introducing any alterations in the present practice.

C. S. BALASUNDARAM IYER,
Secy. to Govt., Gen. & Rev. Depts.

The Deputy Commissioners of Districts.

Exd.—C. V.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ AGAIN—

Government Order No. G. 4787-829—Med. 142-08-27. dated the 15th March 1910, issuing certain instructions for regulating the malnad service of Government servants.

READ—

Letter No. 12720, dated the 20th June 1911, from the Revenue Commissioner in Mysore stating that the order of March 1910 referred to above has been a dead letter as the Deputy Commissioners of maidan districts naturally shift the onus of transfer on their neighbours, and suggesting for approval certain additional rules in order to make the order effective, *viz.*—

(1) Each Deputy Commissioner of the maidan districts of Chitaldrug, Tumkur, Kolar, Bangalore and Mysore should make one out of every three or four vacancies among the taluk officials occurring in their districts available for similar officials of the malnad taluks of Kadur and Shimoga, in which the maidan taluks are few.

(2) The Deputy Commissioners of the malnad districts should keep a register of names of officials who require transfers to maidan places in the order of urgency and they should circulate the list to the Deputy Commissioners of the maidan districts once in every quarter.

(3) The Deputy Commissioners of the said maidan districts should have the privilege of transferring, on promotion, officials from the district who volunteer to go there in the place of officials provided for in their own districts. As regards officials in the District and Sub-Division Offices, arrangements for transfer might be made when necessary by the Revenue Commissioner in communication with the Deputy Commissioners concerned.

No. R. 5042-83—L. R. 442-10-2, DATED BANGALORE, 20TH MARCH 1912.

ORDER THEREON.—The additional rules proposed by the Revenue Commissioner are approved. With them the rules will now read as printed hereunder:—

(1) Where executive and other officers liable in the ordinary course to service in all parts of the State, have put in a continuous service of three years or more in the malnad or any unhealthy station, it will be open to them to ask for a transfer to a maidan station and the application may be favorably considered at the earliest possible opportunity consistent with the public interests.

(2) A longer period, say five years, may be insisted upon in the case of the District Forest Officers and their Assistants and in that of minor officials who are not ordinarily required to serve in all parts of the State.

(3) But in special cases where an officer is in a position to obtain a certificate from the District Medical and Sanitary Officer of the District or other prescribed Medical authority, to the effect that his health has been injuriously affected by residence in the malnad or in any unhealthy station, his transfer may be effected at once or, if this be not possible, on the expiration of any leave to which he may be entitled under the Mysore Service Regulations.

(4) Heads of Departments and Deputy Commissioners of Districts should, as a rule, consider, in making or recommending permanent transfers, whether every officer has or has not put in the required period of service in the malnad, and if there are any who have not, give or recommend for an early turn of duty there, public interests permitting. Where Deputy Commissioners of malnad districts wish to effect transfers of officials to a maidan station, they may arrange for such transfers, if necessary, in communication with the Deputy Commissioners of maidan districts and the Revenue Commissioner or other Head of Department concerned.

(5) In the case of gazetted officers, Government generally adopt these principles, and in the case of junior or ministerial officers in whose case the difficulty is chiefly experienced, Government look to the Heads of Departments and the Deputy Commissioners of Districts to effect what considerations alike of humanity and of official efficiency require.

(6) Each Deputy Commissioner of the maidan Districts of Chitaldrug, Tumkur, Kolar, Bangalore and Mysore should make one out of every three or four

Land Revenue, dated 20th March 1912.

vacancies among the taluk officials occurring in their districts available for similar officials of the malnad taluks of Kadur and Shimoga, in which the maidan taluks are few.

(7) The Deputy Commissioners of the malnad districts should keep a register of names of officials who require transfers to maidan places in the order of urgency, and they should circulate the list to the Deputy Commissioners of the maidan districts once in every quarter.

(8) The Deputy Commissioners of the said maidan districts should have the privilege of transferring, on promotion, officials from the district who volunteer to go there in the place of officials provided for in their own districts. As regards officials in the District and Sub-Division Offices, arrangements for transfer might be made when necessary by the Revenue Commissioner in communication with the Deputy Commissioners concerned.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. 9 of 1911-12.

Appellants	*Vs.*	Respondent.
Sanna Sidda and other raiyats of Nimbemaradahalli, Sira Taluk		Ugregowda of Chickenahalli.

Subject.

Appeal against the order of the Deputy Commissioner of the Tumkur District, cancelling the darkhast sale of Survey No. 4, below the breached Agrahar tank, held in favour of the appellant.

Facts of the case.

One Sanna Sidda of Nimbemaradahalli in the Sira Taluk, submitted a darkhast for Survey No. 4 of the said village on 26th April 1910, and the Amildar ordered the land to be sold in public auction. The land in question was then sold to Sanna Sidda for Rs. 15, although its estimated value was Rs. 75. The amount realised having been considered too low, the shekdar was directed to ascertain from the purchaser whether he was prepared to pay the full estimated value of the land. In reply, the shekdar reported that Sanna Sidda was too poor to pay the estimated value of the land and that as per personal instructions of the Amildar a sum of Rs. 5, including cess, etc., was recovered from the purchaser. The Amildar confirmed the sale on 21st September 1910.

Ugregowda, the present respondent before Government, submitted a petition to the Deputy Commissioner on 7th November 1910, stating that he was the first darkhastdar for this land and that it was sold to Sanna Sidda without his knowledge. The Amildar was then directed to report in the matter. In his report No. 138, dated 9th November 1910, the Amildar stated that the respondent Ugregowda had applied for Survey No. 4 and some other lands for the chattram constructed by him and that the matter was lost sight of as the records had been submitted to the Sub-Division Officer and were not pending in the Taluk Office. Thereupon, the Deputy Commissioner cancelled the grant of the land to Sanna Sidda on the ground that the Amildar's procedure in the matter was irregular. Hence the appeal. This is a case withdrawn from the Revenue Commissioner's file under Section 210A of the Mysore Land Revenue Code. It came on for hearing on the 13th February 1912, when the parties represented by Messrs. L. Srinivasa Iyengar and D. Venkataramiah were heard.

Order.

Government are not prepared to say that the Deputy Commissioner's order is wrong. The power of confirming sales or selling lands by public auction may be delegated to the Amildar under the Revenue Rules. When the Amildar declined to confirm the sale, his further action in granting the field on the appellant paying five rupees more can only be regarded as giving the occupancy for an upset price, though the Amildar calls it a confirmation of the sale by auction. The power to give out lands for an upset price is vested only in the Deputy Commissioner and cannot be delegated to the Amildar. The grant therefore was beyond the latter's power and so the Deputy Commissioner's order cannot be set aside.

It may, however, be observed that Ugregowda's appeal to the Deputy Commissioner was beyond time and Ugregowda has no sufficient interest in the subject matter to entitle him to be heard as an appellant. The order of the Deputy Commissioner, however, is based on other grounds and cannot be objected to on this account.

The appeal is dismissed.

Land Revenue, dated 20th March 1912.

MEMO No. R. 5105-13—L. R. 266-11-3, DATED BANGALORE, 20TH MARCH 1912.

Copy of the above is forwarded (1) to the Deputy Commissioner of the Tumkur District, together with the records connected with the case,

(2) to the Revenue Commissioner in Mysore for information, and
(3) to the Deputy Commissioners of other Districts.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

Fxd.—c. v.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 22nd March 1912.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. 20 of 1911-12.

Appellants	*Vs.*	Respondent
Sonnappa and others of Kalavibagi village, Hiriyur Taluk.		Nijjegowda.

Subject.

Appeal against the order of the Deputy Commissioner of the Chitaldrug District declining to register their names in the village accounts as co-sharers of Survey No. 40 of the Kalavibagi village in the Hiriyur Taluk.

Facts of the case.

Sonnappa and others of the Kalavibagi village in the Hiriyur Taluk applied to the Amildar in 1907 to register their names in the village accounts as co-sharers of Survey No. 40 of the said village in the khate of the respondent Nijjegowda, on the ground that they had each one anna share in the occupancy of the land in question. As the khatedar denied the existence of any such right, the Amildar rejected their application and directed them to seek redress in the Civil Court. Thereupon, on appeal to the Deputy Commissioner, a further enquiry was held in accordance with Government Order No. R. 1326-37—L. R. 457-07-2, dated the 27th August 1908, and the parties were referred to the Civil Court.

Hence the present appeal.

This is a case withdrawn from the Revenue Commissioner's file under Section 210A of the Mysore Land Revenue Code. The parties, represented by Messrs. M. Ramachandra Rao and Krishnappa, respectively, were heard on the 20th February 1912.

Order.

The Deputy Commissioner has given good reasons why the names of the appellants should not be entered as co-occupants. Granting that the Deputy Commissioner can hold an enquiry to decide a disputed question of co-occupancy, it cannot be meant that such enquiry should be other than a simple one. The Government Order ordering enquiry in this case shows that if an elaborate enquiry be needed, the Deputy Commissioner has discretion to refer the parties to a Civil Court.

This appeal is dismissed.

No. R. 5130-38—L. R. 413-11-2, DATED BANGALORE, 22ND MARCH 1912.

ORDER.—Copy of the above is forwarded (1) to the Deputy Commissioner, Chitaldrug District, together with the records relating to the case, (2) to the Revenue Commissioner in Mysore, for information, and (3) to the Deputy Commissioners of other districts.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 23rd March 1912.

READ AGAIN—

Para 4 of Government Order No. R. 9358-69—L. R. 226-06-11, dated 18th April 1907, permitting the cultivation of catch crops subject to certain conditions on lands granted for the cultivation of rubber in accordance with Government Order No. R. 3474-84—L. R. 226-06-1, dated 28th September 1906.

READ ALSO—

Letter No. 1197, dated 26th July 1911, from the Revenue Commissioner in Mysore reporting that some of the lands granted for rubber cultivation in the Manjarabad and Belur Taluks have been planted with coffee and cardamom in addition to rubber and requesting that expert opinion may be obtained as to the meaning of the expression "catch crop" as, while the planters contend that coffee and cardamom are catch crops, the Deputy Commissioner is of opinion that they cannot be termed as such and feels doubtful as to whether their planting is not a violation of the conditions of the grant of the land rendering it liable to resumption under paras 3 and 9 of the form of agreement appended to Government Order No. R. 2184-93—L. R. 98-07-3, dated 23rd September 1907.

2. Unofficial note No. 254, dated 13th September 1911, by the Officer in charge of the Agricultural Chemist's Office.

No. R. 5186-95—L. R. 183-11-2, DATED BANGALORE, 23RD MARCH 1912.

ORDER THEREON.—Government observe that their meaning has been made quite plain in the terms used in para 4 of Government Order No. R. 9358-69—L. R. 226-06-11, dated 18th April 1907. The rubber enterprise is entitled to a fair and even liberal treatment, and so long as the catch crop is "strictly subordinated to the cultivation of rubber and ceases to be raised when the rubber trees begin to yield," it is immaterial whether it is an annual crop or otherwise, *i.e.*, whether it is ragi and horse gram or coffee or cardamom.

Exd—c v.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. 41 of 1911-12.

Appellant.—M. L. Narasimha Iyengar, Advocate, Mysore.

Subject.

Appeal against the order of the Deputy Commissioner, Mysore District, directing the resale of certain survey numbers of Melapur village, Seringapatam Taluk.

Eight survey numbers of the total extent of 83 acres and 12 guntas, bearing an assessment of Rs. 36-8-0 were sold for arrears of revenue on 1st May 1909 and were purchased by the appellant for Rs. 18. When the records were submitted to the Assistant Commissioner for the confirmation of the sale, the khatedar's son, on whom the demand notice had been also served, was called upon to show cause why the sale should not be confirmed. No objection was taken to the sale either by the khatedar's son or by anybody else. After having personally inspected the lands, the Assistant Commissioner confirmed the sale on 27th January 1910.

Subsequently, one M. D. Narniengar of Mysore petitioned the Sub-Division Officer, stating that the lands had been sold for a very low amount and offering to take them up for Rs. 60 if they were resold. Similarly two others also of Mysore requested the Deputy Commissioner to direct a resale, offering Rs. 150 and 100 respectively.

The matter having been referred to the Assistant Commissioner, the latter reported that the lands had not yet been given over to the possession of the appellant and recommended that his previous order confirming the sale might be cancelled and the lands, ordered to be resold, inasmuch as there was still Rs. 140 to be realised on the land on account of arrears of land revenue.

The Deputy Commissioner ordered, on 30th June 1910, that the lands might be resold after having the amount of Rs. 150 offered by one of the objectors to the sale, deposited.

The deposit not having been made, the matter was again referred to the Deputy Commissioner, who directed that the lands might be resold as already ordered by him, the total arrears due on the land being fixed as the upset price.

Against this order the appellant appealed to the Revenue Commissioner. The appeal was withdrawn under Section 210A of the Land Revenue Code and came for hearing on 23rd February 1912, when the appellant was present in person.

Order.

The sale was duly confirmed in January 1910, by the Assistant Commissioner. There was no appeal by any party having an interest in the lands prior to sale. On the offer of a stranger, made some four or five months after the sale, the Deputy Commissioner ordered it to be set aside on condition that the petitioner deposited Rs. 150. The latter failed to do so and then the Deputy Commissioner ordered that the sale should take place unconditionally. The present appellant was not even given notice of these proceedings.

The sale having been duly confirmed and no appeal having been filed by any person interested, within the time allowed by law, the Deputy Commissioner was not right in setting aside the sale, on the sole ground that a third party offered to pay a somewhat higher price.

The Deputy Commissioner's order will be set aside and the sale to the appellant held to be valid and binding.

Land Revenue, dated 25th March 1912.

G. O. No. R. 5208-16—L. R. 415-11-2, DATED 25TH MARCH 1912.

Copy forwarded (1) to the Deputy Commissioner, Mysore District, with the records received with his letter No. 88, dated the 28th July 1911, (2) to the Revenue Commissioner in Mysore, with the request that the decision may be caused to be published in the *Revenue and Agricultural Gazette* and (3) to the Deputy Commissioners of Districts.

Exd.—C. V.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Correspondence ending with letter No. 435, dated 1st February 1911, from the Deputy Commissioner, Mysore District, regarding the levy of water rate on the inam lands (both wet and dry) benefited by the restoration of the Kotebetta tank in the Nagamangala Taluk.

No. R. 5253-5—L. R. 45-08-6, DATED BANGALORE, 26TH MARCH 1912.

ORDER THEREON.—Government in their Order No. 521-2—2971-2, dated 16th June 1896, sanctioned the restoration of the Kotebetta tank, which had been lying breached for thirty years, at an outlay of Rs. 47,145. The extent of inam lands below the tank is 162 acres and 22 guntas assessed at Rs. 227-4-0, out of which 29 acres and 2 guntas had been classed as wet during the survey and settlement which took place in 1889, as depending on the waste water of Hirikere and Sulikere tanks. The order of 1896 required the holders of inam lands to pay a water rate not exceeding Rs. 2-8-0 an acre instead of a lump sum contribution of Rs. 9,637 payable by them towards the cost of the restoration of the tank. Subsequently in 1905 a question arose as to whether both the wet and dry inam lands should pay the same water rate. As contribution had not been separately levied and the water rate was intended partly to make up the amount of contribution which the inamdars would otherwise have had to pay and also as the bulk of the lands were wet at the time of the grant of the inam, it was directed in Government Order No. R. 9146-8—L. R. 358-04-6. dated 10th April 1907, that a water rate of Rs. 2-8-0 an acre be levied in the case of dry lands newly converted into wet, and a water rate of Re. 1-8-0 an acre in the case of old wet lands, as the source of their irrigation which was precarious before, was rendered more certain by the restoration of the tank.

2. The inamdars pray for a revision of the above order and request that they may be charged a uniform rate of Re. 1-8-0 an acre till the contribution promised by them is recouped.

3. With regard to their contention that the bulk of the inam lands were wet at the time of the grant of the inam, Government observe that, though it might have been so, the value of the lands had decreased subsequently owing to the deterioration of the source of irrigation and consequently most of them were classed as dry and charged with dry assessment. By the restoration of the tank at Government cost, a fresh source of irrigation was created imparting additional value both to the wet and dry lands, which are, therefore, liable to a water rate under Section 53 of the Land Revenue Code. The levy of water rate was accordingly directed in the order of 1896.

4. The inam dry lands do not differ from the Sirkar lands of the same description. The Sirkar raiyats have paid a lump sum contribution of Rs. 4 an acre towards the capital cost of the work and have now been paying a water rate of nearly Rs. 3 merged in the wet assessment. The inamdars, on the other hand, have been asked to pay only water rate on account of their dry lands benefited by the tank.

5. The small extent of inam lands which was wet before the restoration of the tank, depended on the waste water of Hirikere and Sulikere tanks and it is not denied that even these lands have been benefited appreciably by the restoration of the tank. The reduced water rate of Re. 1-8-0 in the case of these lands is, therefore, fair and reasonable.

6. The ground urged by the inamdars for the reduction of the water rate as fixed by the order of 1907 to a uniform rate of Re. 1-8-0 an acre is that the contribution they promised was one-fourth of the cost as originally estimated (Rs. 6,000 and odd) and not Rs. 9,637. Government observe that in the case under reference the inam lands are minor inams and the irrigation work is a Government tank, and the case of each inam has to be individually considered. The inamdars would have

Land Revenue, dated 26th March 1912.

been required to pay water rate even if they had paid a large amount as contribution separately. Their contention that the water rate they are bound to pay is in lieu of contribution alone is, therefore, groundless.

7. For the foregoing reasons, Government are of opinion that the Inamdars have been treated with sufficient liberality and that no further concession is warranted. The review petition is, therefore, rejected.

C. S. BALASUNDARAM IYER,

Fxd.—c. v

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

APPEAL No. 27 OF 1911-12.

Appellant	*Vs.*	Respondent
Kengegowda of Karigala, Heggaddevankote Taluk.		Javaregowda living in the same village.

Subject.

Appeal against the order of the Deputy Commissioner, Mysore District, declining to cancel the revenue sale of Survey No. 65 of the village.

Facts of the case.

The survey number in question together with 17 others stood in the khate of the appellant, the total assessment on all the numbers being Rs. 224-7-3. Some of these are reported to be in the possession and enjoyment of others.

For arrears of revenue amounting to Rs. 85-15-2, due on the khate, a demand notice was issued and served on the appellant and also on one Venkategowda, one of the persons interested in the holding. The default continuing, Survey No. 174, one of the numbers comprised in the khate, was forfeited and advertised for sale.

On the sale notification the appellant made an endorsement in the following terms:—"ಈ ಹಣಾ ಅಸಲ್ ಬಿದಿ ನೋಡಿಕ್ಕೊಂಡೆ ಸಾಲೆನಾಲ್ ಕಂದಾಯವನ್ನ ಕೊಡುತ್ತಾ ಬಂದೆ ಹೋದ ಸಾಲಿನಲ್ಲಿ ನನ್ನಿಂದ 70 ಚಿಲ್ಲರೆ ರೂಪಾಯಿಗಳನ್ನು ಜಾಸ್ತಿ ತೆಗೆದುಕ್ಕೊಂಡು ಇರುವದ್ದರಿಂದ ನನ್ನ ದಾಯಾದ್ಯರು ನನಿಗೆ ಕೋಸುಮಾಡಲು ಕಂದಿರುವದ್ದರಿಂದ ನಾನು ಈ ಸಾಲಿನ ಕಂದಾಯವನ್ನ ನಿಲ್ಲಿಸಿರುತ್ತೀನೆ."

The sale was conducted by the Taluk Sheristadar, but no bidders were forthcoming.

Thereupon two other survey numbers, noted in the margin, were forfeited by the Amildar and advertised for sale.

No.	Extent		Assessment			Estimated value		
	A.	g.	Rs.	a.	p.	Rs	a.	p.
65	4	31	20	0	0	475	0	0
42	6	18	24.	0	0.	840	0.	0

The sale notification also was served on the appellant.

In the sale, which was conducted by the Amildar, the respondent purchased the land for Rs. 325.

Twenty-eight days after the date of the sale, the appellant produced the arrears before the Amildar and prayed for its cancellation, alleging that he had been away from the village to collect the kandayam and that he could not therefore produce the arrears before the date of the sale.

The Amildar accordingly recommended that the sale should not be confirmed. But the Sub-Division Officer, however, confirmed the sale, observing that the appellant was a patel, that both the sale notifications having been signed by him, he had ten clear months to pay his dues.

On appeal the Deputy Commissioner confirmed the order of the Sub-Division Officer.

Thereupon the appellant preferred an appeal to the Revenue Commissioner. The appeal having been withdrawn under Section 210 A of the Land Revenue Code, came for hearing on 20th February 1912, when both the parties were present.

It is urged that the declaration of forfeiture by the Amildar, of the occupancy of Survey Nos. 65 and 42, which have been assessed at Rs. 44, is illegal and (2) that the lands notified for sale having been estimated at Rs. 1,315, the sale ought to have been conducted by the Assistant Commissioner and not by the Amildar.

Land Revenue, dated 30th March 1912.

Order.

There were two irregularities in the sale but the price that the field fetched at the sale cannot be said to be inadequate The khatedar suffered no loss on that account. The appellant had notice of the sale and did not care to pay the arrears in time. As patel, he should have known that the excuse urged by him was futile. The appeal is dismissed.

No. R. 5355-63—L. R. 421-11-2, DATED 30TH MARCH 1912.

Copy forwarded to (1) the Deputy Commissioner, Mysore District, with records received with his No. 8, dated 2nd July 1910, (2) the Revenue Commissioner in Mysore, with the request that the decision may be caused to be published in the *Revenue and Agricultural Gazette*, and (3) the Deputy Commissioners of other Districts.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

Exd.—C. V.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

I. Letter No. 113, dated the 21st April 1911, from D. Shama Rao, Esq., Superintendent of Revenue Survey and Settlement, submitting his report No. 87, dated 26th January 1911, containing proposals for the revision of assessment of the Shimoga Taluk.

As directed in para 14 of Government Proceedings No. R. 4299-310—L. S. 3-06-2, dated 29th October 1906, I have the honor to submit in advance for the consideration of Government six copies of my report, together with six copies of illustrative map, containing proposals for the revision of assessment of 280 Government villages of the Shimoga Taluk, as it stood at the time of the introduction of the original Survey Settlement.

2. I have also sent copies of my report both to the Revenue Commissioner and the Deputy Commissioner for their opinion and I shall on receipt of their replies submit the same to Government with such remarks as may be necessary.

Report No. 87, dated Bangalore, 26th January 1911, from D. Shama Rao, Esq., Superintendent of Mysore Revenue Survey and Settlement, to C. S. Balasundaram Iyer, Esq., B.A., Officiating Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

I have the honor to submit proposals for the revision of assessment of 280 Government villages of the Shimoga Taluk as constituted at the time of the introduction of the original Survey Settlement, reported on by Captain (now Colonel) J. P. Grant and sanctioned in Government Proceedings No. 8108—Rev. 493, dated the 6th February 1875.

2. The Settlement was, at the time, concerned with only 278 Government villages. Subsequently, however, two fresh villages, the Malleshankar and the Manna jungle forest were formed by appropriation from the lands of several contiguous villages. Further, the villages of Timkapura and Sakrebail were brought over from the list of Inam villages to that of Government villages. Against this accession of four villages, has to be set off a reduction of two Government villages, Dasankoppalu and Nanjapura which have lost their individuality by being absorbed into two other neighbouring villages since the original Settlement. The net result is consequently an addition of two to the number of Government villages settled in 1875.

3. As an alteration of the territorial boundaries between Shimoga and some of the adjoining taluks took place in the year 1882, something must be said to explain how the tract now reported on differs from the Shimoga Taluk of the present day. Fifty-six villages now in the Kumsi Sub-Taluk, formed part of the Honnali Taluk, *i.e.*, prior to the year 1882. These villages have been dealt with in my Settlement proposals for the Honnali Taluk. A cluster of nine villages in the extreme north-west and another of seven villages in the south, were taken into the existing Shimoga Taluk from the late Anantapur and Lakvalli Taluks respectively. These also will be left out of consideration for the present. The old boundary line has not been disturbed at any other point, so that the tract under report is bounded on the north by the old Honnali Taluk, on the east by the Channagiri Taluk, on the south by the Tarikere and the late Lakvalli Taluks, and on the west by the Tirthahalli and the late Anantapur Taluks. The surface thus enclosed is fairly regular on the north, east and the south sides, but the west-north-west boundary is wavy and considerably indented. The average length east to west is about 27 miles, that from north to south is 21 miles, but the longest distance in the tract lying about diagonally north-west to south-east, measures so much as 38 miles.

4. *Physical characteristics.*—Except for a few openings here and there, through which the main communications with adjoining taluks are laid out, the taluk under report is surrounded on all sides by hills. These are dark in colour and for the most part devoid of anything like vigorous vegetation in the north and the east. Manganese is an important constituent in these hills. On the south-east and on the north-west, they are covered with jungle, still crubby and uninviting:

but towards the south-west and the south, they are clothed with the heavy forest of the Malnad type; elephants, tigers, and wild boar find a natural habitation here.

5. *Forests.*—About 100 square miles are taken up by State Forests, and nearly 3 square miles by forest plantations which are named below:—

State Forests.

1. Malle Shankar.
2. Manna jungle.
3. Chornedebalii.
4. Kunchenahalli.
5. Puradahal.
6. Sakrebail.
7. Umblibail and Hunasikatte.
8. Aldhara.
9. Kukwada. Ubrani.

Plantations.

1. Sakrebail.
2. Shimoga Revenue Plantation.
3. Alkola Sandal Reserve.
4. Anapinkatte.
5. Korlakoppa.

Sandal trees are reared in four of these, while two of them are planted with teak. Sandal grows wild in the Kenchenhalli State Forest and in the Holehonnur Sub-Range. Bamboos and teak are common to all the forests. Timber is brought into Shimoga by either contractors, or by employees of the Forest Department itself loaded on bullock carts, generally; a couple of traction engines are employed for the transport of teak from the Sakrebail jungles. Bangalore, Kolar Gold Fields and Dharwar are directions in which exports are largely made.

6. *Rivers.*—The interior of the taluk is free from hills. The Tunga and the Bhadra, two streams that take their origin in the ghats in the Kadur District, collect the drainage from the hills and slopes on the east and the west of the taluk and meet at Kudli, about 8 miles north-east of Shimoga. Further down, the united stream, known as the Tungabhadra, runs a course of about 10 miles before quitting the taluk, crosses the Honnali and Harihar Taluks and runs into British Territory, eventaully falling into the river Krishna. The never-failing supply of drinking water to man and beast is the chief benefit that these rivers confer. A far less important use to which the rivers are put, consists in their being employed, for about four months in the year, as a vehicle for floating down timber from the southern forests up to Harihar. These are the only uses to which the rivers lend themselves. They are not resorted to for irrigation. Indeed, the banks all along are so high that not only is direct irrigation impossible, but even the construction and working of wells on them for lifting water in the season when water is most needed for the crops, if attempted, would not prove to be a remunerative undertaking. An enterprising raiyat at Hanswadi is making endeavours to force the water on to his lands by means of an oil-engine, but the results so far have not been encouraging. During the floods, about four months in the year, the rivers present a more or less serious obstacle to traffic between villages on either side, excepting at Shimoga and Benkipur where fine old bridges span the Tunga and Bhadra respectively, and at four other points (Gajnur, Kudli, Holehonnur and Mungoti) where the streams are forded in leather covered baskets (Hargols). The Tunga and the Bhadra flow at the bottom of two wide valleys in which most of the cultivation of the taluk has gravitated; anybody travelling on the Shimoga-Holehonnur road which is laid out on the table-land dividing the valleys, may get a comprehensive view of them from a number of points. The hallas that feed the Tunga, the Bhadra and the Tungabhadra, course along smaller valleys, and the raiyats have taken advantage of them for cultivation.

7. *Soils.*—Both good and bad soils from the agricultural stand-point are met with. The soil in a portion of the north and north-east of the taluk, occupied by the Harmgatta, Anveri, Holalur, Holehonnur, Kudli and Chandankere maganis, and in a portion of the kasaba magani is rich in productive elements. The Benkipur, Hiriyur and Kudlagere maganis would come next in order, and in the rest of the taluk, it is a shade inferior still. A fair idea of the locale of the good soils in

the taluk is obtained by imagining them to fall within the enclosure formed by the roads leading from Nyamti to Shimoga, from Shimoga to Benkipur and from Benkipur to Channagiri. Of the soils in the area falling outside of this block, that of Benkipur magani may be said to be tolerably fair in quality, improving towards the eastern confines of the taluk, where however, the population is sparse; the soil in Hiriyur magani is on the whole slightly superior to that of Benkipur. The Gajnur soils are generally poor. In the west of Shimoga magani, the soil is good, though here also, unfortunately, hygienic causes tend to neutralize an otherwise natural increase in population. The existence of a spur of hills running across the north of Shimoga magani, explains the large admixture in the soil, of a soft, finely pulverised rock, which looks like ordinary river sand, and is washed down to about a dozen villages at the foot of the hills.

8. *Climate and rainfall.*—The month of April and the first half of May are usually very hot in Shimoga Taluk. People newly settling in the taluk complain of a weariness and enervation, during the hot weather. In December and January the cold is somewhat intense, the thermometer occasionally falling so low as 50 degrees. At about the middle of April, one or two sharp showers of rain tell of a monsoon which still is not quite near at hand. A few more good showers and a good deal of drizzling in May, assuage the violent heat. With June come the steadier first rains of the south-west monsoon. The rainiest month in the year is July in which an average, for 40 years, of over 8 inches at Shimoga, has been declared by the Director of Meteorology in his report for the year 1909. From the middle of August, the strength of the monsoon gradually abates till October, when they have the showers of the Madras monsoon, which generally keep on till the beginning of December.

There are three rain-gauge stations within the tract under consideration, and the average fall at these is as noted below:—

		Inches	Average for
Shimoga	... ...	35·17	40 years.
Benkipur	... ...	32·86	17 „
Ayanur	... ...	39·44	11 „

Thus the average for the whole of the taluk works out to 35·82 inches. But it would be next to useless to take an all-round average seriously, where the rainfall varies so widely in different portions, as is the case with Shimoga Taluk, particularly as no rain-gauges have been established in villages towards the south-west or the north-east, where the greatest diversity obtains in climatic conditions so far as rainfall is concerned. Circumstances, however, render it permissible to deduce an approximate figure to denote the rainfall in each of these regions. We may reason as follows:—The west and the south-west of the taluk come within a belt of country contiguous with the ghat regions, where the rainfall is heaviest in all the Province. This portion of the taluk has the station of Ayanur at its north boundary; and another station Yedahalli is found about 6 or 7 miles removed from its south. Sakrebail village in Shimoga Taluk being nearly midway on the line joining Ayanur and Yedahalli, and all three situated in a country of a homogeneous character with respect to rainfall, we may accept for Sakrebail and tracts adjacent to it a fall equivalent to the mean between the known averages at the other two stations, that is, 49·93 inches. In like manner, the least rainy portion of the taluk, the north-east, may with confidence be credited with an average midway in intensity between Shimoga and Channagiri, *i.e.*, 30·99 inches. In the result, three well-defined conditions of climate prevail within the confines of the taluk, the west and the south with an average of about 50 inches, the centre with an average of about 35 inches, and the north with an average of about 31 inches.

Irrigational resources.

9. *Tanks.*—There is a very considerable number of tanks, far the greater number of which are situated in the eastern half of the taluk. But only about a dozen of these possess large *atchkats* for irrigation. These important tanks are at Harige, Hasudi Sante-Kadur, Bidare, Benkipur, Hiriyur, Yerehalli, Danwadi,

Mulkere and Koppa. They are all in fair working order. A number of other tanks, both major and minor, are placed above the Railway line, so, special care is taken to keep them in good repair. No new tank of any importance has been constructed since original settlement, but those at Danwadi, Harige and Sante-Kadur have been extended and improved considerably in recent years. The Danwadi tank restored in 1895, is perhaps the most capacious irrigation work in Shimoga Taluk, obtaining a good and a regular supply from the rainwater draining from the hills in the east. Unfortunately, it is generally found to be incapable of irrigation after the middle of the hot weather; this is due partly to the extensiveness of the *atchkat* it irrigates, the channels running a length of 4 miles each, supplying water up to Kudlagere village. It is stated, moreover, with how much truth I am not able to say, that the tank bed consists of a porous stuff which helps much of the water to sink underground. The large tank at Shedikoppa which supplies a large *atchkat* in no less than five villages, has had its kodi and a sluice in bad repair for a long time, with the result that some of its *atchkat* is overgrown with heavy jungle. It is very desirable that this tank should be put into order, to ensure a proper supply of water to its extensive *atchkat*. The major tanks in the Benkipur hobli, *viz.*, those at Tadasa, Bilake, Nidage, Yerehalli, Benkipur (large tank) and the two at Siddapura are among the most reliable. These stood well for a very fair crop even during 1908, a year which was almost as unpropitious in this region, as it was in many other parts of the Province. Of the numerous small tanks in the taluk, not many have any stone revetting done on them. The bunds of a large majority consist of earthwork alone. Some of them have carefully constructed sluices, to regulate the issue of water, and some are only trenched across in Maland fashion, when water is wanted. The smaller of the tanks hold water in very limited quantity. They never were intended for any sustained employment during the growth of a crop. All that was wanted of them was a matter of one or two waterings during lengthy breaks of clear weather in the monsoon season. Kattes of sizes are frequently to be noticed studding the sloping sides of a valley. It is obvious that one of the purposes they were meant to serve, is to break rushes of water during heavy rains, which, unobstructed, would injure the crops below. The Public Works Department, according to a statement furnished, has spent within the past 35 years a sum of Rs. 1,64,734 on the repair and restoration of tanks in the taluk. These figures exclude expenditure incurred during a few years for which accounts are said not to be forthcoming.

10. *Wells.*—Wells are found, for the most part, in the north half of the taluk, and are on the whole of no great importance as a factor of irrigation. The simple reason for this state of things is a total absence of subsoil springs. As a consequence, the existing wells are few in number, are situated in the vicinity of tanks or other such sources as they may draw upon either directly or by means of percolation, and are, as a rule, of a cheap and slovenly description. Of course their use is chiefly in Dhruvapairu gardens. Wet lands on which sugar cane is grown also resort to wells. The wells in the Anveri, Holalur and Haramghatta maganis, as also in a very few villages of the kasaba magani are revetted on one side only, the kapile side. Nowhere else are kapile wells employed. In the gardens of the Benkipur and adjoining maganis, the wells are only mud holes, usually 2 or 3 to every garden, which are filled up by letting the sluice channels flow into them at the appointed periodical waterings from the tank. The pits so filled keep the soil within a certain radius moist, and serve as well to hold water in stock for a few days, from which it is taken in pots to the betel vine and other delicate plants requiring frequent attention. The only other mode of irrigation adopted is the turning to use of water accruing by percolation from the hill sides on the west and south-west. It would be possible to raise two wet crops in the year in the more favoured spots of this portion of the taluk.

11. *Crops and cultivation.*—Rice and ragi are the staple products of the taluk. Of less importance, though grown in pretty considerable quantities, are horse gram, javari, togari, hesaru, uddu, oilseeds, kotambari and other condiments and sugar cane. I give below a statement showing the percentage distribution of crops grown, as given by the Director of Statistics in the Season and Crop Report for the year 1907-08.

Revenue, (Land Survey), dated 11th March 1912.

Jola	3·31
Coffee	0·14
Ragi	29·61
Gram	9·82
Rice	36·57
Other cereals	8·44
Cotton	0·25
Oilseeds	3·19
Condiments	3·17
Garden produce	2·61
Sugar cane	1·40
Miscellaneous crops	1·48
Tobacco	0·01
Total ...	100

Ragi is cultivated very commonly in the dry crop regions in the north and east, the latter including the northern portion of Benkipur hobli. In the south and west, the chief pursuit is in relation to wet lands; very little of dry crop is raised. Of rice, the principal wet crop, three main kinds are produced—(1) the Neerdabansale, requiring continuous watering for about 4 months and well suited for the rainiest portion of the taluk; (2) the Dabansale, which has to be irrigated for about the same period, though only at intervals, and not continuously; and (3) the quick-growing "Moorthingala bhatta," which requires still less moisture and grows luxuriantly on high land suitable for ordinary dry crops, provided the rainfall is not unfavourable for about three months. A general maximum that holds good of all kinds of rice grown in such climate as obtains in the west and the south of the Shimoga Taluk is that, where irrigation from a tank is available for use against the occurrence of long intervals of dry weather, the harvest may be regarded as good and assured; where there is no tank to protect the crop, the latter will mature to satisfaction only when the rains are such as constitute what is ordinarily termed, a good average season. I need scarcely add that the spirit of this axiom pervades the rules under which classing the water-supply of a maland tract is carried out.

12. Sugar cane fields, of which however there are not many, are seen to most advantage, interspersed with rice lands, flanking the sides or at the bottom of the numerous small valleys in the south and the east of the taluk, and comprised mainly in the present Benkipur hobli. In the west half of the taluk it is not a common product, probably on account of the fewness of the tanks there. It is planted generally with the commencement of the hot weather, and arrives at maturity in about 10 months. There were 1,321 acres under sugar cane in the year 1907-08 which shows that raiyats have taken more kindly to it since the original settlement; sugar cane planting in the taluk is said to have received latterly a strong impetus from the example of the neighbouring Channagiri Taluk where it is produced on a large scale under the Sulekere Tank.

13. Arecanut, cocoanut, betel-leaf and other common fruits such as the mango, the jack and the plantain are the produce of the gardens. Country vegetables are reared in a long line of gardens on the river side at Holehonnur, and in less proportions in the villages of Somenkoppa, Bommankatte and Nairle. Plantains, once abundant, are now becoming scarce. The "koleroga" never has been common among the areca trees in this taluk, but they are always subject to what is known as "Hidimundi," in which disease the crown of the young plant shrinks in size, until it is about 7 or 8 years old, when it dies. Another and a more fatal disease, called "Anaberoga" also prevails in a number of villages. The symptom of attack in this case is that of a reddish brown sap oozing from eyelets on the stem just above the roots; within ten days of this the tree dies. It is reported that Dr. Coleman, Entomologist and Mycologist, is paying special attention to the matter. The most prosperous gardens are to be seen at Arbilchi, Santekadur, Hasudi, Harige, Mulkere, Mallapura, Benkipura and Bidare. In a number of other places the efforts of garden owners are rewarded with fair results. In Arbilchi and in one or two other places not only are the old gardens kept up in excellent condition, but considerable additions of a very efficient kind have been recently made.

14. As a whole, however, the gardens of the taluk are not in high condition. They are said not to have been flourishing at the time of the original settlement, and they are not doing any better now. The lack of a good water-supply will too readily be preferred as an excuse, and the absence of underground springs will also suggest itself as an explanation. I make no doubt but this is true of a proportion of the gardens which are really badly located, but it is certainly not true of all, or even of the majority of the many forlorn looking gardens in existence. As a matter of fact all the flourishing gardens are found in the villages in the dry maganis, where the annual rainfall is small and subsoil water is not to be tapped except at considerable depths, and the raiyats work very earnestly, particularly in view of the comparative uncertainty of wet crops there. The truth seems to lie in the circumstance that, in the south and the west, a sure wet crop is obtained for no great trouble, and I feel constrained to hazard the opinion that an element of indolence has thereby been induced in the character of husbandry in these parts.

15. Very little of coffee is raised in the tract. An experimental "Rubber Farm" at Balemarnahalli village, held by Mr. Strickland, is reported to have been planted with 100,000 plants about 6 years ago, of which only 5,000 survive, a result attributed to want of suitability of soil and climate, as well as to the havoc made by wild boar and jungle fires.

16. To sum up, the cultivation of dry crop is a favoured and a highly successful mode of husbandry in the north and the east, where the rainfall is moderate and the soil very fertile. Rice and sugar cane fields are also seen in the valley of the several hill streams that drain into the Bhadra and the Tungabhadra. Wet crops are more in evidence in the central region where, however, dry crops still hold an important place. In the south and the west, wet cultivation engrosses the raiyat's attention. To put the matter in another way, bhatta, ragi and some sugar cane are produced in the Shimoga and the Benkipur hoblis. Ragi, jola, avare, yellu, kadale, bhatta and sugar cane are produced in the Holehonnur and Holalur hoblis. Horse gram is common to all the tracts named above. Throughout the west and the south of the taluk, bhatta is almost the exclusive produce. The gardens are confined chiefly to the Holehonnur, the Kasaba and the Benkipur hoblis.

17. *Communications.*—The roads in existence in the taluk at the time of the original settlement were—

(i) The Shimoga-Bangalore road running through Benkipur, Tarikere, Birur, etc.

(ii) The Shimoga-Channagiri road running through Benkipur.

(iii) The Shimoga-Harihar road running through Honnali.

(iv) The Shimoga-Sagar road running through Ayanur and Anantapur; and leading after Sagar to Gersoppa.

(v) The Shimoga-Agumbi road going along Tirthahalli.

The roads constructed since the Settlement are—

(i) The road 14 miles long connecting Shimoga with Saulanga, establishing thereby a direct connection with Shikarpur, Siralkoppa, Sorab and Anavatti, and furnishing also a second route to Honnali by way of Nyamti.

(ii) The Shimoga-Yedahalli road of which about a length of 13 miles falls within the taluk.

(iii) A road 11 miles long connecting Benkipur with Umblebail on the Yedahalli road, a much-needed communication for the villages in the south.

(iv) An eight-mile road between Shimoga and Holehonnur, another very useful means of passage for cart-traffic with villages in the north-east which otherwise would be practically cut off from the kasaba during floods by the intervening river.

(v) Three clear tracks lying for the most part in the jungles between Shimoga and Shettihalli, Shettihalli and Sakrebail and between Benkipur and Gangur. These roads worked out by the Forest Department, are pri-

marily for forest purposes and have not been metalled, but they are well appreciated by raiyats in the forest-surrounded villages in these regions.

(vi) The rail-road from Shimoga to Birur connecting the taluk by rail with the districts of Madras on the one hand and of Bombay on the other, and necessarily also with important centres in the Mysore Province itself.

(vii) A light railway constructed by the Manganese Company for the transit of Manganese ore, commencing from Chordi in the Kumsi Sub-Taluk and ending at Shimoga, but taking a wide sweep along the western skirts of the taluk, so as to make the total length of the line, one of more than 25 miles.

18. It is easy to see from all this, that the taluk enjoys an excellent equipment of roads which link it not alone with important centres within the Province but with the east and the west sea coasts also. There is nothing to wish for as regards external connections, but in inter-communication between different parts of the tract itself, some improvement is not only practicable, but is, with the natural evolution in the condition of the raiyats, beginning to be felt as an urgent want. The best instance of this would be the lack of a tolerably good way between Holehonnur, the centre of the dry crop maganis, with Kudlagere on the Channagiri road, which would facilitate intercourse with the Tarikere and Channagiri Taluks. The rough cart-track in use now, is, during the rains a swampy deathtrap, notably at a point known as Kanesara, near Koppa Tank, where bullocks have frequently been left to die, on account of the sheer impossibility of extricating them from the bog. The cost of a tolerably good road has been estimated at Rs. 10,000, and the matter has lain pretty long on the tapis of the District Board.

19. *Markets.*—The two noteworthy markets in the interior are at Ayanur and Shimoga. Ayanur to which produce is taken from all directions in the district as well as from some of the nearer of the Dharwar Taluks in the north, is a market town to which people from the maidan as well as the malnad flock for bargains. It serves as a common entrepôt to commerce, from either side of which merchants are ever busy passing maidan produce to the malnad and *vice versa*. The adjacent malnad tracts supply it with rice, butter comes from Harnahalli and other places of the Honnali Taluk, dry and fresh cocoanut, pulses, chilli and other condiments are brought in from Tarikere Taluk, wheat and cattle from Nyamti, and cloths from Ranibennur side; jaggory is not sold at Ayanur shandy, though the place is situated in the midst of sugar cane country. Merchants from Dharwar, Davangere, Nyamti, etc., go direct to the jaggory manufactories in good time to take up all the jaggory turned out. The fair at Shimoga is a comparatively tame affair, but the Railway terminus gives the town an importance that cannot be overrated. Much of the produce of the taluk itself and that of others in the interior is carried to Shimoga and sent off to places north and south of the Madras and Southern Mahratta Railway line. Other markets within the tract we are considering, namely, those at Anveri, Benkipur and Holehonnur, are of significance only to a narrower circle of villages round about those places. Tarikere, Koppa, Yedahalli and Channagiri are market towns outside of the taluk, of which Tarikere merits special notice. All the villages to the east of the Bhadra and in the south of that taluk take benefit from the large market there at which all the articles named for Ayanur except rice and butter are bought and sold.

20. *Imports and exports.*—The chief imports are ragi, kulthi and togari from Channagiri; ragi, jola, uddu, hesaru and kadale from Honnali; groundnut, castor oil and gingelly oil from Davangere; cocoanut from Tarikere, Birur and Tiptur; cloths, salt, iron and kerosene oil from Bombay and Madras side. Rice is both imported and exported. Rice-growers retain quantities sufficient for their wants and send off the rest of the paddy to Vaniambadi, Mangalam, the Nilgiris, etc. It is imported through Ayanur by officials, khushbashes and other landless classes. The exports are chiefly areca to Bellary, paddy to Madras side and timber to Bangalore, the Kolar Gold Fields and Dharwar.

21. *Fairs and festivals.*—The only Jatra of importance in the taluk is that held at Kudli, the Sangamesvar Jatra. An average of 15,000 men, as many cattle and 800 carts assemble here. It lasts for about 10 to 15 days. Bargains in cattle is the chief feature. Brass and copper utensils from Hubli, iron implements from Bangalore and Madras, and kamblis from Maddur, Mandya, Malvalli and Davangere find a ready sale here. A largely attended fair is held annually at Rampur in the Honnali Taluk close to the Shimoga frontier, where also the sale and purchase of cattle is the great attraction. A prize distribution at the cattle shows takes place every alternate year at Kudli and Rampur. What are called the Pillangere and the Koppa Jatras are merely gatherings of Brahmins for devotional purposes, and have no general bearing on the life of the raiyats.

22. *Manufactures, arts and industries.*—A strong impulse has been given in the direction of non-agricultural industry, recently by companies exploiting Kumsi and Shimoga Taluks for Manganese. When work was started four years ago unskilled labour commanded wages of from 6 to 10 annas a day, while a person who could claim to have acquired the bare rudiments of education could easily earn a salary on which University graduates are frequently content to make a beginning. Recently, the European market for Manganese has lost some of its earlier vitality, and wages have accordingly descended to a more stable level. Nevertheless, a large number of the lower order of raiyats look to business in Manganese as their mainstay. A number of agriculturists have left their usual occupation on this account, so that some cultivable lands in Shimoga as in Kumsi Sub-Taluk may be seen lying fallow, cultivation having been abandoned in favour of better prospects at the mines. The principal mine is at Chordi in Kumsi Sub-Taluk, smaller works are at Siddarhalli and Bikkonhalli in the Shimoga Taluk and at Jolmaranahalli, touching the Shimoga frontier in the Channagiri Taluk.

23. The carrying industry in the taluk is worthy of notice. The plying of bullock-carts for hire is a line in which much is accomplished both by agriculturists in the off season and by non-agriculturists at all times. The normal carrying trade, before Forests and Manganese were worked, was itself never unimportant in Shimoga. But with the many forests opened out and the necessity for the removal thence of timber to the depots, as also for the conveyance of Manganese ore from the Jolmaranahalli, Siddarahalli and Bikkonhalli mines to one or other of the Railway stations, owners of bullock-carts are driving a volume of trade that fills them with a sense of rampant independence.

24. The search for gold has been as fascinating a pursuit in Shimoga Taluk as it has been in Honnali, and as unproductive. Experiments were first started at Kallankutte and Honnahatti, about twenty years ago. The scene next shifted south to Tomadihalli, Shanbhogangudda and other villages, where a large area of ground may be seen dotted with pits from 60 to 200 feet deep. The scene has now shifted still farther south to Lakkavalli in the Tarikere Taluk. The once notable iron manufacturing industry at Kyatankoppa, Siddarahalli and a string of villages nestling in the iron-bearing eastern hills is no more, cheap iron being so much more easy to import. Cloth-weaving has for a like reason died out, except for a very few looms of kambli and the well-known coarse white cloth called 'Hatchada.'

25. *Population.*—The following figures denote the population of the Government villages of the taluk at each of the past four Census years:—

1871	1881	1891	1901
68,319	70,038	68,241	65,394

The suggestions made by these figures are peculiar. In the first place, the Great Famine of 1876-78 does not seem to have affected the tract adversely, as was the case with taluks not far from its borders. Evidently, the reason lies in the fact that, assimilated more or less as it is with the malnad portions of the Province which do not commonly suffer from drought, Shimoga Taluk was enabled to hold up its head during the ordeal, while its purely maidan comrades suffered grievously. The next thing is that the population has consistently declined from the year 1881 forwards. In that year an increase of 1,719 souls is

shown over the population of 1871. In 1891, however, the level falls back to very nearly that of 1871, so that not only was the otherwise natural increase of the decade lost, but an actual deficit of 1,797 has occurred. The reason for this is not obvious. There is nothing I know of in the circumstances of the taluk between 1881 and 1891, that can lead us to conclude that emigration has to do with the matter. The plague had not as yet made its appearance, and cholera, which no doubt took its customary toll, did not, so far as I can ascertain, make any extraordinary ravages. The further decline by 2,847 in the year 1901, large as it is, is readily ascribable to the plague in the Shimoga Taluk, for one of the first effects of the advent of the disease was to disperse the less courageous of the non-agricultural inhabitants from the infected places into uninfected villages both within and outside of the taluk. The striking decrease in 1901 of 5,190 and 1,016 in the number of inhabitants of Shimoga and Holehonnur, respectively, the two most thickly packed places in the taluk, bears testimony to this circumstance. I am tempted to think that the next Census which is near at hand, will prove that the taluk has recovered lost ground, the people with ten years' experience of the nature of plague being now far less liable to be driven out of the taluk by fresh outbreaks. The area by Revision Survey being nearly 508 square miles, the population in 1901 was 129 persons to a square mile. It must be borne in mind, however, that 332 square miles or nearly two-thirds of the whole consists of uninhabitable jungle, hill, etc. The density to a square mile of the arable area works out to 372 and the density of the arable occupied area reaches the significant figure of 554. I need scarcely repeat the well-known fact that the Holalur and Kasaba hoblis and the greater part of the Benkipur hobli constitute the more thickly populated tract. The west and the south of the taluk are sparse in population.

26. *Health.*—In the open parts of the taluk, the health of the people is good. But the villages along the west, and in a less degree those in the south, are subject to malarial fever during winter. The hilly character of the country, the heavy rainfall, and the dense forests, naturally serve also to nurse the superstitious element in man in these parts, with the result that deserted villages or village sites abandoned for new sites in the same village, are not unfrequently met with. The plague has made pretty regular incursions during the past eleven years. Its attack is first on Shimoga Town, after which it spreads along the roads. There is now some indication of the vitality of the disease gradually abating. The havoc from cholera has dwindled from the time the plague has come in, perhaps because the brisk sanitary measures adopted during an outbreak of plague, which is generally at its height during the cold season, works as a deterrent on habits that would become causes of cholera which commences later on in the hot weather, both diseases being promoted by want of attention to sanitary principles. Cholera usually appears at Shimoga on the Tunga river, sometimes at Benkipur on the Bhadra, whence the polluted streams convey the germs northwards to the villages on the banks. This is why the villages on the upper sections of the streams, that is, the sections to the south of Shimoga and Benkipur, enjoy a comparative immunity. It is said that Mahomedans are the most easy victims to cholera. Such are the hygienic conditions prevalent, but they do not amount to a suggestion that the outlook for the taluk is thereby rendered more serious. Time has broken much of the power of the plague virus, the people have a clearer understanding of its character, and have everywhere laid its first lesson to heart, they being prepared to evacuate houses at the very first notice of its arrival. With advancing sanitary arrangements, and particularly the newly improvised water-supply for Shimoga Town, a severe check on cholera will have come into operation. I feel confident that with such advantages, the future health history of the taluk will be one of progress. Nay, as I have suggested before, I should feel surprised if, with all the dislocation in the affairs of men during the past decade, caused by plague, the next Census does not prove that the population has been well on the way to recovery since 1901. No doubt, malarial fever will, in some measure, continue to be a standing grievance among a portion of the population. But that alone cannot vitiate the hopeful conclusion we are justified in drawing for the taluk as a whole, nor is the malaria, where it exists, of such a deadly kind as to foreclose any question of

amelioration through the discoveries of experts who are now so strenuously working for a solution all over India.

27. *Tenure.*—Lingayets and Vokkaligars numbering 11,262 and 13,789 are the two most assiduous classes of the agricultural community in the taluk. As a rule, they hold lands of their own and pay the assessment direct to Government. But a good deal of subletting is done by khushbash Brahmins, merchants and others who own lands. The two main forms in subletting are the 'Samakor' and the 'Wothkor.' By the former, the cultivator and the khatedar share the grain equally, the whole of the straw being appropriated by the cultivator, and all the kandayam being paid by the khatedar. In the other case, the cultivator takes two-thirds to three-fourths of the grain and the whole of the straw, and pays half the kandayam. The latter is the more commonly obtaining system of contract as being more equitable than the "Samakor." Other forms 'Mukuppekor,' 'Guttige,' etc., are not very common—subletting prevails chiefly in the Shimoga, Bidare, Benkipur and parts of the Holalur and Holehonnur Maganis.

28. *Agricultural resources.*—The following statistics enable us to compare past and present agricultural resources :—

Items			At original survey	At revision survey	Increase	Percentage of increase
Houses	Tiled	... ...	1,248	2,855	+1,607	+129
	Mud-roofed	... ...	65	138	+73	+112
	Thatched	... ...	10,691	10,979	+288	+3
			12,004	13,972	+1,968	+16
Horned cattle		... ...	59,047	57,387	−1,660	−3
Carts	Hali	... ...	504	992	+488	+97
	Chakra	... ...	1,157	3,416	+2,259	+195
Wadddar carts		... ...	.....	105	+105	.....
Ploughs		... ...	9,129	9,883	+754	+8

Houses of the more expensive and comfortable type are coming into favour, showing an increase of over 100 per cent, and carts show a particularly gratifying increase of 2,259 or 195 per cent. The figure for horned cattle alone, in all the list shows a small decrease, but I have little hesitation in ascribing the decrease to the dying out of animals of the inferior kind; else the increase in the number of ploughs and the striking enhancement in the number of carts must be capable of some explanation of which I am not aware. And here, I must enjoin a caution against these figures being regarded as scrupulously trustworthy. They are such as were furnished by the shahbhog under his certificate to the classer of the village, so that no responsibility as to accuracy attaches to the latter. Yet I know of no good reason why false information should have been intentionally given by the village officers. Though lacking of a strict guarantee, the figures composing the table above are good enough for a useful comparison. We possess indeed the "Agricultural Statistics" and the more recent "Season and Corp Reports" published by the Director of Statistics; but unfortunately, in these compilations, what is termed Shimoga Taluk is very different from the tract we are dealing with, since it is there taken to include the present Kumsi Sub-Taluk, as well as some villages of the old Nagar and Lakvalli Taluks.

29. *Cattle.*—The indigenous cattle are middle-sized and serviceable. Raiyats occasionally venture so far as into the Mysore District in search for good breeds. But the most generally favoured is the indigenous breed, in which term are included the cattle brought from Honnali and Channagiri Taluks and sold at the annual fairs. The big-sized animals from Attikuppa, Krishnarajpete, Nagamangala and Kunigal are bought up almost exclusively by visitors from Hubli, Dharwar, Adoni, and other places. People of the malnad prefer going in for the smaller-sized animals which keep steadier health during the rains.

Husbandry.—No noticeable change has taken place in the mode of husbandry

followed in the taluk. Good machines for pressing the juice from sugar cane (now 162 in number) are coming into vogue. One or two well-to-do raiyats have developed an idea of employing steam power to lift water from the river. But beyond this, there is no apparent progress, the systems of tilling, manuring and harvesting remain at present where they were 35 years ago.

30. *Prices.*—On the subject of prices we cannot do better than consult the Tabular Statements published by the Director of Statistics in the Government Gazette of the 16th August 1906. The quinquennial averages for the twenty years (1886 to 1905) are given below. The last line in the subjoined table consists of averages for the three years, 1906 to 1908 as furnished by the Amildar.

Years	Rice	Ragi	Jolum	Bengal gram
1886-90	11·85	42·95	32·65	14·17
1891-95	8.74	31·55	26·08	11·48
1896-00	7·93	24·98	20·74	10·30
1901-05	8·56	29·94	23·75	10·86
1906-08	7·30	16·30	16·30	8·30

Prices for Shimoga prior to 1886 are not available. If they were, it goes without saying that the percentage of difference between prices about the time of the original Settlement and those extant nowadays could be proved to be larger than is made out from the figures we have been able to collect. On the available data, we find that the average price of rice for the triennium 1906 to 1908 has made an advance of 62 per cent on that of the first quinquennium in the table above; the price of ragi, similarly has gone up by 163 per cent, of cholum by 100 per cent and of Bengal gram by 74 per cent.

31. The question relating to the causes underlying the evolution of prices, is among the most difficult of the problems awaiting solution in this country, and fortunately it is not indispensable in a discussion of the proposals for a fresh settlement, that I shall submit in the sequel. What concerns us here, is the actual direction in which prices are moving, and the other important inductions we are permitted to make from the facts of the past. These results have time and again been placed before Government in connection with Revision Settlement proposals, and I shall content myself with quoting a few lines from a recent communication of mine, though the facts are so familiar to Government, that I doubt the necessity of swelling the dimensions of this letter with any repetition of them. In one of the Revision Settlement reports submitted by me, I have said that:—

"The net conclusion so far arrived at, may be briefly stated as being—

(i) The evolution of prices and the comparison between them as obtaining at different periods, do not admit of being treated to precise mathematical calculation, but valid and useful conclusions expressible in general terms are available.

"(ii) The prices of most food-grains and other kinds of agricultural produce have risen by 30 to 40 per cent at the least within the last three decades.

"(iii) Though prices are subject to fluctuations, these fluctuations are never so enormous as to produce a really grave disturbance in their main tendency towards ascension.

"(iv) The vast improvement in communication and the general security produced to the people by Government have called into being a strong and rapid economic movement by which prices in the most remote taluks are lifted to the level at which they stand in the rest of the Indian continent."

32. *Value of land.*—I have examined 326 cases of sale and 216 of mortgages of land in the taluks as entered in the books of the Registration Department. These refer to transactions that took place in every fifth year after the Settlement. The results given in a tabulated form below, give an indication of the estimation in which land is held:—

	Number of transactions	Amount of purchase money or loan	Total survey assessment on land concerned	Ratio
Sale	326	51,231	4,999	12
Mortgage	216	46,513	4,927	9

33. *Results of Revision Survey.*—There were 18,753 survey numbers at Original Survey which became 20,042 at Revision, showing an increase of 1,290 or 7 per cent. I must state, however, that many old survey numbers have been merged in one or other of the forests of which the old boundaries had to be altered at Resurvey and brought into accord with the actual demarcation lines existing on the ground. It follows from this that the number of the new sub-divisions formed out of old fields, are in excess of 1,290. The exact amount of remeasurement made is however not fully represented by these figures as a large number of fields had to be remeasured for inclusion in or exclusion from the margin of roads and tank bunds according to standing orders of Government and for the ascertainment of different descriptions of lands in "Misreet numbers."

34. *Classification.*—The old soil classification has been left undisturbed except where unassessed or kharab land was brought or proposed to be brought under cultivation for the first time. As this is a semi-malnad taluk, water classification was revised in accordance with the rules prescribed for maidan as well as malnad.

35. *Past and present areas.*—Particulars of area of the different classes of land according to past and present surveys, are given below:—

Description of land	Former survey area as per Akarband	According to Revision Survey	Difference
	Acres	Acres	
Dry crop	75,052	74,742	—310
Wet	35,853	36,380	+527
Garden	1,164	1,929	—235
Unarable	2 09,039	2,12,597	+3,558
Total ..	3,21,408	3,21,948	+3,540

The discrepancy of 3,540 acres in the total area is due to errors in measurement or calculation at the original survey. It is a little over only one per cent of the old area shown in the Akarbands, and calls for no remark. The net result with the arable area is, that it remains practically the same, the loss of 310 acres in dry land and of 235 acres of garden, reappearing as rice land in which an increase of 527 acres occurs. I say advisedly that this is a *net* result, for it should be recollected that some of the old assessed rice land has been freely remanded to the head of "Khushki," and even to "kharab" where classers found it in a condition in which it was hopeless to expect any cultivation, so that the wet area has had fresh accessions not only of 527 acres, but also of an extent equivalent to that which was thrown out at classification into one or other of the other categories; similar remarks apply to interchanges that have taken place between khushki or "bagayet" and the other classes of land.

36. *Revenue history.*—In Appendix A will be found the Revenue history of the tract, set out in figures furnished by the Amildar, commencing with the year of the settlement. I give below for the sake of convenience a quinquennial

abstract of it, but I think a closer idea of the subject matter is to be had from the larger statement in the Appendix:—

Period	Government occupied land								Remission	Amount realized
	Dry		Wet		Garden		Total			
	Acres	Assessment	Acres	Assessment	Acres	Assessment	Acres	Assessment		
1	2	3	4	5	6	7	8	9	10	11
1875-76 ...	43,255	31,263	18,509	50,233	1,086	9,010	62,850	90,595	...	90,595

37. The following statement showing differences between the year of the introduction of the original Settlement, the lowest revenue collection year and the highest revenue collection year with the percentage of increase or decrease as compared with the year of original Settlement, may be of interest in judging progress.

Year	Amount realised	Increase or decrease per cent as compared with 1875-76	Remarks
1875-76	90,595	.....	
1876-77—the year of lowest realization ...	88,919	—2	
1897-98—the year of highest realization ...	1,20,968	+34	

38. The influence of the great Famine on occupancy and collection is barely perceptible (*vide* cols. 9 and 11 in Appendix A) in the year 1876-77, after which the germ of progress takes life, and develops pretty steadily till the year 1889-90. From this year forwards the advance is more rapid, the collections pass from four to five figures, never once sliding back. The most remarkable portion of the settlement period occupies roughly a space of ten years after 1889, and I need scarcely point out that this was due to the impulse communicated by the inauguration of the through Railway Service in 1889 between Mysore and Bombay, which led to prices being elevated, and agriculture consequently becoming more remunerative. After

1898-99, some fluctuations follow, but none of them serious, the collections now rising, now falling, by about two or three thousand rupees as though they were endeavouring to find a balance-point. The frequent and disconcerting outbreaks of plague in the taluk have necessarily had a relation to the small fluctuations of this last period. The area and the assessment of unoccupied land, throughout the list, bear an inverse ratio, in faithful response to the changes undergone in the occupied area and the collections. Column 10, which shows that remissions were granted in only three years, and for no considerable amounts, illustrates still more clearly the unobjectionable system of our taxation. Though the occupied area has been largely augmented since settlement, and the taluk has passed through its allotted burden of unsatisfactory seasons and other misfortunes, the necessity for remission of assessment has asserted itself but little.

39. *Grouping.*—So far, I have endeavoured to convey a correct general idea of the circumstances of the taluk, and hope I have made the way clear towards a determining of the question, as to how it should be dealt with at Revision. The first thing we have now to settle is the question of "grouping." I see no good reason to propose any change in the grouping of the original Settlement which has been effected after a thorough examination of the climate obtaining in different tracts, as having a bearing on their fertility and populousness, and of the degree of facility with which produce is in each case capable of being transmitted for disposal. The roads constructed subsequent to the original Settlement cannot, in my opinion, sufficiently justify a raising of villages concerned into a higher class, nor do I know of any sound reason for bringing any village down from its old class to a lower one. The old grouping will accordingly remain intact. The villages have been divided into three groups with reference to wet rates and into five with reference to dry rates as shown below :—

Group	Number of villages	Remarks
Grouping for wet rates.		
I ...	117	Villages in the centre of the taluk enjoying superior advantages as regards markets, roads and a good climate and favourable to wet crop cultivation.
II ...	67	Villages in the centre of the taluk more remote from Shimoga than the above, with an equally good climate but not so well situated with reference to roads and markets.
III ...	106	Villages in the outlying badly populated tracts and somewhat unfavourably situated as regards roads and markets, also some villages in the extreme north-east where rice cultivation is held in little esteem and is not much understood.
Grouping for dry rates.		
I ...	41	Villages to the north, bordering Honnali, where the climate is remarkably certain and soil favourable to dry crop cultivation which is thoroughly understood by the people and carried on to the almost entire exclusion of wet cultivation.
II ...	57	Villages farther south than the above where the climate is not quite so favourable to dry cultivation owing to somewhat excessive rainfall, and rice cultivation becomes more common.
III ...	56	Villages still farther south where dry crop cultivation begins to be held in light esteem, but the villages are fairly situated on roads and near markets.
IV ...	80	Villages situated generally like the above group but not quite so favourably placed on roads or so near markets.
V ...	46	Villages in the essentially malnad country to the south-west where dry crop lands owing to an excessive rainfall are cultivated only once in 3 or 4 years and the villages are few, badly populated and remote.

This being a semi-malnad taluk, it is easy to understand why the rice and dry crop lands are treated under two quite different sets of groups. Where the rainfall is heavy and conducive to rice cultivation, dry crop will not flourish and consequently is not cared for, and *vice versa*.

40. *Maximum rates.*—In the subjoined table, I show the wet and dry maximum rates I propose for the new Settlement, side by side with those fixed at the original Settlement :—

Wet.

roup	Old maximum	New maximum
I	6 0 0	6 8 0
II	5 8 0	5 12 0
III	5 0 0	5 4 0

Revenue (Land Survey), dated 11th March 1912.

Group	Dry. Old maximum	New maximum
I	2 4 0	2 10 0
II	2 0 0	2 4 0
III	1 4 0	1 6 0
IV	1 0 0	1 2 0
V	0 12 0	0 12 0

In the case of wet lands, the maximum rate for the best rice-producing tract included in the first group is advanced by eight annas only, unquestionably a modest increase in the circumstance of the taluk, and in the two others by only four annas.

The maximum dry rate in the first group is advanced by six annas, though I feel sure that even a somewhat higher increase ought to pass unchallenged. The second group with an increase of four annas and the third and fourth groups of two annas each have had proportionately liberal treatment and call for no remark, whilst in the fifth group which comprises villages in which dry cultivation is not much in evidence either on account of excess of rain or for any other reason, I recommend no increase whatever.

41. *Garden.*—I propose to reduce the garden maximum from Rs. 16 at the original Settlement to the nominal rate of Rs. 12. Even this figure is reached only by the best gardens in the taluk, which are few in number. The application of the rules of Government Order of the 24th January 1902 produces results as set forth in the annexed statement, which refers to all gardens, both occupied and unoccupied :—

No.	Particulars of garden	As per original Settlement report			By revision proposals				Increase or decrease in average rates
		Acres	Assessment	Average per acre	Acres	Assessment	Average per acre		
			Rs.	Rs. a. p.		Rs.	Rs. a. p.	Rs. a. p.	Rs. a. p.
I	Tank Gardens ...	1,490	11,520	7 11 8	662	4,851	7 5 3	5 8 7	—2 8 1
II	Gardens indirectly supported by tanks, streams etc.				368	1,007	2 11 9		
III	Gardens under self-dependent wells.				110	263	2 6 3		
IV	Gardens as in No. III but wells failed.				45	67	1 7 10		
	Total ...	1,490	11,520	7 11 8	1,185	6,188	5 3 7	...	...
V	New gardens under wells sunk since original Settlement.	...	...	.....	31	50	1 9 10	...	...
	Grand Total ..	1,490	11,520	7 11 8	1,216	6,238	5 2 1	...	—2 9 7

The garden area has been reduced by 274 acres which has mostly reappeared as wet or dry at revision classification as explained in para 34 above. The average rate of all kinds of garden taken together has been reduced by Rs. 2-9-7 per acre or by about 34 per cent.

42. *Effect of revision.*—The following table shows the effect of the proposed Settlement on all description of Government occupied land:—

Description	By former Survey as per collections of 1907-08			By Revision Survey			Increase or decrease in average rates
	Acres	Assessment	Average rates	Acres	Assessment	Average rates	
		Rs.	Rs. a. p		Rs.	Rs. a. p	Rs. a. p.
Dry	49,957	36,750	0 11 9	49,270	41,288	0 13 5	+0 1 8
Wet	24,435	66,281	2 11 5	25,630	74,493	2 14 6	+0 3 1
Garden	1,022	8,185	8 0 2	864	4,788	5 8 8	—2 7 6
Total ...	75,414	1,11,216	1 7 7	75,764	1,20,569	1 9 6	.....
Add Miscellaneous ...	.....	678	.....	.....	.....	.....	.....
Total ...	75,414	1,11,894	1 7 9	75,764	1,20,569	1 9 6	+0 1 9

The item of Rs. 678 (Miscellaneous) refers to 'Neersardi' or rate levied for the supply of water to dry land not brought on the Akarband as wet. But as such land has been treated as rice land at Resurvey, it is only right to include the amount of the levy in the old collections on wet land. The average wet rate under the old collections will then be increased from Rs. 2-11-5 to Rs. 2-11-10 and the average for all descriptions of land will increase from Re. 1-7-7 to Re. 1-7-9. Small increases have been effected in the average rates of Re. 0-1-8 in dry and Re. 0-2-8 in wet land per acre, whilst a striking reduction of Rs. 2-7-6 per acre has been brought about in the case of gardens. Taking the entire extent, the average rate shows an increase of only Re. 0-1-9 per acre. A mere comparison of the average rates is, I think, sufficient to convince any one that the rates proposed are very moderate.

43. *Effect of proposed settlement on groups.*—How the various groups of occupied land are affected by the proposed Settlement will appear from the following table:—

Group	Description of land	According to Original Survey			According to Revision Survey			Difference
		Acres	Assessment	Average rates	Acres	Assessment	Average rates	
			Rs.	Rs.		Rs.	Rs.	Rs.
I	Dry ...	20,234	11,619	0 9 4	19,699	12,870	0 10 5	+0 1 1
	Wet ...	14,566	42,308	2 14 6	15,463	48,635	3 2 4	+0 3 10
	Garden ...	696	6,173	8 13 11	545	3,534	6 7 9	—2 6 2
	Total ..	35,496	60,100	1 11 2	35,707	65,039	1 13 2	+0 2 0
II	Dry ...	10,843	6,130	0 9 6	10,120	6,665	0 11 6	+0 1 0
	Wet ...	5,805	14,828	2 8 10	5,960	15,890	2 10 8	+0 1 10
	Garden ...	107	785	7 5 5	104	511	4 14 7	—2 6 10
	Total ...	16,255	21,743	1 5 5	16,184	23,066	1 6 10	+0 1 5
III	Dry ...	12,380	18,801	0 15 6	12,451	21,753	1 1 11	+0 2 5
	Wet ..	4,064	9,145	2 4 0	4,207	9,968	2 5 11	+0 1 11
	Garden ...	219	1,227	5 9 8	215	743	3 7 4	—2 2 4
	Total ...	23,663	29,173	1 3 9	23,873	32,464	1 5 9	+0 2 0
Total	Dry ...	49,957	36,750	0 11 9	49,270	41,288	0 13 5	+0 1 8
	Wet ...	24,435	66,281	2 11 5	25,630	74,493	2 14 6	+0 3 1
								or+0 2 8if neersardi amount is taken into account.
	Garden ...	1,022	8,185	8 0 2	864	4,788	5 8 8	—2 7 6

Revenue (Land Survey), dated 11th March 1912.

The greatest increase in the average dry rates naturally occurs in the third group, where it is two annas and five pies. It is lowest in the second group where it is just an annas. The increase on the wet rates ranges from 3 annas 10 pies in the first group to 1 anna 10 pies in the second. The net average increase on dry land for all the taluk is 1 anna and 8 pies, on wet land it is 3 annas and 1 pie or properly 2 annas and 8 pies when the Neersardi amount is taken into account. The average reduction for the gardens is Rs. 2-7-6 per acre. The result of all this put together is an increase of only 1 anna and 9 pies per acre of occupied land in all the taluk.

44. *Percentage of increase or decrease on groups.*—I show below how the increase and decrease I have proposed will act on each group:—

Group or class	Number of villages in each group	By Original Survey		By Revision Survey						Increase or decrease
		Government occupied land		Government occupied land		Government assessed waste		Total		
		Acres	Assessment	Acres	Assessment	Acres	Assessment	Acres	Assessment	
			Rs		Rs		Rs.		Rs	
I .	117	35,496	60,300	35,707	65,039	7,135	8,811	42,842	73,850	+8 p c
II .	57	16,255	21,743	16,184	28,066	4,726	5,964	20,910	29,030	+6 p c
III ...	106	23,663	27,173	23,873	32,461	9,137	9,902	33,010	42,366	+11 p c
Total ...	280	75,414	1,11,216	75,764	1,20 569	20,998	24,677	96,762	1,45,246	+8 p c
Miscellaneous			678							
			1,11,894							+8 pc

The percentages of increase are 8 and 6, respectively, in the first two groups. The increase in the third group, that is, the group in which rice cultivation is of least importance, goes up higher, 11 per cent. This result is due not merely to the fact of the occupied area being larger in this group at Revision than at the Original Survey, but chiefly because it is in this very group that high class dry crop soils abound which are assessed with proportionately higher maximum rates. The net result on the whole of the occupied area in the taluk is an addition of about 8 per cent over the collections of the year 1907-08.

45. *Unoccupied assessed waste.*—Particulars of assessed waste land of all kinds available in this tract for cultivation is shown in the following statement:—

Group	Dry			Wet			Garden			Total		
	Acres	Assessment	Average rate	Acres	Assessment	Average rate	Acres	Assessment	Average rate	Acres	Assessment	Average rate
		Rs.	Rs. a. p.		Rs.	Rs. a. p.		Rs.	Rs. a p.		Rs.	Rs a p
I ...	5,211	3,335	0 10 3	1,843	5,243	2 13 6	81	233	2 14 0	7,135	8,811	1 3 9
II .	3,154	1,816	0 9 3	1,515	3,967	2 9 11	57	181	3 2 10	4,726	5,964	1 4 2
III .	7,391	6,114	0 14 3	1,709	3,677	2 2 5	37	111	3 0 0	9,137	9,902	1 1 1
Total ...	15,756	11,265	0 11 5	5,067	12,887	2 8 8	175	525	3 0 0	20,998	24,677	1 2 10

46. *Conclusion.*—I have now finished the explanation of my proposals for the Revision of assessment in the tract under consideration. My proposals will result in an increase of Rs. 9,353 over the collections of the year 1907-08, or about 8 per cent; and if the sum of Rs. 678 levied as temporary water rate be included in these collections as it properly should, the net increase will be reduced to Rs. 8,675. This is entirely justified by a consideration of the progress the taluk has made during the currency of the expiring Settlement as detailed in the aforegone paras. The rainfall is fairly reliable and dry or wet crops are raised with comparative certainty according as a village is situated in a section of the taluk

exposed to light or heavy monsoons. Where the raising of dry crop is the main pursuit the soils happen to be of excellent quality. In the essentially rice country, the rainfall is copious and certain. With the recent abolition of the halat, the solicitude of Government in the direction of discovering remedies for diseases to which garden plants are liable, and the large reduction in the assessment itself, garden owners will find their position improved beyond their expectations. The markets are good and sufficient, and the means of communication except for want of some small internal improvements leave nothing to be desired for. The Railway has proved a boon to commerce that can scarcely by overrated. The health of the people is of a very fair standard except for the malaria prevailing in some parts; the occasional ravages of cholera and the new disease of plague, though I have no doubt that with the advance in knowledge that time and research do and will bring about, the power of these adversaries on the population of the tract will have been effectually broken. Improvement in the material condition of the people is easily observable in the elevated standard of living, and the luxuries they enjoy even among the lowest strata of them. That the people are prosperous and that the rates imposed at the settlement now about to terminate were well considered, are facts clearly demonstrated by the past Revenue history, which affords unmistakable proof that the past Settlement has been borne by the raiyats lightly and the Government revenue has always been easily realized. With the advancement of prices and facilities for the transport of produce by Railway, the profits of agriculture have decidedly improved, so as to leave a good margin to the raiyat after making all allowances towards the cost of cultivation and living. There has been a general increase in agricultural resources, and much of the land lying waste 35 years back has now been brought under the plough. And lastly, the prices of produce have become so remunerative that there ought to be no hesitation in accepting the fact of the moderation and suitability of the proposed addition of barely 8 per cent to the existing revenue demand against an increase at the lowest of 40 to 50 per cent in prices. On the other hand, the critic who would say that the enhancements are too small, needs to be reminded of the fact that the fixing of the rates depends upon not only the present circumstances but also on future possibilities and that our Settlements which are to be in force for a term of 30 years stand on the general principle that the raiyat shall pay his assessment with ease in bad years as in good and that a larger enhancement, although capable of being met by him with cheerfulness in years of plenty, might make him sore and restive in an occasional unfavourable season.

Limits of increase.—The villagewar limit of 66 per cent has been exceeded in the case of 6 villages only, *viz.*, villages Nos. 17, 32, 47, and 64 in the first group and Nos. 13 and 43 in the second and third groups, respectively (*vide* classwar statement Appendix B). These increases are due entirely to the fact of extension of cultivation and not to higher rates. Any increase over the authorised percentage on individual holdings will be inquired into and adjusted when the Settlement papers are ready.

47. *Cesses.*—Local Fund and Irrigation cesses will be a separate levy as may be provided for by law. Being proportionate amounts, no estimate is called for.

48. A map of the taluk showing the grouping of the villages is attached to this report in addition to the usual appendices.

49. In conclusion, I beg to solicit the sanction of Government to the rates now proposed. The Settlement will take effect in the year following that in which it will be announced.

Revenue (Land Survey), dated 11th March 1912..

APPENDICES

APPENDIX A.

Revenue Statement for 280 villages of the Shimoga Taluk, Shimoga District, from 1875-76.

Years	Occupied lands paying assessment								Remission	Revenue collections after deducting remission	Miscellaneous revenue	Total revenue columns 11 and 12
	Dry		Wet		Garden		Total

Proceedings of the Government of His Highness the Maharaja of Mysore,

II. Letter No. 8, dated 20th July 1911, from D. Shama Rao, Esq., Superintendent of Mysore Revenue Survey and Settlement, to C. S. Balasundaram Iyer, Esq., B.A., Officiating Secretary to the Government of His Highness the Maharaja, of Mysore, General and Revenue Departments.

In continuation of my letter No. 87, dated 26th January 1911, I have the honor to forward herewith copy of letter No. 401, dated 16th July 1911, from the Deputy Commissioner of the Shimoga District, expressing his unqualified approval of the proposals for the revision settlement of the Shimoga Taluk. The Deputy Commissioner, after a careful study of the present conditions of the tract, has come to the conclusion that the small increase of 8 per cent proposed by me is fully justifiable. He thinks that "no exception can be taken to the very moderate increase in the dry and wet rates, *viz*, Re. 0-1-8 and Re. 0-3-1. The decrease of Rs. 2-7-6 in garden rates is but right under the deteriorated condition of the gardens and will not only afford a substantial relief to garden owners, but also may possibly contribute to improve the condition of the gardens."

2. I have this day forwarded a copy of the Deputy Commissioner's letter above mentioned, to the Revenue Commissioner for favour of his opinion on the revision settlement proposals in question, which on receipt will be submitted to Government.

ENCLOSURE TO THE ABOVE.

Letter No. 401, dated 16th July 1911, from K. Srinivasa Rao, Esq., Deputy Commissioner, Shimoga District, to the Superintendent, Mysore Revenue Survey.

With reference to your letter No. 661, dated 21st April 1911, calling for an expression of my opinion on the proposals for revision of the 280 villages comprised in in the Shimoga Taluk as constituted in 1875, I have the honor to sumit my opinion as below:—

Para 6.—The average height of the banks of the rivers from low-water mark is 30 feet, which is more than can be profitably negotiated by pumps. It is ascertained, however, that pump irrigation has very fair chance of success at Hanswadi.

Raiyats have not taken advantage of water courses which feed the rivers, for the same reason, the hallas are generally in deep scours, and have, besides, no certain supply of water.

Para. 7.—The conditions towards the west of the taluk approximate to those prevailing in the Malnad, both as regards insalubrity of the climate and paucity of labour.

Para. 8.—The rainfall in the taluk is so diverse, and the gauge stations are so few that nothing definite can be predicted about it. Neither is it possible to infer anything of general applicability to all the parts of the taluk.

Para. 9.—The tanks are all in a more or less efficient condition. The kodi and sluice of the large tank of Sheddikoppa which has a large atchkat, are receiving attention and an estimate for repairing them is now with the Public Works Department. It may be said that in the part of the taluk which is west of the roads to Nyamti and Yedahalli, the tanks are mostly of an inferior description, capable of irrigating their atchkats only with the assistance of the heavy rainfall and the natural moisture percolating from the hills and forests.

Para. 10.—Though wells do not at present play very important part in irrigation it is likely that the installation of a power-driven pump at Hanaswadi may give a stimulous to well irrigation.

Para, 11.—It must be said that owing to the reconstitution of the taluk and consequent shifting of boundaries, it is difficult to get figures for ready comparison. No useful inference can be drawn from the mere percentage of area under crops. Figures showing the present out-turn on lands under each description of crop will certainly have been more valuable as furnishing some measure of the income from land.

Revenue (Land Survey), dated 11th March 1912.

Para 12.—Sugar cane cultivation is still in its infancy in this taluk, and it is to be found at present only in parts of Holehonnur and Benkipur Hoblis, where yet it is still in the experimental stage. It may perhaps be pointed out that there is no sugar cane worth mentioning under Sulekere Tank.

Para 14.—The gardens are certainly going from bad to worse. This is not due to lack of water-supply, but seems to be the result of a number of circumstances of which the most important is probably diminished attention consequent on decreased profits. Why the profits have dwindled down is a question requiring thorough investigation, but it may be said that the gardens of Shimoga show in the general deterioration in value of that sort of land even in more favourably situated localities. It is therefore only right that the assessment on this class of lands should be diminished in revision and the proposed diminution of Rs. 2-7-6 per acre will no doubt be highly appreciated by holders; and may possibly contribute to improve the condition of the gardens.

Para 17.—There is no manner of doubt that the taluk enjoys great facilities for communication and is mostly favourably situated in respect of foreign markets. It must, however, be said that with the exception of Ayanur the local bazaars serve only as centres for the commodities produced within a radius of utmost 10 miles from each. The real export takes place by rail, at Shimoga and Benkipur, through which by far the greatest part of the rice grown not only in the taluk but in the district as well passes to Mangalam and other parts of South India.

Para 21.—The main economic function of the Kudli Jatra is that it serves as a cattle mart.

Para 22.—It may safely be averred that the Manganese has not drawn away raiyats from their work—most of the labour employed by the company is imported from Dharwar and the Madras Presidency. It is probable that at the outset some agricultural labourers as distinguished from land workers were drawn away from cultivation, but the unused work proved less pleasant than anticipated to the labourer or less profitable than expected to the Company. It is certain that agricultural labour has settled down to its former avocation. It is possible that in the contraction of the Manganese enterprise, a large quantity of labour may be released for other occupations, and that there may be greater demand for land, before the expiry of the period covered by the resettlement.

Para 23.—The great increase in the carrying industry is due to the impetus given to trade by extension of Railway to Shimoga. Most of the trade of the District now gravitates towards the headquarters.

Para 25.—The Census of 1911 showed an increase mostly in the town of Shimoga, and does not affect agricultural condition otherwise than by a slight addition to the urban demand for produce.

Para 26.—In view of the fact that population has remained stationary, it seems difficult to say that the health of the people is good. In fact, malaria is the curse of the taluk, and without positively declining to share in the hope that the advance of science will ameliorate it, a doubt may be permitted whether such a result will be achieved in the next 30 years.

Para 28.—The increase of 1,968 in the number of houses is no doubt very pleasing at first sight, but, how, without a corresponding increase in population and cattle, this can be regarded as an accession to agricultural resources, is not very clear. It seems to be more the result of family partitions and other causes independent of agriculture. The decrease of 1,660 in horned cattle is striking, to grasp the full significance to agriculture of the reduction in the live-stock it must be remembered that this diminished number has to serve the vastly increased number of carts. It is evident that the loss in bullock power to agriculture is more serious than the mere figures would indicate. This state of things points to the need for greater care and discrimination in the reservation of new forests.

Para 29.—The hardy and useful, if rather diminutive, breed of indigenous cattle is called "Javari," the colour most valued is a sort of chestnut. The hallikar cattle imported from the Mysore District are used more for driving and draught than for the plough, and they speedily deteriorate here.

Para. 30.—Prices have been steadily going up, but how far the rise affords an indication of real gain to the cultivator depends upon a number of circumstances. For a rise in prices to result in gain to the cultivator, it is necessary that he should grow a surplus for the market over his personal requirements. In view, however, of the large export of rice it may safely be said that as regards the wet lands at least, the increased price results in a profit to the cultivator, even when all allowance is made for increased cost of living and more expensive cultivation.

Para 39.—The grouping effected as far back as 1875 is still good for all purposes. Perhaps the opening up of tract between the Railway Line and the Tunga by means of the Shimoga-Yedahalli and Umblibyle-Benkipur roads might justify the lands comprised in a higher group; but probably this is not necessary as the range covered between the lowest and highest in the present group would enable the requisite adjustment to be made.

Paras 40 to 44.—The proposed enhancement of maximum wet and dry rates in the various groups appears quite suitable, and is more than justified by the improvement in communications, and rise in prices of agricultural produce. No exception can be taken to the very moderate increase in dry and wet rates, *viz.*, Re. 0-1-8 and Re. 0-3-1 respectively. The decrease of Rs. 2-7-6 in garden rates is a very substantial relief, and will be highly appreciated.

Conclusion.—The total proposed increase works out only to 8 per cent on the total collections for 1907-08, and is fully justifiable under the circumstances. In conclusion, I beg to state that, in my opinion, the rates now proposed may be sanctioned.

III. Letter No. 1355, dated 31st July 1911, from K. P. Puttanna Chetty, Esq., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

With reference to correspondence ending with letter No. 39, dated 20th July 1911, from the Superintendent, Mysore Revenue Survey, forwarding copy of Shimoga Deputy Commissioner's letter regarding the revision of assessment of the 280 Government villages of the Shimoga Taluk, I have the honor to state as follows:—

2. The tract in question was originally settled under the guidance of such eminent Survey officers as Captain (now Colonel) Grant and Colonel Anderson and their proposals were closely and critically examined by Mr. Ricketts and Colonel Bruce, the Commissioner of Nagar and the Deputy Commissioner, Shimoga, respectively. Their reports give us valuable data for forming a correct idea of the condition of the taluk 36 years ago.

3. A comparison of these reports with the one now furnished by Mr. Shama Rao will show that the only improvement observable since the last settlement is the opening out of 46 miles of road in the interior of the taluk and the construction of a railroad connecting Shimoga with the other parts of the State and the Southern Mahratta country, thus affording greater facilities for trade. In other respects the condition of the taluk has remained much the same. The rivers are of no use for purposes of irrigation. There are many tanks, but only a few of them possess large atchkats. The wells which are to be found in the north are of no great value for purposes of irrigation. In point of rainfall, though it may be safely said that, as the taluk partakes of the nature of semi-malnad, there has never been a total failure, different portions of the taluk fare differently. As regards soils, both good and bad sorts are to be found and the cultivation carried on is such as is suitable to the climate of the locality. There is not much improvement in the general health of the people. On the other hand, the ravages of plague which did not exist at the time of the original settlement have hindered the growth of population. Malaria is ever present in the western and southern portions of the taluk and is a curse to the country.

Revenue (Land Survey), dated 11th March 1912.

4. The staple products of the taluk are rice and ragi. They occupy respectively 36·57 and 29·61 of the total cropped area. Sugar-cane is also grown, though only in small quantities. The gardens of the taluk are not in a flourishing condition and the Survey Superintendent explains that this is due to want of good water supply and the absence of good underground springs. These, as the Deputy Commissioner opines, cannot be the sole causes. The excessive prevalence of malaria may be one of the causes for the decadence of garden cultivation. Shimoga is a semi-malnad taluk and its climate is generally speaking more deleterious than that of the pure malnad. Climatic conditions have, I think, a great bearing on the present economic conditions of garden cultivation. A great extension of wet and garden cultivation may be looked for when the contemplated Bhadra project becomes an accomplished fact.

5. The only industry that is worthy of being mentioned is that of extracting the Manganese ore. But even this is not likely to continue long and it may not be of any permanent benefit to the people. Mr. Shama Rao says that this industry has diverted a large number of lower order of raiyats from their usual occupation and that some cultivable lands in Shimoga and Kumsi are lying fallow on this account. The Deputy Commissioner, however, says that though at the beginning a few minor agriculturists took up service under the Manganese Company, they latterly gave it up as unsuitable and went back to agriculture. The Superintendent of Survey quotes in para 28, figures to show the agricultural resources of the country. From these it will be seen that there is an increase of 129 per cent of tiled houses and 112 per cent of mud-roofed houses, but, that there is a decrease of 3 per cent in the number of horned cattle. The number of carts has increased by 195 per cent. The Deputy Commissioner explains that the increases in the number of houses may be due to family partitions and cannot be considered as due to agricultural progress. Though there is some force in this, yet it cannot be denied that the increase in the number of tiled houses is an indication that the people are aiming at a higher standard of comfort.

6. As regards population, the following figures indicate the progress made from time to time:—

1871	68,319	
1881	70,038	+1,719
1891	68,241	—1,797
1901	65,394	—2,847
1911	66,700	+1,306

It is not possible to find out reasons for these fluctuations with any degree of certainty. But the taluk has shared in the general decline of population which has become a specially distressing feature of the malnad Districts of Shimoga and Kadur, during the last forty years.

7. There can be no question that the prices have steadily and appreciably risen since the time of the original settlement.

8. The price of rice has risen by 62 per cent, of ragi by 163 per cent, of cholam by 100 per cent and of Bengal gram by 74 per cent. The causes that lead to a rise of prices are never capable of precise definition and it is not possible to know how far the average raiyat is benefited, as the cost of living has simultaneously increased a great deal and new sources of expenditure are springing up. Since the last settlement, the taluk has been traversed by a railway line which always tends to equalise prices in all parts of India.

9. As the classification of soils had been made after careful and mature consideration at the original settlement, Mr. Shama Rao has most appropriately left the same undisturbed.

10. The revenue history of the taluk shows that the assessment imposed at the original settlement was not heavy inasmuch as the revenue was easily realised and the amounts that were remitted were very small.

11. Coming now to the most important portion of the report, *viz.*, the portion dealing with the rates imposed, the Superintendent has shown very clearly the effect of revision on the several classes of land. The maximum wet rate is

proposed to be raised by eight annas for the first group and four annas for the second and third groups; and the maximum dry rate is proposed to be increased by six annas for the first group, four annas for the second and two annas for the third and fourth, while for the fifth group no increase is proposed. Thus the maximum for wet lands varies from Rs. 5-4-0 to Rs. 6-8-0, and that for dry lands from 12 annas to Rs. 2-10-0. The average maximum rate for these two classes of land thus works at Rs. 5-13-0 and 1-10-0, respectively.

12. Considering the great facilities that the tract enjoys in point of communication and the increase in prices, one should say that the above proposals are very modest. The proposed reduction of the maximum for garden lands from Rs. 16 to Rs. 12 will certainly be highly appreciated by the people. On the whole, I think that Mr. Shama Rao's proposals are very moderate, resulting as they do in an increase of only 8 per cent over the collections of 1907-08, as against the increase of 13 per cent in the adjoining resettled taluk of Honnali and 8·4 per cent of Shikarpur.

13. In conclusion I beg to recommend that these proposals may be sanctioned by Government.

No. R. 4797-808—L. S. 33-10-4, DATED BANGALORE, THE 11TH MARCH 1912.

ORDER THEREON.—The proposals relate to the Shimoga Taluk as it stood at the original settlement in 1875. The tract dealt with differs from the present Shimoga Taluk, in that the latter includes 56 villages of the Kumsi Sub-Taluk, which originally formed part of the Honnali Taluk and also 16 villages transferred from the late Anantapur and Lakavalli Taluks. The 56 villages of the Kumsi Sub-Taluk have already been brought under revision settlement along with the villages of the Honnali Taluk in accordance with Government Order No. R. 5355-64—L. S. 16-10-4, dated 21st March 1911. The 16 villages of the late Anantapur and Lakavalli Taluks will be dealt with in due course.

2. The tract under consideration is semi-malnad and is surrounded on almost all sides by hills. Towards the west and south-west where it is contiguous to the Ghat regions, the rainfall is heavy, amounting to about 50 inches on the average, and the forests are thick. In the north-east the rainfall is light, being on the average about 31 inches, and the physical features are similar to those of the adjacent maidan Taluk of Channagiri. The whole tract is drained by the rivers Tunga and Bhadra, which join at Kudli and form the single river Tungabhadra, and several other small streams that flow into the above. As the banks of the rivers are high and the beds are at a much lower level than the surrounding lands, it has not been possible to utilize streams for irrigation. The Bhadra project from which the present tract would derive the greatest benefit has not yet been started. There are only a few large tanks and the crops, as a rule, depend mostly on rain water, the numerous small tanks in the taluk serving partly to break the rushes of water during the monsoon and partly to water the crops during the dry intervals in the monsoon. The nature of the cultivation is therefore greatly determined by the state of rainfall, dry cultivation abounding in the north and the east and wet cultivation in the west and the south. The soils, though exhibiting great varieties, are on the whole good, and as the general situation of the tract ensures a good supply of rain, the yield of the crops is on the average fair. The tract was not much affected by the great famine of 1876-78 and the seasons during the past 30 years have not been so bad as to call for any large remissions of assessment. Ragi and paddy are the staple crops. There is not much sugar-cane cultivation. The gardens in which areca, cocoanut and betel leaves are grown are stated to show much deterioration owing to various causes.

3. The taluk has always been well supplied with communications and the extension of the Railway to Shimoga has greatly improved its export trade, especially in paddy. The whole of the timber trade of the district passes through Shimoga and is a source of great profit to the inhabitants. The extraction of Manganese has been a recent industry which has attracted much labour and capital. Thus the natural resources of the tract combined with the other advantages

Revenue (Land Survey), dated 11th March 1912.

ages which it possesses in the shape of convenient markets and other facilities would have resulted in great material progress but for the influence of the climate. The population of the tract, which was 68,319 just before the introduction of the original settlement, rose to 70,038 in 1881, but showed a decrease of 1,797 in 1891 and of 4,644 in 1901. The recent census shows an increase of 1,306 but this is mostly in the town of Shimoga, probably owing to the impetus given to trade by the extension of the Railway and the development of the manganese industry. It is difficult to ascertain all the causes that have led to the decline of population, but there can be no doubt that the general prevalence of malaria and the frequent outbreaks of cholera and in recent times of plague account for some of the diminution in population. The general insanitary conditions seem to have affected live stock also as it is state ttle has decreased from 59,047 to 57,387. Thus ditions of the tract are favourable, deficiency in vating power call for a liberal treatment of the tract in the matter of revision of Revenue Settlement.

4. In spite of the decrease in population, the occupied area which was 62,850 acres at the time of the original settlement has risen to 75,414 acres in 1907-08 being an increase of 12,564 acres; 5,926 acres occur in wet lands, the area of which has risen from 18,509 acres in 1875-76 to 24,435 in 1907-08. The extent of unoccupied lands is still large, being 21,165 acres assessed at Rs. 24,168 at the end of 1907-08, of which 5,538 acres assessed at Rs. 13,252 are wet and 248 acres assessed at Rs. 1,689 are garden. The tract has fully participated in the general rise in prices.

5. The proposals of the Superintendent of Revenue Survey for revising the settlement of this tract are very moderate and receive the concurrence of the Deputy Commissioner and of the Revenue Commissioner. They result in an increase of Rs. 8,675 over the collections of the year 1907-08 or about 8 per cent.

6. While the old grouping of the villages for purposes of assessment having been found to be suitable, is maintained at the revised settlement, the wet lands have been classed under three groups and dry lands under five groups. The maximum rates are pitched as shown below:—

	Dry		Wet	
	Old	New	Old	New
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
I Group ...	2 4 0	2 10 0	6 0 0	6 8 0
II Do ...	2 0 0	2 4 0	5 8 0	5 12 0
III Do ...	1 4 0	1 6 0	5 0 0	5 4 0
IV Do ...	1 0 0	1 2 0	.....	.....
V Do ...	0 12 0	0 12 0	.....	.....

The maximum for garden lands is reduced from Rs. 16 to Rs. 12.

The effect of the proposed settlement on the several classes of lands is detailed in paragraphs 42 and 43 of the Report. The average dry rate is increased by 14·2 per cent, the wet rate by 6 per cent, while the garden rate is reduced by 30·8 per cent. On the entire tract the average rate is increased by Re. 0-1-9 per acre, which, as already stated, is about 8 per cent.

7. Government are pleased to accept and sanction the proposals of the Superintendent of Revenue Survey for the revised settlement of the tract and direct that the new rates be announced during the next cold weather so as to bring the settlement into operation for and from the official year 1913-14 with the usual guarantee of thirty years.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 4844, dated 4th November 1911, from the Revenue Commissioner in Mysore, proposing a scale of fees to be levied on animals treated at the Veterinary Hospitals at Mysore and Bangalore:—

"I have the honour to forward herewith, for the orders of Government, copy of letter No. 189, dated 31st August—1st September 1911, from the Deputy Commissioner, Mysore District, (with its enclosures in original) on the subject of levying fees on animals treated at the Veterinary Hospital, Mysore.

2. According to the last cattle census, the Mysore District has the largest number of horses and ponies next to the Bangalore District. The Veterinary Hospital at Mysore is doing very useful work and is steadily increasing in popularity. The number of cases treated, which in 1908-09 was only 800, has in 1910-11 risen to 2892, being the largest number of cases treated at a Veterinary Hospital during the year. With this increase in the number of cases treated annually, it is being found increasingly difficult to meet the expenses of treatment out of the small amount allotted for the purpose, *viz.*, Rs. 300. I therefore recommend that Government may be pleased to sanction the levy of fees for animals treated at the Mysore Veterinary Hospital, as per scale of charges herewith submitted. Cattle will, of course, be treated free.

3. In this connection I may also point out that the system of levying fees, which was sanctioned in Government Order No. R. 6182-220—Agri. 98-06-2, dated 20th December 1906, as regards the Bangalore Veterinary Hospital, is reported to be working satisfactorily. The Government Order, however, appears to contemplate the levy of fees as regards in-patients alone. As it is desirable that the levy of fees should be extended to out-patients also, and as the existing rules on the point are not sufficiently explicit, I would recommend that, in modification of para 4 of this office letter printed in the preamble of the above Government Order, the scale of fees now suggested for the Mysore Veterinary Hospital may be extended to the Bangalore Hospital also.

4. The scale of charges herewith submitted was prepared in consultation with the Superintendent, Civil Veterinary Department."

NO. R. 5411-52—AGRI. 77-11-2, DATED BANGALORE, 30TH MARCH 1912.

ORDER THEREON.—Government are pleased to sanction the Revenue Commissioner's recommendation for the levy of fees for animals treated at the Veterinary Hospital at Mysore as per scale shewn below.

2. Government also direct that, in modification of the scale of fees now in force in the Veterinary Hospital at Bangalore in accordance with Government Order No. R. 6182-220—Agri. 98-06-2, dated 20th December 1906, fees as per scale sanctioned in this Order be levied in future on animals treated at the Veterinary Hospital at Bangalore :—

Scale of Fees.

(1) All cattle to be treated free.

(2) Horses and ponies (excepting jutka ponies)—

(*a*) Wounds and other surgical cases, where the cost of medicine will be small, Re. 1 to Rs. 5 according to the nature of the operation.

(*b*) Internal diseases of a complicated nature which require a protracted course of treatment, Rs. 3 to Rs. 8.

The above charges include both advice and medicine. In the case of in-patients, the feeding, grooming, attendance, etc., of patients shall be undertaken by the owners. But stabling will, as far as possible, be provided free of charge.

(3) Jutka ponies—half the above charges.

(4) Dogs and other pet animals—

A fee not exceeding 1 rupee but not less than 2 annas will be levied.

(5) Special charges—

(*a*) For castration of country-bred horses and ponies, Rs. 5 for the whole operation.

(*b*) For castration of Arab, Australian and other high class horses, Rs. 10 for the whole operation.

Revenue (Agriculture), dated 30th March 1912.

(6) The feeding, grooming, attendance, etc., of patients shall be undertaken by the owners as stated above. Tats belonging to shanbogs, patels and other raiyats will be castrated free.

(7) The fees shall be paid on bills presented by the Veterinary Officer after the completion of the treatment or operation.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Comptroller, Mysore Government.
The other Heads of Departments.
The Deputy Commissioners of Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

The Administration Report of the Forest Department for the year 1910-11 submitted with letter No. 3115, dated 16th October 1911, from the Conservator of Forests in Mysore.

No. R. 4590-99—FT. 50-11-7, DATED BANGALORE, 4TH MARCH 1912.

ORDER THEREON.—During the year under review, owing to the constitution of three new blocks of State Forest and the remeasurement of two blocks in the Kolar District, the total area of the State Forests in the State was increased by 22·84 square miles and it now stands at 2,594·88 square miles. Sixteen blocks with an area of 121 square miles have been notified under Section 4 of the Forest Regulation preliminary to their being constituted into State Forests. The total area of the lands of which the settlement was pending at the end of the year, was 840·5 square miles. The work of Forest Settlement also showed some improvement, the settlement of 28 blocks having been completed.

Demarcation and Forest Surveys.—During the year the length of new boundary lines permanently demarcated was 104 miles and that of lines reclcared and improved 2,382 miles. In connection with Forest Survey work, there is still a large number of Forest maps to be fair-drawn and the Conservator is requested to see that the work is completed very early.

Working plans.—The working plan for the Lakvalli and Tyagadabagi Forests in the Kadur District was completed, and materials for the preparation of working plans for Chamrajnagar, Bandipur and Beeranbodi Forests were being collected. The Conservator states that experience has shown that in existing working plans, the exploitable stock is much in excess of what can be actually operated upon at present and that it has, therefore, become necessary to keep very much within the prescribed limits in working the stock for commercial purposes.

Buildings and communications.—Rupees 33,252 were spent on new buildings, chiefly those intended for the accommodation of the executive and protective staff; Rs. 3,979 were spent on excavating wells and trenches. The extension of roads received sufficient attention, a sum of Rs. 5,709 having been spent for that purpose and a sum of Rs. 5,529 in the improvement and maintenance of existing roads.

Forest offences.—The number of forest offences reported during the year, *viz.*, 885, was somewhat smaller than in the previous year, but the decrease is attributed to more efficient supervision by the Forest staff and to larger facilities given to raiyats in the matter of procuring their supplies of timber and fuel in a legitimate manner. Of this, only 59 cases were placed before the Magistrates and the rest were dealt with by the Forest Department. Of the cases in which prosecutions were instituted, 43 were disposed of, 22 ending in conviction.

While there has been a decrease in general offences, the cases relating to injuries to sandal trees have shewed an increase. 177 cases were reported during the year, against 111 in the previous year. The number of cases disposed of during the year was only 166 and the number pending disposal at the end of the year was 350. The largest number pending was in the Districts of Mysore, Chitaldrug and Hassan. *viz.*, 101, 87 and 77 and the Deputy Commissioners of these Districts are requested to see that all the cases are disposed of within the next quarter and report the fact of their having done so to Government.

Protection from fire.—In spite of favourable seasonal conditions, fire-protection failed over a larger area than in the previous year, in several cases apparently from preventible causes. In the Chitaldrug District, particularly, the percentage of failure was 28·7. The Conservator issued during the year a compendium of instructions on the subject of forest fires for the guidance of Forest officers and it is hoped that results will be more satisfactory in future. The policy of granting rewards to wild tribes for successful protection has been attended with some success.

Revenue (Forest), dated 4th March 1912.

Regulation of grazing.—Grazing in State Forests was allowed under the rules in force and a sum of Rs. 55,766 was realized as grazing fees and sale of fodder grass. Rs. 1,297 accrued as fines on impounded cattle.

Sylviculture.—As the rains were plentiful during the year, the spontaneous growth of all classes of superior timber was good and artificial reproduction was successful. Spike disease in sandalwood did not show any tendency to abate.

Out-turn of timber.—The quantity of timber sold during the year by Departmental agency was 389,292 cubic feet, which fetched a sum of Rs. 3,07,469. Besides this, the value of timber from dead and fallen trees and lops and tops removed by purchasers amounted to Rs. 1,14,806. Some 82,507 cubic feet of several kinds of timber were sold to Mr. Hajee Ismail Sait for a sum of Rs. 58,353.

The amounts realized were less than in the previous year, the decrease being due to the large quantity of inferior timber that had to be removed from the forests to make room for good stock. Retail rates have been revised and it is expected that this revision will lead to greater competition and increase the demand at the annual auction sales.

Sandalwood.—About 2,497 tons of sandalwood were prepared during the year, the quantity of rough wood collected being 3,782 tons. Including the balance of the previous year's stock, 715 tons, the total quantity available for sale was 3,212 tons. Out of this, about 2,469 tons were sold during the year realising a sum of Rs. 11,47,141 (including Rs. 820 for white chips) about 3 lakhs more than in the previous year.

Financial results.—The total receipts of the year amounted to Rs. 20,88,910 or about 3,29,000 more than in the previous year, the bulk of the difference being due to the increased realizations from sandalwood. The total expenditure under the various heads amounted to Rs. 6,96,942 (including a charge of Rs. 14,536 incurred on Kumri cultivation, Game Preserves establishments, etc.). Of this, a sum of Rs. 3,86,015 was spent on conservancy and works and a sum of Rs. 3,10,928 on establishments. The surplus for the year was therefore Rs. 13,91,967.

General.—During the year, Mr. T. Abdul Karim, Deputy Conservator of Forests, retired from service after an efficient service of 31½ years. The elaborate proposals made by the Conservator for the reorganization of the Forest Department in all grades, referred to in the report, are engaging the attention of the Government separately.

Government are glad to note that the Department is maintained in a high state of efficiency under its present head Rai Bahadur Mr. M. Muthanna.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Subject No. 168 of the Representative Assembly Proceedings of 1904 and the reply of Government thereon :—

Representation.—The levy of tax on *Kanas* which are indispensable for the raiyats for agricultural purposes is a hardship to them. Such a levy was never in vogue either in this or any other country. It is therefore requested that the tax may be dispensed with.

Reply of Government.—*Kanas* do not come under building sites and the Deputy Commissioners will be asked to report through the Revenue Commissioner.

(2) Correspondence ending with the Revenue Commissioner's letter No. 12314, dated 9th June 1911 :—

" With reference to correspondence ending with your letter No. R. 3500—R. M. 31-05-5, dated 2nd December 1908, requesting me to submit definite proposals on the question of the abolition of tax on Kanas (subject No. 168 of the Dasara Representative Assembly Proceedings of 1904), I have the honour to state that the Deputy Commissioners of Districts were asked in this office Circular No. 9164-71, dated 4—13th March 1909, to furnish their opinions with detailed information on the subject, and the replies received, excepting that of the Kolar Deputy Commissioner, are herewith submitted in original.

2. In the Bangalore District, it is reported that except in a few villages in the Hoskote and Devanhalli Taluks where lands have been set apart exclusively for making Kanas, the raiyats prepare grounds in their own fields during the harvest season for stacking crops and thrashing them and that very rarely village sites, gomal, assessed and unassessed Government waste lands are used for the purpose. The Deputy Commissioner is of opinion that in such cases no tax need be levied as the use of lands is temporary, lasting for not more than 15 or 20 days in a year. He further proposes that in case provision should be made in villages for lands being set apart in convenient places for permanent use by raiyats for " Kanas " with a view to afford them every facility to store their produce and for the same being reasonably assessed, the safes tcourse would be to treat them as " Hittals " and assess them accordingly.

3. In the Tumkur District, it is stated that no lands have been specially set apart for making Kanas, *i.e.*, thrashing floors and that the raiyats usually prepare Kanas in their own holding as also in Government assessed and unassessed waste lands either within the village site or outside its limit and that no tax is levied on this account. It is also stated that small plots of ground permanently assessed are given over to raiyats for stacking straw or penning sheep (called " Hullu Hittalu " or ' Koppal ' and ' Roppa ' respectively), the former being generally situated in the raiyats' holding close to the village and sometimes within the village precincts, and that in such cases a tax of 8 annas called "ಕೊಪ್ಪಲು ಖರ್ಚಂದಾಯ" is generally levied. The Deputy Commissioner is of opinion that the levy of this tax is just and reasonable and that if a raiyat makes his Kana (thrashing floor) on the " Koppal " land in his holding, he cannot complain that a tax on Kana is levied.

4. In the Mysore District, no separate Kanas are reported to exist anywhere. For thrashing purposes the raiyats prepare Kanas in their own holding and in a few cases where a raiyat owns lands far away from the village, he forms temporary Kanas on Government lands included in the village site. The Deputy Commissioner thinks that there seems to be no necessity in this district to set apart places for Kanas and levy a tax thereon.

5. In the Hassan District it is stated that no tax has been imposed on plots of land made use of by raiyats for the purpose of stacking and thrashing their produce before they are removed to their houses and that Kanas are made mostly in the holdings of raiyats or Government Kharab land adjoining their holding. In some parts the raiyats are reported to utilize certain plots of lands in the village sites also for the purpose of Kana from time immemorial, and to store their straw also there, enclosing such bits individually by means of temporary fences. The Deputy Commissioner considers that the raiyats should be allowed to enjoy the privilege of making use of Government Kharab land temporarily for this purpose, without any taxation, but on condition that such lands are available for grant to darkhastdars who apply for their permanent occupation. The Deputy Commissioner further refers to the habit of stacking straw in vogue in some places in the vicinity of village sites and says that this may be prohibited so as to obviate danger to houses by accidental burning of such stacks and proposes that Kharab lands sufficiently far away from village sites may be selected for the purpose and granted to the raiyats on a light assessment of a sum not exceeding 4 annas when the extent utilized by a single raiyat does not exceed 3 guntas.

6. In the Shimoga District, it is reported that except in the Bhadrapur village of the Shimoga Taluk no land is set apart for Kanas and that no tax is levied on this account except in the Channagiri Tāluk, where it is stated that a tax is levied on account of Kanas

and credited under Mohatarfa. In the Shikarpur Taluk the raiyats are said to utilize Hittals for Kanas and Hittal kandayam is levied thereon. The Deputy Commissioner is of opinion that as the use of lands as Kanas is temporary, no tax need be levied on this account and says that the villagers ought to be given distinctly to understand that they have no right of any kind on lands used as Kanas.

7. In the Kadur District, Kanas, it is said, may be brought under three heads :—

(i) Those included within the village sites.—These are generally formed on private lands and used permanently not only for thrashing, but also for stacking straw, etc. In such cases the Deputy Commissioner thinks the tax prescribed for vacant sites may be recovered.

(ii) Those formed on communal lands.—These are generally used temporarily for thrashing and rarely for stacking straw, etc. The Deputy Commissioner is of opinion that, as the land has been set apart free of tax for communal purposes, no tax need be levied in this case.

(iii) Those formed on other assessed or unassessed Government land.—These are also used temporarily for thrashing purposes. The Deputy Commissioner states that if, in any case, permanent use is made of Kanas of this class for stacking straw, etc., the case will be brought on Takrar Takhta and a suitable tax recovered from the party concerned in the shape of fine and thinks that this practice may well continue without any alteration.

8. It is reported that Kanas are of two kinds in the Chitaldrug District, known as (1) Bylu Kanas and (2) Hittalu Kanas. The former are generally made in fields owned by raiyats and in Government waste lands or other convenient vacant places close by when the fields are at a distance from the village. These are used for the purpose of keeping the harvested crop and for thrashing the corn. This class is said to be exempt from taxation whether in private fields or Government waste lands. The latter kind of Kanas is used by the raiyat to deposit straw, wood, etc., and at times to keep his bullocks. This class is assessed in the same way as vacant building sites. The Deputy Commissioner is of opinion that as the use made of the former kind of Kanas is temporary, there is no necessity for selecting places for this purpose and for fixing any assessment thereon, and that since the latter is classed with vacant building sites no change in the existing system is necessary.

9. It is not clear what class of Kanas the Dasara Representative Assembly Member had in view when he raised the discussion, or what kanas are exempt from taxation in British India. The summary above given of the replies of Deputy Commissioners shows that the practice, fairly uniform in all districts, is to permit raiyats to have temporary Kanas on any convenient land, whether occupied or unoccupied, assessed or unassessed, and whether situated inside a village or outside in the fields. The Deputy Commissioners are also agreed that no tax need be levied in such cases, if the occupant is content to go without a lien or right of occupancy in the site and to vacate it when darkhasts are received for the same. In other cases they recommend a hittal tax. Both proposals are reasonable and may be approved. I would only say that tax at hittal rates be levied when they are inside a village or so close as to be added on to it, and that in other cases of hittals formed at some distance from village sites, unassessed kharab or gomal may be allowed free when the extent does not exceed 4 guntas for each holding subject, of course, to the following two conditions, *viz.*, that the raiyat obtains previous permission of the Amildar and is willing to surrender the land when it is taken up for cultivation or other Government purpose. If a raiyat wishes to form a permanent Kana on assessed waste, he should pay the kandayam payable for the whole survey number unless he gets it phoded in accordance with the rules.

10. The original reports of the Deputy Commissioners on the subject forwarded with your letter under reply are also retransmitted herewith for reference.

(3) Letter No. 12488, dated 14th June 1911, from the same officer forwarding a copy of letter No. 9233-549, dated 31st May 1911, from the Deputy Commissioner of the Kolar District, of which the following is a summary :—

The Kanas are in the majority of cases formed by the raiyats within their own holdings for the purpose of stacking and thrashing the crop before removal of the corn and straw to their homes. Both assessed and unassessd kharab lands are made use of for the purpose but not permanently. In the Sidlaghatta Taluk assessed waste lands are in some cases utilized for the purpose and the raiyats making a Kana in common pay the assessment *pro rata*. Where the number of houses in a village is small and the village site is larger than necessary, kanas are in a few cases formed on vacant house sites and are dealt with under the rules relating to the levy of tax on occupied vacant building sites in villages. On

account of the temporary nature of the Kanas, no tax is being levied. The Deputy Commissioner is not in favour of any tax being imposed or the existing system disturbed in any way.

No. R. 5196-205—R. M. 31-05-11, DATED BANGALORE, 23RD MARCH 1912.

ORDER THEREON.—On a consideration of the reports received from the Deputy Commissioners it is observed that there has been a wide divergence of opinion on the question raised by the Representative Member in the matter of taxing Kanas.

2. It is reported that no tax is levied on Kanas in the Districts of Bangalore, Kolar, Tumkur, Hassan and Kadur as they are used for the purpose temporarily. The Deputy Commissioners of Shimoga and Chitaldrug state that Kanas are generally made by the raiyats in their own holdings and that in cases in which vacant sites or back yards are used as kanas, they are taxed in accordance with Government Proceedings No. R. 724-34—R. F. 82-96-7, dated 29th August 1903, and the Deputy Commissioner, Chitaldrug, considers it inexpedient to exempt them from any tax to which they may be liable at present as it would lead to unnecessary disputes regarding their ownership. The Revenue Commissioner is of opinion that the Kanas included within village sites should be taxed as vacant sites as contemplated under the rules contained in the Government Proceedings of 29th August 1903, that where the Kanas are situated outside the villages, no tax need be levied if they are on lands reserved for communal purposes and that in the case of such Kanas as are situated in assessed unoccupied survey numbers, a proportionate tax should be levied thereon.

3. The substance of the discussions at the Representative Assembly does not show clearly what Kanas were referred to. They may be temporary, as for instance where the raiyats prepare ground for stacking crops and for thrashing them prior to the removal of the corn and straw to their houses. There will be no occasion to interdict the use of available land for such purpose or to impose any tax therefor. Where the Kana is used for permanent storage of grain and straw or for keeping cattle or for other agricultural purposes, each case will have to be dealt with on its merits, having regard to the description of the land, the nature of the tenure and the rights, if any, thereon, to which it is subject. Ordinarily arable land should be assessed as for cultivation; and where land is allowed to be occupied for Kanas without its being assessed for cultivation, such tenure should be liable to be determined whenever the land is required for cultivation.

READ AGAIN —

Government Order No. Fl. 3211-51—G. F. 179-09, dated the 10th January 1910, prescribing the form of mortgage bond to be used in cases in which collateral security is taken for advances of one year's pay for house-building purposes.

2. Letter No. 684, dated the 16th June 1911, from the Deputy Commissioner, Mysore :—

"I have the honor to invite kind reference to Government Order No. Fl. 3211-51—G. F. 179-09-7, dated the 10th January 1910, prescribing the form of mortgage bond to be used in cases in which collateral security is taken for advances of one year's pay for house-building purposes, and Government Order No. Fl. 1894-934—Ml. 478-06, dated the 9th October 1909, and to state as follows :—

Government Order of the 9th October 1909 lays down that in cases where collateral security is required, such security may be taken either in the shape of other property or solvent personal security; but the form prescribed in the Government Order of the 10th January 1910, provides only for taking personal security and not for security of the former kind.

As there are instances in which officials offer their property as collateral security, the present form, in my opinion, requiries to be slightly altered so as to admit of the property being taken as collateral security without any legal defect.

I would therefore request the favour of your kindly making a reference to the Government Advocate for preparing a form of bond to suit such cases."

No. Fl. 3631-76—G. F. 570-10-2, DATED BANGALORE, 7TH MARCH 1912.

ORDER THEREON.—The form of the bond now in use for house-building advance is not suitable, in that it is not suited for cases requiring collateral security. It is desirable that a standard form providing for all contingencies should be prescribed. Government are therefore pleased to prescribe in supersession of the form prescribed in Government Order No. Fl. 3211-51—G. F. 179-09, dated the 10th January 1909, the form drawn up by the Government Advocate and appended to this Order.

The form will be printed on tough paper with full instructions for its being written up.

The Superintendent, Government Press, is requested to print the form and supply Deputy Commissioners with copies on indent.

Proceedings of the Government of His Highness the Maharaja of Mysore,

THIS INDENTURE made the day of One Thousand Nine Hundred and BETWEEN A. B. of of the $\frac{\text{one}}{\text{first}}$ part (and C. D. of the 2nd part), and the DEWAN of MYSORE of the $\frac{\text{other}}{\text{3rd}}$ part WITNESSETH that under the orders of the Government of Mysore contained in Proceedings No. dated and in consideration of the said sum of rupees paid to the said A. B. by the said Dewan of Mysore (the receipt whereof the said A. B. doth hereby acknowledge) for the purpose of enabling the said A. B. to defray the expenses of building a suitable house for his own residence in he the said A. B. (and his surety the said C. D.) $\frac{\text{doth}}{\text{do}}$ hereby for $\frac{\text{himself}}{\text{themselves}}$, $\frac{\text{his}}{\text{their}}$ heirs, executors and administrators covenant with the said Dewan of Mysore and his successors that the said A. B. (and C. D.) $\frac{\text{his}}{\text{their}}$ heirs, executors or administrators will (jointly and severally) pay unto the said Dewan of Mysore, his successors and assigns the said sum of Rs.

Two years from the date of the commencement of repayment of the loan } on the day of next.

And this Indenture also witnesseth that for the consideration aforesaid he the said A. B. doth hereby convey unto the said Dewan of Mysore, his successors and assigns all that item or items of property situated and more particularly described in the schedule hereto annexed:— To hold the said premises unto the said Dewan of Mysore, his successors and assigns absolutely as his and their own property. Provided always that if and as soon as the said sum of Rs. shall have been repaid by the deduction of monthly instalments of the salary of the said A. B. as in the said order mentioned or by any other means whatsoever, then the said Dewan of Mysore, his successors and assigns will at any time thereafter upon the request and at the cost of the said A. B., his heirs, executors and administrators and assigns reconvey the said premises unto the said A. B. his heirs, executors and administrators and assigns or as he or they shall direct: and it is hereby declared that if the said A. B. shall die or quit the service before the said sum of Rs. shall have been fully paid off then and in either of such cases it shall be lawful for the said Dewan of Mysore, his successors or assigns to sell the said premises or any part thereof either together or in parcels and either by public auction or by private contract with power to buy in or rescind any contract for sale and to resell without being responsible for any loss which may be occasioned thereby: And TO DO and to execute all such acts and assurances for effectuating any such sale as the said Dewan of Mysore, his successors or assigns shall think fit. And it is hereby declared that the receipt of the said Dewan of Mysore, his successors or assigns for the purchase money of the premises sold or any part thereof shall effectually discharge the purchaser or purchasers therefrom. And it is hereby declared that the said Dewan of Mysore, his successors and assigns shall hold the moneys to arise from any sale in pursuance of the aforesaid power UPON TRUST in the first place thereout to pay all the expenses incurred on such sale and in the next place to apply such moneys in or towards satisfaction of the moneys for the time being owing on the security of these presents and then to pay the surplus (if any) to the said A. B., his heirs, executors, administrators or assigns and it is hereby declared that the said order shall be deemed and taken to be part of these presents.

In witness whereof the said A. B. (and C. D.) and by order of the Deputy Commissioner of the District on behalf of the said Dewan of Mysore have hereunto set their hands the day and the year first above written.

Signed by the said A. B. (and C. D.) and in the presence of—

(Name of witness and address.)

(*iii*). *Mortgage bond to be executed by the person borrowing without surety but with collateral immovable security.*

Same as No. (i), but instead of omitting item 2 of the schedule, retain it.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (General Finance), dated 30th March 1912.

READ—

Letter No. 999—C. S. 240, dated the 21st April 1911, from the Registrar of Co-operative Societies in Mysore, submitting with his recommendation, an application from the Bangalore Central Co-operative Bank, Limited, for a loan of Rs. 35,000.

No. FL. 4168-9—G. F. 463-11-12, DATED BANGALORE, 30TH MARCH 1912.

ORDER THEREON.—The Bangalore Central Co-operative Bank, Limited, approaches Government with a request that a sum of Rs. 35,000 may be placed at their credit for a period of five years, to be drawn upon in such instalments as may be required, each instalment so drawn being repayable in two years with interest at 3½ per cent per annum from the date of withdrawal. The Registrar of Co-operative Societies recommends the grant of the concession on the ground that this would enable the Bank to secure public confidence as it would provide the Bank with a ready resource against sudden calls from depositors or large demands from Co-operative Banks and, generally, against any period of difficulty that may arise.

The Government in the circumstances of the case are pleased to request the Comptroller to place a sum of Rs. 35,000 at the credit of the Bangalore Central Co-operative Bank, Limited, for a period of five years under the following conditions:—

(1) The amount will not be drawn in one lump sum but in such instalments as may be actually required.

(2) The approval of the Registrar of Co-operative Societies shall be obtained before any instalment is drawn. The amounts so drawn will be repayable within a period of two years from the date of the withdrawal and will bear interest at 3½ per cent per annum.

(3) No loan shall be granted to any party, whether a member of the Bank or a Co-operative Society, except with the approval of the Registrar.

(4) The Registrar should fix a limit to the amount of loan which may be granted to individual members of the Bank, and the total amount so granted should not, at any time, exceed one-fourth of the total amount of the loans granted to Co-operative Societies.

(5) Interest at the average rate realised from Societies on the amount of the Government loan actually drawn less interest at 3½ per cent payable to Government should be credited to the Reserve Fund of the Central Bank.

(6) The amount due to the Government will always be a first charge on the Reserve Fund and other assets of the Bank.

(7) No material change in the rules or constitution of the Bank should be made, except with the approval of Government obtained through the Registrar of Co-operative Societies.

A departure from any of these conditions will render the Bank liable to refund the Government loan at once with interest.

The Comptroller and the Registrar of Co-operative Societies are requested to [illegible] the arrangements necessary to give effect to this order. A legal document [illegible]ing the above conditions should be executed by the Bank before each instalment is drawn.

J. S. CHAKRAVARTI,
Financial Secretary.

To—The Comptroller to Government.
The Registrar of Co-operative Societies in Mysore.

7. Letter No. Fl. 8715—S. R. 38-02-13, dated the 22nd June 1906, to the Ex.... Commissioner.
8. His reply No. 4681, dated the 19th June 1907, together with its enclosures.
9. Subsequent correspondence ending with the Excise Commissioner's letter No. 6268, dated the 26th January 1910.

No. FL. 3896-8—S. R. 38-02-22, DATED BANGALORE, 15TH MARCH 1912.

ORDER THEREON.—Four villages (Dalasigere, Giddahalli, Siddanahalli and Meduru) were granted on Kayamgutta to one Venkatakrishnaiya by a sannad of 1822, but these were confiscated in 1825. By a sannad of 1827, these four villages together with another (named Hosavenkatapura) were regranted to the Inamdar on Jodi tenure.

Neither the sannad of 1822 nor that of 1827 conceded the excise to the Inamdar. The present Inamdars base their claim solely on two documents, *viz.*, the Fouzdar's orders of 1824, and the Bangalore Divisional Superintendent's order of 1849.

2. For reasons stated in his letter of the 24th October 1903, the Excise Commissioner is of opinion that the Fouzdar's order of 1824, which is antecedent to the sannad of 1827, cannot apply to the villages granted by the latter. Government concur in this view and hold that as the sannad of 1827 is the title-deed for the Inam itself, the Inamdars cannot, for the purpose of supporting a claim to the toddy excise from the Inam villages, go back to the sannad of 1822 nor to the Fouzdar's order of 1824 based upon that sannad. It may be remarked in passing that the Fouzdar's order, without conferring a fresh right, which, indeed, he was not competent to confer, only professes to interpret the sannad of 1822 and to authorise the Inamdar to plant and cultivate toddy-yielding trees and raise the income of the villages as allowed by the sannad. As already observed, the sannad of 1822 does not confer excise rights.

3. The other document relied upon the Bangalore Divisional Superintendent's order of 1849 referred to the Fouzdar's order and directed that if the Inamdar has been growing his own toddy trees and taking the toddy produced in those trees to the Hindiganal village and selling it there for a long series of years, he may be allowed to continue to do so until further orders.

4. At the Inam Settlement conducted in 1875, the right to Abkari was reserved to Government, and as a consequence of this, neither in the title deeds nor in the quit-rent register is there any mention of the concession of toddy revenue to the Inamdar. In a list of villages entitled to toddy revenue, prepared by the Inam Department in 1889, these five villages appear, but this entry can have no weight by itself and has to be rejected as incorrect, because it is not supported by the Inam Settlement.

5. The Inam Superintendent states that the omission to mention "toddy" in the quit-rent register and title-deeds must be regarded as a mistake, and he interprets "Abkari" reserved at the Inam Settlement as including only "arrack," while

Financial (Separate Revenue), dated 15th March 1912.

"toddy" which was admitted at the Inam enquiry to be in the enjoyment of the Inamdar he considers as meaning the entire toddy revenue to which therefore he would admit the Inamdar's right. This view of the Inam Superintendent is not supported by any authority and is opposed to the Inam Settlement and title-deed noticed in para 4 above. In view of the description of the nature of enjoyment of toddy given by the Assistant who conducted the Inam enquiry, of his statement that Abkari was governed by Precis No. 6, of the unqualified manner in which the then Inam Superintendent reserved to Government the right to Abkari, of the general use at the time of the word "Abkari" to mean Excise revenue, and in accordance with Rule 18 (3) contained in Government Order No. 2074-83—R. F. 166-92, dated the 2nd August 1901, the Inam Superintendent's interpretation of the extent of reservation given in his letter No. 110, dated the 5th April 1906, is not correct.

6. The Investigating Officer also relied upon the Fouzdar's order of 1824, the Bangalore Division Superintendent's order of 1849 and the Inam Departmental list of 1889. But, for the reasons stated above, Government agree with the Excise Commissioner in holding that the right to toddy excise has not been conceded either by the sannad or by Inam Settlement.

7. There is no toddy shop in any of the five villages referred to since 1884 and the shop at Hindiganal, a Government village, though situated in a rent-free tope owned by the Inamdars, belongs to Government. The Inamdars' claims to the toddy revenue from this shop is manifestly inadmissible.

8. As regards the two villages Itsandra and Agrahara Vaddarhalli also, there is no mention of toddy revenue in the sannad and the right to Abkari has been reserved to Government at the Inam Settlement. Government agree with the Investigating Officer and the Excise Commissioner and disallow the claim to the toddy revenue of these two villages also.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (Salaries and Allowances), dated 12th March 1912.

No. Fl. 3778-823—S. & A. 12-11-59, dated Bangalore, 12th March 1912.

Order.—The Government of His Highness the Maharaja have noticed that claims for arrears of pay and allowances are sometimes preferred many years after they fall due. As considerable difficulty is experienced in dealing with such claims, they think it desirable to lay down the following general principle on the subject.

2. The Government are quite willing to consider and admit claims against them however old, provided the correctness of the claim can be satisfactorily established. They are also ready to help the claimants in the verification of their claims by reference to departmental records and also to registers maintained and documents preserved in the offices of Account and Audit. But it has to be borne in mind that in the great majority of cases records can be preserved only for a limited time. The periods for which different classes of records are preserved are different and these periods have been laid down by Government after full consideration. Under the rules of the Accounts Department, Establishment Audit Registers are preserved for eight years, the Salary Audit Registers of Gazetted Officers for fifteen years, and Salary and Establishment Bills for ten years. If claims are advanced which refer to a period the records for which have been destroyed under standing orders, it would be impossible to verify them from Government books.

3. The burden of establishing correctness of such a claim would therefore fall entirely on the claimant.

4. In future, when old claims which cannot be verified from Government records are preferred, the Comptroller will return the papers to the party concerned with a remark to that effect. It will then be the duty of the claimant to submit the claim to Government in the Financial Department with independent evidence of a conclusive nature.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (Salaries and Allowances), dated 29th March 1912.

READ—

The following papers regarding travelling allowances admissible to midwives :—

(1) Government Order No. 4629-40—L. F. 55-93, dated the 7th September 1893.

(2) Government Order No. 13921-30—L. F. 55-93, dated the 24th September 1902.

(3) Government Order No. Fl. 5397-8—S. & A. 412-05-2, dated the 9th March 1906.

(4) Government Order No. 3519-29—Med. 297-05-31, dated the 14th October 1908.

(5) Letter No. 1149—T. A. 13, dated the 21st August 1911, from the Comptroller, raising certain doubts regarding the mileage admissible to midwives for marches of more than five miles from headquarters.

No. FL. 4129-38—S. &. A. 145-11-2, DATED BANGALORE, 29TH MARCH 1912.

ORDER THEREON.—As a doubt has been raised regarding the rates of travelling allowances admissible to midwives, Government consider that the rules on the subject require to be stated clearly so that there may be no difficulty in their application. They are pleased, in supersession of the previous orders, to sanction the following :—

(*a*) For journeys and halts made in connection with labour cases :—

(i) Halting allowance.—Nil.

(ii) For journeys by road, whether within a radius of five miles from headquarters or beyond that limit.—A conveyance allowance of 2 annas a mile when conveyance is not furnished by the parties applying for their services and provided a certificate to this effect is attached to the bill.

(iii) For journeys by Railway.—The rates admissible under the Mysore Service Regulations.

(*b*) For other journeys.—The rates applicable to them under the provisions in the Mysore Service Regulations.

2. Government do not consider that there is any necessity to maintain a distinction between midwives paid from Provincial Funds and those paid from Local Funds in respect of the travelling allowances admissible to them ; and they, accordingly, direct that the above rules should apply to all midwives generally.

Reports from the District Magistrates of Districts on the working of the Mysore Merchandise Marks Regulation, 1902, during the official year 1910-11.

No. J. 2588-95—LEGIS. 16-11-9, DATED BANGALORE, 7TH MARCH 1912.

ORDER THEREON.—During the year under report there was an improvement in the work of inspection of shops in the Districts of Hassan, Kadur and Shimoga. The report of the District Magistrate of Bangalore does not furnish any information as to the number of shops that were inspected in the district. Government view with dissatisfaction the inaction of the officers entrusted with the work in the Mysore and Bangalore Districts and agree with the District Magistrate of Mysore that the Vice-President of the Municipality should have shown more interest in the work of inspection of shops in the Mysore City.

With reference to the remarks of the District Magistrate of Tumkur regarding the regulation of measures of length, attention is drawn to Notification No. 11058—G. F. 441-92, dated 6th January 1894, issued under the Measures of Length Regulation, III of 1890, and republished with Notification No. J. 1539—Legis. 16-09, dated 15th November 1911.

Proceedings of the Government of His Highness the Maharaja of Mysore,

AD—

Letter No. 3090—199, dated the 6th January 1911, from the Registrar of the Chief urt of Mysore, forwarding the following Note of the Judges of the Chief Court on the estion of the introduction into the State, of stamped copying sheets:—

"The object of this note is to impress upon the Government the desirability of intro- ing stamped copying sheets and of thereby relieving the Nazir's Department of fully -half of their work. We cannot help thinking that the delay in introducing a system which been in force throughout British India for very many years, may be due to some mis- ception, and we would, therefore, explain that the question of introducing stamped copy- sheets is perfectly distinct from the question of appointing a paid copying establishment. Madras, the copyists receive fixed salaries. In Bengal, the Examiners are salaried cials, but the copyists are paid by results. The Bengal Rules (General Rules and Circular ..ders, Volume 1 pages 97—106, 138—141, and 295—297) are as simple as any rules well could be, and our proposal is that the Bengal system be introduced subject to the modification that Examiners as well as copyists shall be paid by results.

"In Bengal, the applicant is informed of the number of sheets required for the copy. These are purchased from the Treasury or from a stamp vendor and when they are produced, the copy is put in hand. Copies are prepared on sheets stamped three annas with a perforated line, above the stamp. Each sheet is supposed to contain 150 English or 300 Vernacular words. There are 25 lines in the sheet so that each line averages 6 English or 12 Vernacular words. When the copy is ready, the upper part of the sheet is torn off along the perforated line, is endorsed with the name of the copyist and kept till the end of the month when it is produced as a voucher for payment. After the account is passed, the slips are torn up, and destroyed. Any unused sheets are attached to the copy and are returned with the copy to the applicant.

"Out of the 3 annas, the Bengal copyist receives 2 annas, the balance of one anna representing the cost to Government, *viz.*, salary of Examiners, price of paper, etc.

"In Mysore, it would probably be more convenient to introduce two annas copying sheets. There would be 16 lines on each sheet which would contain 100 English or 200 Vernacular words. The copyist and Examiner would receive one anna and 8 pies as at present, and the balance of 4 pies would probably more than cover the cost of the paper. The system can be introduced as soon as the sheets are available."

No. J. 2538-41—Cts. 162-10-2, dated Bangalore, 1st March 1912.

Order thereon.—Government agree with the Chief Court that it is desirable to introduce, for use in the Civil and Criminal Courts of the State, stamped copying sheets similar to those in use in Calcutta, and are accordingly pleased to direct that the new system be brought into effect from 1st January 1913. The cost of each paper, which should be of the size of the Calcutta pattern so as to contain 100 English and 200 Vernacular words, will be fixed at two annas, and there will be 16 ruled lines across each sheet. The Superintendent, Stamp Manufactory, is requested to select, for the purpose, a good water-marked paper of the same quality as the present three-pie paper, but white in colour, the words "for copies" being substituted in water-mark for the words "petition paper" both in English and Kannada, and to place an order for a stock of five hundred thousand sheets, which is estimated to suffice for a year's consumption.

(2) As regards the stamp to be impressed on the sheets, Government are of opinion that the design forwarded by Mr. Yates, Superintendent of Stamp Manufactory, is good enough to be adopted finally. He is, therefore, requested to take the necessary action to have a block prepared as early as practicable, and on receipt of the paper and the necessary plates for printing, to see that the sheets are manufactured under his careful supervision and control, and supplied to the Treasuries for distribution to the stamp vendors for sale in the same manner as other Government stamps.

(3) The Chief Court is requested to take the necessary action at an early date, with a view to have the existing rules, regulating the grant of copies in Civil and Criminal Courts, modified where necessary, so as to bring the new scheme into operation, with effect from the aforesaid date.

Judicial and Legislative (Legislation), dated 1st March 1912.

(4) The source from which the incidental expenditure has to be met during the current year will be pointed out by and by to the Comptroller, who is requested to place the necessary funds at the disposal of the Superintendent, Stamp Manufactory. Provision will be made in future budgets under the head "Stamp Manufactory" for the cost of paper required for the sheets.

READ—

Subjects Nos. 386 and 411 of the Proceedings of the Representative Assemblies of 1909 and 1910 and the replies of Government thereto, in the matter of the transfer of the Civil jurisdiction over the taluks of Koppa and Tarikere from the Munsiff's Court, Chikmagalur, to the Court of the Sub-Judge or Munsiff at Shimoga.

2. Correspondence ending with letter No. 422—32, dated the 21st July 1911, from the Registrar, Chief Court, on the subject.

No. J. 2647-9—Cts. 63-09-13, DATED BANGALORE, 13TH MARCH 1912.

ORDER THEREON.—After a careful consideration of the matter, Government are of opinion that the Civil jurisdiction over the Tarikere Taluk may be withdrawn from the Munsiff of Chikmagalur, and vested in the Sub-Judge of Shimoga and that the Koppa Taluk may continue to be under the Chikmagalur Munsiff's Court. Government are accordingly pleased to direct that the transfer of the jurisdiction referred to above, which involves least change and which serves all interests on the whole satisfactorily, be given effect to from the 1st July 1912. The necessary notification will be published in the Gazette.

Proceedings of the Government of His Highness the Maharaja of Mysore, Judicial and Legislative (Registration), dated 11th March 1912.

READ—

Government Notification No. 5173—J. 372, dated the 21st September 1901, directing that in Registration Offices where the system of identification of executants by means of finger prints has been introduced, the registering officer shall require every executant who is not personally known to himself, to affix such an impression, both to the deed and to the register, in his presence, whether he can write his name or not.

2. Subject No. 80 of the Mysore Representative Assembly Proceedings of 1910, and the reply of Government thereto:—

"*Summary of discussion.*—Executants of documents have to affix their thumb impressions to the endorsement of admission of execution before the registering officers. Formerly, thumb impressions of literate and respectable executants known to the Sub-Registrars were not being taken. But now, all persons are requested to give their thumb impressions whether they are known personally to the Sub-Registrar or not. It is prayed that the taking of thumb impressions may be left to the option of the Sub-Registrars.

Several members speaking on this subject represented that it was derogatory to respectable persons who are literate and who happen to be known to the registering officer to be required to affix their thumb impressions to documents.

Reply of Government.—There is nothing derogatory in affixing a thumb impression. The rule is intended only for purposes of correct identification and to prevent fraud and forgery. The rule cannot be altered."

No. J. 2624-32—REGIS. 30-10-2, DATED BANGALORE, 11TH MARCH 1912.

ORDER THEREON.—The Government are of opinion that it would be a wholesome rule to make the thumb impression compulsory in all cases instead of leaving it to the discretion of the Sub-Registrar as in the Notification read above. There is nothing derogatory in a person being asked to affix his thumb impression in addition to his signature. Such a course largely minimises the chances of successful forgery and false personation and is protective of the interests of the very person so asked.

2. The Government are accordingly pleased to sanction a modification of Rule 30A of the Rules under the Registration Regulation. A notification in that behalf will be issued accordingly in due course.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

Correspondence ending with letter No. 5494, dated 6th June 1911, from the Sanitary Commissioner in Mysore, submitting a copy of the bye-laws approved by the Sanitary Board, Kolar Gold Fields, for the proper supervision and management of bakeries and aërated water factories in the Kolar Gold Fields area.

No. 6571-2—L. B. 61-10, DATED BANGALORE, 12TH MARCH 1912.

ORDER THEREON.—As the Sanitary Board, Kolar Gold Fields, have not till now been specially empowered to make bye-laws of the kind under the Mines Regulation, IV of 1906, the Government of His Highness the Maharaja of Mysore are now pleased to empower the Sanitary Board, Kolar Gold Fields, under Section 35 (2) (*a*) of the said Regulation, to prescribe bye-laws for the regulation and inspection of bakeries and aërated water factories in the area under their authority. A notification to this effect will be forwarded to the Compiler, *Mysore Gazette*, for publication.

2. The bye-laws received with the correspondence read above are sanctioned with a few verbal alterations and a copy thereof is appended hereto. The President of the Sanitary Board, Kolar Gold Fields, is requested to publish them locally and in the *Mysore Gazette* and to send ten spare copies of the bye-laws when they are published.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Sanitary Commissioner in Mysore.
The President of the Sanitary Board, Kolar Gold Fields.

Draft Bye-laws framed for the management of Bakeries and Aerated Water Factories in the Kolar Gold Fields area.

1. (*a*) The term "Bakery" will include all places where bread, biscuits, cakes and confectionery are manufactured:

(*b*) The term "Aërated Water Factory" will include all places where soda, lemonade, sherbath and other kinds of aërated waters are manufactured.

2. All owners of such bakeries and aërated water factories will be required to take out a license under Section X of the Sanitary Board Bye-laws, which license will have to be renewed every official year.

3. It shall not be lawful to let or suffer to be occupied or to occupy any room or place as a bake-house or an aërated water factory, unless the following regulations are complied with:—

(*a*) No water closet, earth closet, privy or ash pit, shall be within or communicate directly with the bake-house or aërated water factory.

(*b*) No drain or pipe for carrying off fæcal or sewage matter shall have an opening within the bake-house or aërated water factory.

(*c*) All the inside walls of the rooms of the bake-house or the aërated water factory and all ceilings or tops of those rooms shall be limewashed and this limewashing must be renewed once in every three months. And as regards bakeries, in rooms where kneading is done, the walls for about three feet height should be cement-plastered.

(*d*) No place on the same level with the bake-house or aërated water factory and forming part of the same building shall be used as a dwelling place, unless it is effectually separated from the bake-house or aërated water factory by a partition of stone or brick in mortar extending from the floor to the ceiling.

(*e*) Each room used as a bakery or an aërated water factory shall be of sufficien dimensions to afford 400 cubic feet of air space per individual working in it.

(*f*) The Sanitary authorities will fix the number of persons that can safely be allowed to work in each room and a notice to that effect duly signed by the Health Officer will be affixed in the bakery or aërated water factory, specifying the number of persons who may be employed in each room of the bakehouse or aërated water factory.

(*g*) *Ventilation.*—Every bakery and aërated water factory shall be sufficiently ventilated; the provision for this and efficient lighting will be prescribed by the Health Officer when granting the license, and the owners will be required to adhere to these provisions.

(*h*) The flooring shall be of some impermeable material, like Cuddapah slabs properly laid on concrete and joints well cemented.

(*i*) All refuse and dirt in and about the premises shall be swept off and the drains well flushed and the premises at all times maintained in a clean and tidy condition.

4. The moulds used for the manufacture of bread, biscuits, etc., in a bakery, shall always be kept scrupulously clean and stored in a cupboard explicitly provided for the purpose. Where bread, biscuits or other articles made in the bakery are also exposed for sale in the same premises, it will be necessary to provide suitable cases for these articles.

5. Provisions such as flour, butter etc., used in a bakery shall always be kept in clean utensils which, in their turn, shall be stored in suitable boxes.

6. All papers and stitched leaves used in a bakery for wrapping bread, biscuits, etc., shall be clean and stored in a clean rack protected from dust.

7. No person shall transport bread, biscuits, etc., from any one place to any other place except in a closed vehicle or a closed basket, tin or other receptacle. Every vehicle, basket, tin or aërated water crate or other receptacle shall at all times be kept thoroughly clean and wholesome and no person shall commit any act which may tend to render any bread, biscuits, etc., which are being transported dirty or unwholesome.

8. The empty bottles used in an aërated water factory for the manufacture of soda-water, lemonade and other aërated water shall always be kept scrupulously clean and stored in suitable cases specially provided for them.

9. All filters used in an aërated water factory shall be sterilised once in a fortnight in the presence of the Circle Sanitary Inspector. These shall not be used for twenty-four hours or more till a proper layer of scum is formed on the surface.

10. No other water but Bethamangalam tap water shall be considered fit for use in an aërated water factory.

11. In the manufacture of coloured aërated waters, no dye proscribed by the Health Officer shall be allowed to be used.

12. No old clothes, beddings, or any other articles unnecessary for the carrying of the trade, shall be stored in any part of a licensed bakery or aërated water factory.

13. In every bakery and aërated water factory, a basin on proper stand with soap and proper roller towel shall always be maintained in which the bakers and aërated water makers shall always wash their hands and arms before beginning work or at any time they have touched any unclean thing during working hours, fresh water being used for each ablution.

14. The Health Officer, the Chief Sanitary Inspector and the Circle Sanitary Inspectors shall have free access to any licensed bakery or aërated water factory at any hour of the day or night for purposes of inspection and the first-named officer shall have the power of condemning any provision or articles manufactured in the bakery or any drink in the aërated water factory, which he considers unfit for human consumption, and his decision in the case shall be considered final.

15. No underground dwelling shall be allowed to be used as a bakery or an aërated water factory.

16. If any employee of a bakery or an aërated water factory is suffering from an infectious disease, which is required by law to be notified to the Sanitary authorities, the licensee of the bakery or aërated water factory shall be held personally responsible for such notification. Under the orders of the Health Officer, the infected person may be stopped from work or the bakery or aërated water factory closed for a certain period, according to the exigencies or as circumstances may demand or the licensee prosecuted according to Section IX of the Rules published under Government Notification No. 16346—L. F. 17-99, dated 10th June 1901.

17. Each licensee will be required to maintain a complete list of all the employees which, from time to time, shall be checked by the Circle Sanitary Inspector.

Local Fund and Sanitary (Local Boards), dated 12th March 1912.

18. Any contravention of the above rules will make the licensee liable to have his license cancelled by the Health Officer for a period not exceeding two months or permanently with the consent of the Sanitary Board, or make him liable to prosecution, as deemed best by the Health Officer.

19. No person suffering from a contagious or loathsome disease, or who has recently been in attendance on such person, or who is unwashed or otherwise unclean, shall be employed in a bakery or aërated water factory, and all kneaders in a bakery engaged in kneading shall wear white clean linen or cotton aprons to cover entirely their front part of the body from neck to knees. The hair should be properly dressed and turban strictly forbidden, small clean caps being substituted.

20. These bye-laws will apply equally to all bakeries and aërated water factories whether situated in the Government or the mining area comprising the Kolar Gold Fields. In the mining area, the powers conferred on the Health Officer will be exercised by the Chief Medical Officer and his assistants, though the Health Officer will have the power of entry, for purposes of inspection, to any bakery or aërated water factory situated within the mining area. These he shall visit periodically. In case of his discovering any contravention of the above bye-laws he will have the right to take necessary action after consultation with the Chief Medical Officer.

21. No aërated waters of any kind shall be issued from the manufactory without having a proper label on each bottle, giving full name and address of the manufacturer.

22. Whoever commits any breach of any of the above bye-laws, shall be liable, on conviction, to a penalty not exceeding rupees one hundred.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Municipal), dated 26th March 1912.

Note dated the 25th August 1910, from the Comptroller and Financial Secretary to the Government.

2. The following communications from the Deputy Commissioners of Districts in reply to this office letter No. 9611-8—Ml. 148-10-2, dated the 20th May 1911.

Communication No.	Date	District
(1) 522	24th June 1911	Chitaldrug.
(2) 529	26th June 1911	Tumkur.
(3) 715	30th June 1911	Mysore.
(4) 24	17th July 1911	Kadur.
(5) 45	19th July 1911	Kolar.
(6) 29—S	24th July 1911	Hassan.
(7) 15	27th July 1911	Shimoga.
(8) D. F. 23 ...	2nd August 1911	Bangalore.

No. 6981-9—Ml. 148-10-11, DATED BANGALORE, 26TH MARCH 1912.

ORDER THEREON.—In his note dated the 25th August 1910, the Comptroller and Financial Secretary to the Government suggested for the consideration of the Government that it would be desirable to abolish octroi in Municipalities in the State, having regard to the inherent defects of that system of taxation. The chief of these defects are—

(i) that octroi allows leakage of revenue,
(ii) that it allows facilities to Municipal employees for peculation and oppression,
(iii) that it hampers the free course of trade, and
(iv) that it causes inconvenience, loss, expense and delay to the trader wherever he comes in contact with the Octroi Department.

2. As the entire abolition of octroi, which is an important item of revenue in several Municipalities, may create serious financial embarrassment to the Municipalities concerned, it was suggested to the Deputy Commissioners that while the entire abolition of octroi should be kept in view as an object to be attained gradually and in course of time, steps should be taken in the immediate future to abolish octroi in the smaller Municipalities where the octroi receipts were very low, and that, in other places, the number of articles on which this tax was levied should be gradually reduced, a slight increase in the house and mohatarfa taxes in these places probably making up for the loss and putting these Municipalities on a safe working basis, and their opinions were called for.

3. The majority of the Deputy Commissioners are not in favor of abolishing octroi either entirely or partially for the chief reason that it will not be an easy matter to replace it by any other tax which will not be considered oppressive by the citizens and that the loss cannot be made up by raising the house and the mohatarfa taxes, which moreover, unlike the octroi, are inelastic and obligatory.

4. Under these circumstances Government direct that the correspondence be recorded with the remark that, if any Municipal Council or Board is disposed to abolish octroi either entirely or partially, it may do so after submitting definite proposals and obtaining sanction of Government.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Deputy Commissioners of Districts.
The Comptroller, Mysore Government.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Medical), dated 29th March 1912.

READ—

Letter No. G. 61, dated the 5th August 1911, from the Officiating Senior Surgeon stating that certain officers have been very long in the grade of Sub-Assistant Surgeons (old designation) and suggesting for reasons explained, that the promotions of Assistant Surgeons of the 5th and 6th classes (new designation) be regulated by a time scale instead of being made to depend on the occurrence of vacancies.

2. Letter No. G. 206, dated the 16th November 1911, from the same officer, requesting that clause (3) of para 1 of Government Order No. 3181-2—Med. 128-10-5, dated the 3rd November 1911, be so modified as to give effect to the suggestion contained in his letter of the 5th August 1911, read above.

No. 7050-I—MED. 128-10-6, DATED BANGALORE, 29TH MARCH 1912.

ORDER THEREON.—Under paras 4 and 6 of Government Order No. 3868-9—Mis. 736, dated the 23rd September 1897, and para 1, clause (3), of Government Order No. 3181-2—Med. 128-10-5, dated 3rd November 1911, promotions from one class of Assistant Surgeons (new designation sanctioned in the Government Order dated 3rd November 1911) to the next higher class except from the 5th to 4th class are granted according to a time scale, while promotion from the 5th to the 4th class is dependent on vacancies in the 4th class.

In consideration of certain hard cases which have arisen under this rule and in view to place the principle regulating promotions in the grade of Assistant Surgeons on a uniform footing, Government are pleased to accept the suggestion of the Senior Surgeon and direct in modification of clause 3 of para 1 of Government Order dated the 3rd November 1911 and para 6 of Government Order dated the 23rd September 1897, that an Assistant Surgeon of the 5th class be promoted to the 4th class after an approved service of three years in the 5th class.

2. In the case of Assistant Surgeons who have already completed three years' approved service in the 5th class, the promotion to the 4th class under this order will be given effect to from the 1st March 1912. The Officiating Senior Surgeon is requested to report to Government the names of the Assistant Surgeons who are thus entitled to promotion, in view to their promotions being formally notified in the official Gazette.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Correspondence ending with letter No.76, dated the 30th August 1910, from the President, Municipal and District Boards, Tumkur District, as regards the reduction of the provisions in the Plague Budget.

No. 6381-92—SAN. 250-07-33, DATED BANGALORE, 9TH MARCH 1912.

ORDER THEREON.—The Government have been incurring expenditure for the prevention and suppression of Plague in the State from the year 1898-99. Under Government Proceedings No. 3082-94— Fl. 313, dated 26th October 1898, this expenditure was entirely met out of the State Funds till April 1900, when it was ordered in Government Proceedings No. Pg. 1291-3, dated the 19th April 1900, that in the Bangalore City, the Plague charges should be entirely met out of the Municipal Funds and that till the finances of the Municipal Commission improved, a moiety of the charges for the Epidemic Diseases Hospital in this Municipality be debited to the State Funds, any compensation awarded under the Epidemic Diseases Regulation being met from the Municipal Funds. In Government Proceedings No. 8687 9—San. 40-06-4, dated the 21st March 1907, it was finally ordered that the Bangalore City Municipal Council should pay a moiety of the entire Plague charges from the 1st July 1907. As regards similar charges in the Mysore City, it was ordered in Government Proceedings No. Pg. 914-22, dated the 29th January 1901, that half the cost of disinfection should be met out of Municipal Funds and that the cost of the Plague Hospital should be met in ordinary times from the Municipal Funds, the Government meeting a portion of the cost of this Hospital when plague is epidemic and the cost of the establishments increase largely. The Plague funds were further relieved of expenditure on putting up sheds in Minor Municipalities and rural parts, the same being met out of the Municipal and District Funds respectively.—(*Vide* Government Proceedings No. 10661-70—L. F. 93-97, dated the 16th February 1901).

2. In connection with the Plague Budget for 1908-09, the Sanitary Commissioner submitted in his letter No. 219, dated the 17h July 1908, the following proposals for further reducing the charges in this budget:—

(*a*) That no special Police establishment be sanctioned for Plague duty and the Inspector-General of Police be asked to make his own arrangements for the guarding of health sheds and evacuated villages;

(*b*) that the conservancy and the Plague staffs, where the latter exist, be amalgamated, and where a Plague staff does not exist, disinfection be entrusted to the conservancy staff under the supervision of the Sanitary Inspector or other arrangements made by the Municipalities at their own cost, subject to approval of the same by the Sanitary Commissioner or the Government as the case may require;

(*c*) that expenditure under "Erection of sheds" be debited to Municipal and District Funds;

(*d*) that the expenditure incurred under "Special Sanitary charges" be debited to the funds of the Municipalities concerned as it is properly chargeable to Municipal Funds;

(*e*) that the entire charge in connection with Plague preventive measures on the Kolar Gold Fields be debited to the funds of the Sanitary Board; and

(*f*) that a sum of Rs. 20,000 be allotted to the Public Health Budget under the head "Epidemic charges" from Municipal and District Funds for the prevention of cholera and other epidemics.

3. The opinions of the several local bodies and the Presidents thereof and of the Inspector-General of Police were called for on the above points.

4. The general opinion about the special Police establishment is that its employment for guarding the sheds and evacuated villages is necessary and

Local Fund and Sanitary (Sanitary), dated 8th March 1912.

the charge should not devolve on the local bodies. The Inspector-General of Police says that the Police Budget cannot meet this charge. The Government therefore direct that this charge shall continue to be borne by the Plague Budget.

5. As regards the carrying out of disinfection work by the conservancy staff, many of the local bodies are of opinion that a special staff is necessary for disinfection as the conservancy staff cannot perform this work satisfactorily without detriment to its legitimate duties. The amalgamation of the Plague staff, wherever it exists, with the conservancy staff is also objected to on the ground that the latter consists of men drawn from certain castes who are prohibited from entering the houses of certain other castes for purposes of disinfection. Under Section 55(*a*) of the Mysore Municipal Regulation, Municipal Councils should make reasonable provision for taking such measures as may be required to prevent the outbreak or to suppress and prevent the recurrence of dangerous diseases, and under Section 7 of the Local Boards Regulation, II of 1902, one of the duties of a District Board is to take any measures likely to promote the health, comfort, convenience, interest or welfare of the public. The Government therefore direct that ordinarily the charges for the suppression and prevention of Plague, including the erection of sheds be borne by the local bodies concerned. Where, however, the local bodies are unable to meet these charges in full, the question of a grant-in-aid from Plague Funds will, on special application, be considered and dealt with on its merits. The existing arrangements in this matter in the Bangalore City shall continue. Separate orders will issue as regards the charges in the Mysore City.

6. The special Sanitary charges also should be borne from the Municipal and District Funds. As, however, the Municipal and District Funds cannot be operated upon and utilized by the Sanitary Department without the consent of the local bodies concerned, the necessary works may be suggested to them for being undertaken.

7. The Municipal and District Boards are not willing to pay any contribution to the Plague Budget under 'Epidemic charges' on the ground that they will have no control over the expenditure of the amount contributed and that the contribution in each case may not be appropriated for the benefit of the local body contributing. The suggestion of the Sanitary Commissioner in this respect is therefore, in present circumstances, impracticable.

8. The question of transferring a moiety of the Plague expenditure on the Kolar Gold Fields to the Sanitary Board of the Kolar Gold Fields forms the subject of a separate communication and is engaging the attention of the Government.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Report on Public Instruction in Mysore for 1910-11, submitted by the Inspector-General of Education in Mysore with the following letters:—

(1) No. 3586-247 dated the 4th November 1911.
(2) Letter dated the 7th November 1911.
(3) Letter dated the 20th November 1911.

No. 6540-9—EDN. 35-11-9, DATED BANGALORE, 12TH MARCH 1912.

ORDER THEREON.—The number of public institutions increased from 2,416 to 2,460 and their strength from 113,785 to 115,249, while the number of private institutions decreased from 1,876 to 1,807 and their strength from 23,944 to 22,004. The total number of institutions thus decreased by 25, but their strength increased by 424 during the year 1910-11. The percentage of boys under instruction to the total male population of school-going age fell from 28·06 to 27·9, while the percentage of female pupils to the female population of school-going age rose from 5·4 to 5·6. These variations are small and call for no remarks. It is, however, a matter for regret that the number and strength of private institutions are gradually declining. These schools are of great importance and serve a very useful purpose in the spread of primary education in the State. It behoves the Education and Revenue Departments to do all in their power to encourage the growth of these institutions.

2. The expenditure on public instruction increased from Rs. 18,38,091 to Rs. 18,79,133. Of this amount, Rs. 11,81,333 was met from State revenues.

3. Collegiate education continued to be satisfactory. The number of students in the College classes of the three English Colleges in the State increased from 391 to 438, including 4 female students. The results of the B. A. Degree Examination held in April 1911, were on the whole good. The results of the Colleges in the Intermediate Examination of March 1911 were fair. One female candidate (Brahmin by caste) who appeared for the Intermediate Examination from the Maharani's College passed in the II class, and is continuing her studies for the B. A. Degree in the Maharaja's College at Mysore. The direct expenditure on the Colleges was Rs. 1,36,673 against Rs. 1,21,494 in 1909-10.

4. The number of boys in the secondary stage of instruction increased from 14,294 to 14,772, of whom 1897 were in the High School classes, and 12,875 in the Middle School classes. The number of High Schools for boys remained the same as in the previous year, *viz.*, 14, of which 10 were Government institutions and 4 were aided ones. The results achieved by the High Schools in the Matriculation Examination were not satisfactory, except in the case of the aided Wesleyan Mission High School, Mysore. The Bangalore High School, which is the largest and the best equipped Government High School in the State, passed only 16 out of 95 examined. From the Channapatna High School 7 appeared and all failed. The Inspector-General is requested to study the causes of these large failures in this examination and to take necessary steps for improving the efficiency of the schools.

5. The number of public primary schools for boys increased from 1,845 to 1,866 and their strength from 64,920 to 64,956. There was, however, a decrease in the total number of boys in the primary stage on account of the fall in the number and strength of private institutions which are mostly primary schools. The number of boys in the primary stage of instruction fell from 98,311 to 96,974. The percentage of boys in the primary stage to the total school-going population was 23·5. These figures are not very encouraging. The question of the expansion of primary education is under the consideration of the Government. A Committee has also been appointed to revise the curricula of studies in primary schools. This subject is also engaging the attention of the Education Committee of the Economic Conference. Government trust that at no distant date it will be possible to devise a plan for the expansion of primary education and to place such education on a sound and satisfactory basis.

Local Fund and Sanitary (Education), dated 12th March 1912.

6. The number of industrial schools decreased from 21 to 20, but their attendance increased from 1,230 to 1,234. Industrial education in the State has not reached a satisfactory stage. The Committee which was appointed in 1909-10 for the improvement of industrial education has prepared a preliminary report and expects to be able to submit the final report for the consideration of the Government at an early date.

7. Female education is steadily progressing. The number of schools for girls increased from 283 to 294. The total number of girls in all the schools of the State increased from 21,886 to 22,974 and the percentage of girls under instruction to the female population of the school-going age rose from 5·4 to 5·6 as already noted. The expenditure on girls' schools during the year was Rs. 2,31,983.

Besides the girl already referred to as having passed the Intermediate Examination, one passed the Matriculation Examination from the Maharani's College, Mysore, 17 girls passed the English Lower Secondary Examination and 36 the Kannada Lower Secondary Examination from all the schools in the State. These results are pleasing.

8. Mahomedan education showed some improvement during the year. The number of schools for Mahomedans increased from 307 to 310 and the total number of Mahomedan pupils increased from 17,900 to 18,632, of whom 13,937 were boys and 4,695 were girls. The percentages of Mahomedan boys and girls under instruction to the total Mahomedan male and female population of school-going age respectively, increased from 64·7 to 66·06 and from 22·9 to 24·55. But the number of Mahomedan students in the higher classes continued to be small, *viz.*, 6 in the College classes, 126 in the High School classes and 6 in the Moulvi's classes.

9. The inspection work done during the year by the several officers of the Department was generally satisfactory.

Most of the Village School Commitees continued to do useful work in providing accommodation for schools and in improving the schools generally. The thanks of Government are due to them.

The number of visits paid by Revenue Officers to village schools decreased from 523 to 505. The attention of the Revenue Commissioner and the Deputy Commissioners of Districts is once more invited to the standing orders of Government on the Subject No. 178-96, dated the 24th January 1894, according to which it is part of the duty of Revenue Officers to visit village schools.

10. It is presumed that the Inspector-General will submit separate proposals on the various points raised by him in general remarks about collegiate and secondary education contained in the concluding chapter of the report. Government note with satisfaction that the scheme for religious and moral instruction and that for the medical inspection of the students worked well during the year. The scheme sanctioned for Kindergarten and Manual instruction in 1906-07 is also making steady progress.

11. The late Mr. J. Weir was Inspector-General of education during the year. His sudden and untimely death after a short illness in July 1911 was a great loss to the Educational Department of the State. The valuable services rendered by him in the Department have been placed on record by a special order of Government.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Correspondence ending with letter No. 1580-109, dated the 17th August 1911, from the Inspector-General of Education in Mysore regarding the establishment of a model Anglo-Hindustani School in the State:—

"With reference to para 3 of Government Order No. 2291-4—Muz. 52-06-9, dated 15th March 1911, I have the honour to make the following proposals for establishing a model Anglo-Hindustani School:—

1. Bangalore is selected on the grounds (1) that it is more centrally situated than any other town with a large Mahomedan population, (2) that there is more educational activity among Mahomedans in Bangalore than elsewhere; and (3) that there is already a hostel for Mahomedan youths which may be developed as the school expands.

2. It is proposed to reduce the present Anglo-Hindustani School, which is of the Vernacular Lower Secondary level, to a primary school containing only the Infant A and B and I and II Primary classes. For the new school a separate building will be required, for the rent of which a sum of Rs. 30 is provided in the estimate. The present monthly cost of the Anglo-Hindustani School is Rs. 154. Of this only Rs. 57 will be required when it is reduced to the Primary standard and Rs. 97 will be available for the new Anglo-Hindustani School.

3. It is proposed to abolish the separate Hindustani classes in the Anglo-Vernacular Section of the Bangalore High School, leaving only a Hindustani Munshi for the High School Section. This will result in a saving of Rs. 32 which will be available for the new Anglo-Hindustani School.

4. The staff proposed for this new school is to cost Rs. 203 including rent and contingencies and is to be constituted as follows:—

Proposed establishment		Hands available	
	Rs.		Pay. Rs.
1. Head Master	40	O. Malhari Rao, Head Master, Anglo-Hindustani School, Bangalore ...	30
2. First Assistant	25	Abdul Rahman Sheriff, Assistant Master, Anglo-Vernacular School, Bangalore	20
3. 2nd Assistant	20	Mahamed Kasim, Assistant Master, Anglo-Hindustani School, Bangalore	20
4. 3rd Assistant	15	Syed Mustafa, Assistant Master, Anglo-Hindustani School, Bangalore ...	12
5. 4th Assistant	12	Mohamed Ali Khan, Assistant Master, Anglo-Vernacular School, Bangalore	12
6. A Maulvi	25	R. Abdual Khadir Maulvi, Anglo-Hindustani School, Bangalore ...	29
7. Kannada Munshi	10	Syed Ahmed, Kannada Munshi, Anglo-Hindustani School, Bangalore ...	10
8. 1st peon	7		
9. 2nd peon	6		
10. Sweeper	5	Sweeper, Anglo-Hindustani School, Bangalore	5
11. Scavenger	3		
House rent	30	Total ...	125
Contingencies	5		
Total ...	203		

The net addition will be only 8, 9, and 11 and the net additional cost will be:—

	Rs.
Rs. 10 addition to the salary of Head Master	10
Rs. 5 more to each of the 1st Assistant and Moulvie ...	10
Rs. 3 more to the 3rd Assistant	3
The pay provided for 8, 9 and 11	16
House rent	30
Contingencies	5
Total ...	74

Local Fund and Sanitary (Education), dated 30th March 1912.

The increases proposed to the members of the staff are all of them well deserved and the other items do not admit of reduction.

5. The total strength of the school will be at present 77 divided as under; but as soon as arrangements are completed for opening the model school, the strength may increase.

Class	Anglo-Hindustani School	Anglo-Vernacular School	Total
V	2	9	11
IV	...	7	7
III	18	5	23
II	9	2	11
I	21	4	25
	50	27	77

6. The Hindustani section of the Anglo-Vernacular School will by this arrangement be abolished and the Anglo-Hindustani School will be reduced to the status of a primary school with the following scale of establishment:—

	Rs.
Zainalabudin Meccai, Head Master	15
Abdul Rasval, Assistant Master	12
Abdul Latif Khan, Assistant Master	10
Abdul Khadar, Assistant Master	10
Peon	6
Contingencies	2
Scavenger	2

7. If the Government should approve of this proposal, early orders are requested so as to enable the needful being done to start the School and provision made for the additional cost of Rs. 74".

No. 7103-4—Edn. 322-10-5, dated Bangalore, 30th March 1912.

Order thereon.—The establishment of a model Anglo-Hindustani School at Bangalore at a cost of Rs. 203 per mensem as per details given in the Inspector-General's letter, is sanctioned with effect from the date of the reopening of schools after the summer vacation.

2. The separate Hindustani Classes now maintained in the Government Anglo-Vernacular School, Bangalore, will be abolished leaving only a Hindustani Munshi for the High School Section. The present Anglo-Hindustani School, Bangalore, will also be reduced to the status of a primary school on the scale of establishment mentioned in the Inspector-General's letter.

3. The abolition of the Hindustani classes from the Anglo Vernacular Schools and the reduction of the present Anglo-Hindustani School to the status of a primary school, sanctioned in para 2, will result in a saving of Rs. 129 per mensem, which will be made available for meeting a portion of the cost of the new Anglo-Hindustani School as proposed by the Inspector-General. The balance required, *viz.*, Rs. 74 per mensem, will be included in the Education State Fund Budget for 1912-13.

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.
GENERAL AND REVENUE SECRETARIAT,

No. G. 4697-4744 / G. M. 60-11-3 *Dated Bangalore, 7th March 1912.*

CIRCULAR.

With reference to the instructions contained in this office Circular No. G. 6124-71—G. M. 264-10-1, dated the 22nd April 1911, regulating the use of the Mysore Coat of Arms, it is considered necessary to explain that the restriction therein placed on the use of the Coat of Arms without the "Circle" enclosing it and the words "Government of Mysore" does not apply to the State Administration Report, the Departmental Reports and other Government publications as well as publications issued for official purposes.

2. The Superintendent of the Government Press is accordingly authorized to use a plain Coat of Arms, like the one used on the Government Gazette, in the case of Administration Reports and other Government publications specified above.

By Order,

C. S. BALASUNDARAM IYER

Annual Report of the Mysore Military Forces (except the Imperial Service Transport Corps) for the year 1910-11, submitted by the Chief Commandant, Mysore State Troops, with his letter No. 1317, dated 25th September 1911.

No. 1028—MILY. 29-11-3, DATED BANGALORE, 25TH MARCH 1912.

ORDER THEREON.—The force consisted of two Regiments of Cavalry with a Mule Transport attached to the Imperial Service Regiment, and three Regiments of Infantry.

2. The strength of the force including all ranks and camp followers and others, at the end of the year was 2,829, comprising—

Cavalry inclusive of the Mule Transport	...		1,009
and Infantry	....	....	1,820

This number was less than the sanctioned strength by 92, owing to some vacancies that occurred during the year not having been filled up.

3. About 45 per cent of the total number of officers and men were Mahomedans, 20 per cent Mahrattas, 10 per cent Christians and 25 per cent Brahmins and other Hindus.

4. Drill and discipline in all branches of the service were well maintained throughout the year and the health of the Troops was good.

5. Detachments of the Imperial Service Troops were, as usual, detailed for duty in connection with the Dasara and Birthday Festivities. The Regiment also took part in the Cavalry Brigade Training camp near Dodballapur from 12th to 19th December 1910.

6. The Commissioned and Non-Commissioned Officers of the Imperial Service Regiment who attended the Musketry and Pioneer Classes at Meerut and Faridkote, respectively, obtained certificates of proficiency, Jemadar B. P. Krishne Urs, who attended the 25th Class of Musketry at Meerut standing first in the Examination.

7. The Inspector of Signalling, Imperial Service Troops, inspected the Signallers of the Regiment and the result of the inspection was very satisfactory.

8. A party consisting of one Officer, three Non-Commissioned Officers and 12 sowars was sent to compete in the 8th Inter-Regimenal Athletic meeting at Gwalior held in January 1911.

9. At the Central Assault-at-Arms held in August 1910, Jemadars Krishne Urs and Syed Abdul Rahimon won first prizes of a cup and a watch respectively. In addition to this, several prizes were won by the men of the Regiment.

10. The excellent remarks recorded by the Inspector-General, Imperial Service Troops, at his inspection of the Regiment and the mobilization equipment during the year, on the high state of efficiency maintained by the Regiment reflect great credit on the Chief Commandant and the other Officers.

11. Jamedar B. P. Krishne Urs was detailed to represent the Mysore Imperial Service Lancers at the Coronation of His Most Gracious Majesty the King-Emperor at London in June 1911.

12. It is noted that the duties carried out by the Local Service Regiment at the Royal Field Artillery camp at Birasandra met with the entire satisfaction of the Camp Commandant and that he found at his inspection of their lines, everything smart, clean and soldierlike and the horses very fit.

13. The several Regimental Funds attached to the Cavalry and Infantry Regiments were in a satisfactory condition at the close of the year.

Military, dated 25th March 1912.

14. The expenditure under all heads of the Cavalry and Infantry Regiments amounted to Rs. 10,26,709 against Rs. 10,38,006 during the previous year.

15. Government are pleased to observe that the Military Forces were maintained in a high state of efficiency throughout the year, reflecting great credit on the Chief Commandant and the officers under him.

Proceedings of the Government of His Highness the Maharaja of Mysore, Muzrai, dated 5th March 1912.

READ—

Correspondence ending with letter No. 3760—164, dated the 21st November 1911, from the Deputy Commissioner, Kolar District, recommending the assumption by Government of the management of Sri Prasanna Ramalingeswaraswami temple at Avani in the Mulbagal Taluk now under the management of the Avani Matt.

No. 2085-7—MUZ. 382-07-6, DATED BANGALORE, 5TH MARCH 1912.

ORDER THEREON.—The temple of Sri Prasanna Ramalingeswaraswami at Avani in the Mulbagal Taluk is a Muzrai institution endowed with a cash grant of Rs. 72-11-0 per annum together with Inam lands measuring 101 acres and 19 guntas assessed at Rs. 238.

2. The Deputy Commissioner reports that the temple is an ancient one held in high veneration, and the building is of a fine type of architecture. The management of the affairs of the temple is reported to be very unsatisfactory. No accounts are kept, worship is not properly conducted, and there are constant complaints of mismanagement against the Matt. The Kalyanamantapa and other parts of Goparams are also said to be in a state of great disrepair. In these circumstances it is reported that unless immediate attention is paid to the temple buildings, they will collapse, and it is recommended that the temple and its endowments may be taken over under Government management.

The Swamigalu, who was consulted in the matter by the Deputy Commissioner, objects to the assumption of its management by Government on the purely sentimental ground that he would not like the control of the temple to be lost by the Matt during his time.

Government observe that if the Swamigalu had any documents or other means of making good the claim to be Manager in perpetuity, he would certainly have adduced them in his favour. As the temple is clearly one subject to Muzrai Department and the management thereof by the Sri Avani Matt is found to be very unsatisfactory, Government are pleased to direct that it be taken over under Government management.

The Deputy Commissioner is requested to submit proposals for the leasing of the lands belonging to the temple and as regards the scale of expenditure to be incurred therein for the orders of Government.

Petition Registered No. 1235, dated 26th December 1910, from Jagadesi Narasimhachar of Jagalimolehundi near Somanahalli of Malvalli Taluk, offering to deposit about Rs. 3,600 with Government for certain sevarthas in the Sri Varadarajaswami temple at Hemmige in the T.-Narsipur Taluk and in the Sri Narayanaswami temple at Melkote in the French Rocks Sub-Taluk.

2. Letter No. 157, dated 26th October 1911, from the Deputy Commissioner, Mysore District, reporting on the above.

No. 2128-30—Muz. 355-10-7, dated Bangalore, 8th March 1912.

ORDER THEREON.—Petitioner has purchased on behalf of the Sri Vedanta-Desikar idol in the Sri Varadarajaswami temple at Hemmige, a Muzrai institution enjoying an annual cash grant of Rs. 43-10-0, the marginally noted wet land. The sale deed is said to be executed in favor of the said idol and the patta also made out similarly. This land, it is said, yields every year 21 kandies (of 110 seers each) of paddy and petitioner says that he and after him his nephews will arrange for the cultivation of the land and the delivery of the quantity of paddy as gutta.

S. No. 57—1 of Talkad measuring 1 acre 21 guntas and assessed at Rs. 10.

2. Petitioner has already deposited in the T.-Narsipur Taluk Treasury Savings Bank a sum of Rs. 3,000 and proposes to add Rs. 600 to it and requests that this amount may be received as a deposit at the favourable rate of interest sanctioned in Government Order No. 4007—G. F. 184-06, dated 12th February 1908, as revised by Government Order No. Fl. 473-503—G. F. 15-09-2, dated 15th July 1909, and the interest with the gutta paddy used for services in the Sri Varadarajaswami temple at Hemmige and the Sri Narayanaswami temple at Melkote as detailed in his petition.

3. The object of Jagadesi Narasimhachar being of a religious and charitable nature deserving of encouragement as contemplated in Rule III of the Government Notification No. 4007—G. F. 184-06, dated 12th February 1908, as revised by Government Order of 15th July 1909, the Government are pleased to sanction the request made by Jagadesi Narasimhachar and to permit him to deposit a sum of Rs. 3,600 the rate of interest on the deposit being not more than ½ per cent in excess of the rate allowed by the Government of India on their securities. The rate allowed for the present will be 4 per cent.

4. The Comptroller to Government is requested to issue needful instructions to the Deputy Commissioner, Mysore District, in the matter of withdrawing the sum of Rs. 3,000 referred to above from the Savings Bank and of receiving Rs. 600 from the petitioner Jagadesi Narasimhachar. As the income of the Sri Varadarajaswami temple at Hemmige from all sources will thus be more than Rs. 250, the Comptroller is requested to register this as a major institution.

5. Copies of petitions Registered Nos. 1235 and 668 dated, 26th December 1910, and 31st October 1911, respectively, together with a copy of the statement furnished to this office by Varadachar on behalf of the petitioner are forwarded to the Deputy Commissioner of the Mysore District with the request that necessary instructions may be issued for the conduct of the services proposed by the petitioner. The Deputy Commissioner is further requested to obtain from the petitioner Jagadesi Narasimhachar the necessary documents in the form prescribed in Government Order No. Fl. 432-72—G. F. 15-09-1, dated 15th July 1909. A duly registered lease deed in respect of the land referred to above should also be obtained. It is presumed that the sale deed has been made over to the Taluk Cutchery for custody.

6. Out of the half-yearly interest so long as the rate continues to be 4 per cent, Rs. 12-8-0 will be credited to the funds of the Sri Narayanaswami temple at Melkote and the balance to the funds of the Sri Varadarajaswami temple at Hemmige. Out of the latter amount the sums required for monthly expenditure

Muzrai, dated 8th March 1912.

will be drawn on bills and paid to the petitioner during his lifetime and after him to his nephews for the conduct of the services under the control of the Government officers.

7. Petitioner and his nephews after him should maintain regular accounts and make them available for inspection by Government officers, an annual report with an abstract of the accounts being rendered as ordered in Rule V of the Government Notification of the 15th July 1909.

READ—

Petition registered No. 183, dated 8th July 1907, from Revanniah, son of Siddappa, appealing against the order of the Deputy Commissioner, Tumkur District, rejecting his application for the remission of khalsat on a portion of the Devadaya Inam lands endowed to Sivapuje Revanniah Matt at Morganahalli, Tumkur Taluk.

2. Correspondence ending with letter No. 98, dated 12th September 1911, from the Deputy Commissioner, Tumkur District, reporting on the petition.

No. 2313—MUZ. 74-08-8, DATED BANGALORE, 25TH MARCH 1912.

ORDER THEREON.—The facts reported by the Deputy Commissioner are as follows :—

Survey No. 70 is a Devadaya Inam land granted for the Revanniah Matt, the manager of which was the petitioner's grandfather; but one-half of the land was alienated to a third party in the year 1879. During Survey Settlement, an extent of 1 acre and 5 guntas was found to be in excess in the survey numbers and, being treated as Khalsat, was converted into Survey No. 79. The petitioner's aunt sold this Survey No. 79 to one Murudappa in 1893. The petitioner filed a suit for the recovery of one-half of the Khalsat land and got a decree in his favor and obtained possession of the same. He then objected to pay the assessment, claiming that it should be treated as Devadaya Inam land. He also prayed that the alienatad portion of the survey numbers should be resumed and made over to him, the assessment being also remitted. The Deputy Commissioner held that there were no reasons to convert the Khalsat land into Inam, that the Matt had not been serving any useful purpose, that Puja and the feeding of travellers had been stopped, and declined to grant petitioner's prayers for these reasons. The Deputy Commissioner now recommends that the Inam lands may be fully assessed, and allowed to continue in the possession of the people in enjoyment, particularly as the petitioner pleads inability to repay the purchase money and the charity is not of sufficient importance to merit its being taken under Government management.

The case was heard before Government on the 29th February 1912. The Government agree with the Deputy Commissioner in his decision that the petitioner is not entitled to the relief sought for and the case does not appear to be of sufficient importance for Government to take action under the rules for resumption and restoration of Inams to such institutions. Government, therefore, direct that the lands may be resumed and charged with full assessment and left in possession of the parties actually in possession.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

(1) Correspondence ending with letter No. 65—S, dated 31st August 1910, from the Deputy Commissioner, Hassan District, submitting a statement showing the quantity of corundum collected and removed by Messrs. Jodidar Venkatabhatta and Kamasetty Venkataramaiya, holders of license No. 5, dated 25th August 1905, for collecting corundum in the Arsikere Taluk for a period of five years from the date of the license.

(2) Petitions, dated 28th September 1909 and 30th September 1911, from Mr. Jodidar Venkatabhatta stating that he has paid the minimum guaranteed royalty due to Government for the first four years of the term of the license and praying for a remission of the guaranteed minimum royalty of Rs. 325 due for the fifth year, on the ground that he has suffered a heavy loss in the concern owing to the fall in the price of corundum and the dullness of the market for it.

No. 1584-6, DATED BANGALORE, 5TH MARCH 1912.

ORDER THEREON.—On the 25th August 1905 a license No. 5 was granted to Messrs. Jodidar Venkatabhatta and Kamasetti Venkataramaiya for collecting corundum for a period of five years in the Arsikere Taluk on condition of their paying to Government a royalty of Rs. 4 per candy of corundum removed, subject to an annual guaranteed minimum royalty of Rs. 325. In June 1908, *i.e.*, about the end of the third year of the license, Mr. Kamasetty Venkataramaiya reported to Government the dissolution of his partnership with Mr. Venkatabhatta in connection with the license and the transfer absolutely to him of the entire rights held by him under the license, and Mr. Venkatabhatta thenceforward became the sole licensee.

2. The license in question expired on the 25th August 1910 and the statement given below compiled from the report received from the Deputy Commissioner, Hassan District, shows the quantities of corundum collected and removed by the licensees and the amounts of royalty and local cess due and paid by them, as well as the balance of the same still due to Government:—

Quantity of corundum				Annual minimum royalty guaranteed by the licensee	Total amount due by the licensee for the five years from 25th August 1905 to 24th August 1910			Total amount actually paid by the licensee up to date on account of royalty, etc., (exclusive of the deposit)	Balance of the amount now due to Government on account of royalty and local cess up to the date of expiry of the license (exclusive of the deposit)
Collected		Removed			Royalty	Local Cess	Total		
Candies	lbs	Candies	lbs.						
				Rs.	Rs.	Rs. a. p.	Rs. a. p.	Rs. a. p	Rs. a. p.
331	819	108	197	325	1,625	101 9 0	1,726 9 0	1,015 9 8	710 15 4

3. Mr. Venkatabhatta complains of a considerable falling-off of the market for corundum, which during the earlier years of the license was somewhat brisk, and of the consequent loss suffered by him in the business, and prays therefore for a remission of the guaranteed minimum royalty due by him for the last or the fifth year of the license.

4. The Government of His Highness the Maharaja of Mysore have given their most careful consideration to the representations made by Mr. Venkatabhatta, but regret that they cannot comply with his request for the remission of the guaranteed minimum royalty due for the fifth year of the license. They are, however, pleased to direct that the deposit of Rs. 325 already held by Government as security for the due fulfilment of the terms of the license be appropriated as a set-off against a portion of the arrears of the guaranteed minimum royalty and local cess due as per above statement and also to grant him one month's time from this date for the payment of the balance of the said arrears.

5. It is observed from the reports received from the Deputy Commissioner, Hassan District, and from the licensee, that a quantity of 226 candies and 622 lbs. of corundum collected during the currency of the license is now lying unremoved

Geological, dated 5th March 1912.

within the Arsikere Taluk. Permission to remove this corundum within a fortnight of the date of adjustment of accounts will be granted to Mr. Venkatabhatta. If, within the period of one month referred to in paragraph 4 above, the balance of the arrears due be not adjusted in full, the corundum now lying unremoved within the taluk will be confiscated to Government and sold and the proceeds thereof credited towards the arrears due.

6. Mr. Venkatabhatta also prays, in his petition dated 30th September 1911, for the issue of a fresh license to him over the taluk in question for a reduced minimum royalty of Rs. 50 for the year 1912, and his prayer will be taken into consideration after the adjustment in full of the balance of the arrears of royalty, etc., due by him under the expired license of 25th August 1905.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
27	R 4767-70 ...	9	Rev. Comr., Forest Settlt Officer, Dy. Comr., Mysore, and Consvr. of Forests	Forwarding copy of the preceding.
28	R 4777—Ft 79-10-20 ...	11	Kamasettappa and other raiyats of Ranganahalli, Sira Taluk	Informing them that their prayer for the restoration of their gomal lands included in the Forest area cannot be granted, as it is reported that the extent of available gomal land is sufficient for their cattle.
29	R 4778 ...	11	Rev. Commissioner ...	Forwarding copy of the above.
30	R 4787—Ft 79-10-21 ...	11	Thimmiah and other raiyats of Chinnakopra and other villages, Maddagiri Taluk	Informing them that their prayer for exclusion from the State Forest of the land which originally formed part of the Chinnakopra District Forest cannot be considered, as the area now left for grazing purposes is understood to be sufficient for the requirements of their cattle.
31	R 4788 ...	11	Rev. Commissioner ...	Forwarding copy of the above.
32	R 4789-90—Ft 11-11-15...	11	Consvr. of Forests and Comptr.	Sanctioning the purchase at a cost of Rs. 2-5-0 of certain books required for use in the office of the Conservator of Forests.
33	R 4969-70—Ft 58-11-6 ...	14	Do ...	Sanctioning the promotion with effect from 1st January 1912 of Mr. G. Krishnamurti Naidu, Assistant Conservator of Forests, 3rd grade (Rs. 200) to the 2nd grade (Rs. 250) and the grant of maximum pay of Rs. 150 to Messrs. A. Varadachar, L. P. Mascarenhas and M. Venkatanarasappa, Sub-Assistant Conservators of Forests, with effect from the same date, *viz.*, 1st January 1912.
34	R 4971—Ft 58-11-7 ...	14	Compiler, *Mysore Gazette*	Notifying the promotion of Mr. G. Krishnamurthi Naidu from the 3rd grade of Assistant Conservator of Forests to the 2nd grade with effect from 1st January 1912.
35	R 4983—Ft 104-11-2 ..	15	Consvr. of Forests ...	Approving of his action in permitting the villagers of Manchaldore and two other villages in Chelur and Hagalvadi hoblis of the Gubbi Taluk to graze their cattle in the Manchaldore State Forest and to water them in a halla running through it until the monsoon sets in.
36	R 4984-6—Ft 103-11-2 ...	15	Rev. Comr., Consvr. of Forests and Supt., Rev. Sur. and Settlt.	Sanctioning the writing off the accounts of an assessment aggregating Rs. 18 on Survey Nos. 82 of Mandalur and 51 of Nandiballi, included in the Bevinahalli State Forest in the Chitaldrug District.
37	R 4988-9—Ft 98-11-2 ...	15	Consvr. of Forests and Comptr.	Sanctioning an estimate for Rs. 3,040 submitted by the Conservator for opening a road from Gangur to Ubrani in the Kukvada-Ubrani Forest, Shimoga District.
38	R 5015-16—Ft 19-11-6 ...	16	Consvr. of Forests and Comptr.	Sanctioning as a special case the writing off the accounts of a sum of Rs. 85-8-0 being the difference in prices at which ragi was purchased and sold during the scarcity of 1909 by the Forest Department to the Kurubars working in the forests of Kakankote and Begur Ranges.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
39	R 5095-7—Ft 100-11-2 ...	20	Consvr. of Forests, Ch. Engr. and Comptr.	Sanctioning the construction of a kitchen house and stables to the District Forest Officer's quarters at Chikmagalur at a cost of Rs. 2,013 and Rs. 1,539, respectively, and requesting the Chief Engineer to find funds for the works this year if possible and if not to provide the necessary funds in the next year's budget.
40	R 5098-9—Ft 9-11-14 ...	20	Consvr. of Forests and Rev. Comr.	Reviewing the Progress Report of Forest Settlement operations in the State during the month of December 1911.
41	R 5100—Ft 60-11-3 ...	20	Consvr. of Forests ...	Informing him that Government consider it inexpedient to sanction the grant of a plot of land to Mr. H. J. L. Fremlin for building purposes in the Chamraj Nagar State Forest.
42	R 5120—Ft 75-11-4 ...	21	Do ...	Recording the statements of fresh men entertained and of promotions given to officials in the Forest Department during the quarter ending 31st December 1911.
43	R 5180-1—Ft 56-11-2 ...	23	Consvr. of Forests and Comptr.	Approving of the Conservator's action in permitting Mr. H. Srinivasa Rao, Assistant Conservator of Forests, under orders of transfer to Hassan as District Forest Officer, to stay at Tumkur for a period of 5 days after handing over charge of the Tumkur District Forest Office to his successor, as no joining time was permissible to him since he had to take charge of his new Office before relinquishing charge of the Tumkur District Forest Office, and directing that he should not claim any halting allowance for the period.
44	R 5182—Ft 15-09-38 ...	23	H. F. Strickland, Esq., Agent to the Govt. of Mysore in the Forest Dept.	Informing him that the Government have enquired into matter of his complaints against the attitude of the Forest Department towards him and that they consider that there are no sufficient grounds to interfere with the action of the Conservator of Forests.
45	R 5183 ...	23	Consvr. of Forests ...	Forwarding copy of the above with the request that Mr. Strickland may be informed that he should not correspond direct with the District Forest Officers.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
46	R 5267-9—Ft 170-10-3 ...	26	Comptr., Consvr. of Forests and Ch. Engr.	Directing that the deputation of Mr. K. Narayana Iyengar, Sub-Assistant Engineer in the Forest Department, as ordered in Government Order No. 756-8—Ft. 170-10-1, dated 24th July 1911, be fixed for two years, and requesting the Conservator to see that the work of Forest Surveys is completed as far as possible within that time.
47	R 5302-3—Ft 95-11-4 ...	29	Rev. Comr. and Consvr. of Forests	Conferring on the raiyats of Melanahalli, Magadi Taluk, with certain limitations, the right to take their cattle for watering to the two "kattes" and a "halla" situated in Survey Nos. 47 and 46 of the village, respectively, which have been included in the Adrangi State Forest, and requesting the Conservator to submit a draft of a Notification admitting this right as well as the necessary right of way.
48	R 5304—Ft 108-11-2 ...	29	Consvr. of Forests ...	Requesting him to explain how he considered as favourable the rates fixed by him for accepting the tenders for the purchase of standing beeté wood in the Sacrebyle, Shankar and Kakanhosodi Forests, and directing that, pending further orders, beeté wood should be sold only in Government Depots and not as standing forest timber.
49	R 5308—Ft 17-11-14 ...	29	Consvr. of Forests and Dy. Comr., Chitaldrug	Sanctioning the grant of building materials from the Channagiri State Forest at half the prescribed rates to six Lambanis of Halehalli village, Holalkere Taluk, whose huts were destroyed by an accidental fire on 23rd December 1911.
40	R 5392-3—Ft 112-11-2 ...	30	Consvr. of Forests and Comptr.	Extending the period of employment of Mr. T. E. M. Claudius, as Superintendent, Forest Surveys, till the 9th March 1912.

SECTION 3—BANKING

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR MARCH 1912.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	Fl 3556-8—B 21-11-2 ...	4	Inspector of Agrl. Banks, Comptr., Regtr. of Joint Stock Companies.	Directing the recovery of the balance of the loan, *viz.*, Rs. 1,608-9-7, outstanding against the Agricultural Bank at Gulur in the Tumkur Taluk, on the grounds that the Bank is not doing any useful work, that the members who are all indebted to it have been in default for a number of years, that the agent does not take any interest in the management of the Bank and that no useful purpose is likely to be served by allowing Government money to lie in the Bank.
2	Fl 3616-7—B 1-11-5 ...	7	Dy. Comr., Hassan, and Comptr.	Confirming the sale of 3 survey numbers and the materials of the Hadige Estate belonging to the late Mr. M. N. Subbiah, a member of the Bank, in realisation of his dues to the Agricultural Bank at Saklespur.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
3	Fl 3846-51—B 22-11-1 ...	13	Secy., Insurance Committee, Comptr. and other officers concerned	Directing the appointment of the undermentioned (four) officers as additional members of the State Life Insurance Committee, with the observation that this addition to the present strength of the Committee raises the number of members to 9, which is considered convenient for the despatch of business: - Mr. K. S. Dorasawmy Iyer, Offg. Revenue Commissioner. Mr. C. Srikantesvara Aiyar, B.A., B.L., Offg. Inspector-General of Police. Mr. C. S. Balasundaram Iyer, B.A., Offg. Secy. to Govt., Genl. & Rev. Depts. Mr. K. Krishna Iyengar, Deputy Chief Engineer.
4	Fl 3902—B 24-11-2 ...	16	Secy., Insurance Committee	With reference to his enquiry if the Insurance Committee has the power to reconsider proposals for insurance from persons once rejected, inviting his attention to Government Order No. 3635 dated 12th October 1895 recording a resolution of the Committee in favor of exercising such power and observing that the fact that a proposal by a person has once been rejected does not prevent his subsequent proposal from being entertained if otherwise admissible.
5	Fl 3910-1—B 27-11-1 ...	16	Comptr. and Registrar of Co-operative Societies	Directing the appointment of Mr. R. Ranga Rao, B.A., B.L., as an Assistant to the Registrar of Co-operative Societies in Mysore on a pay of Rs. 150 rising to Rs. 250 by annual increments of Rs. 25, with the observation that he will be regarded as a Probationer for one year and requesting the Registrar to direct Mr. E. Rama Rao, Senior, Inspector, to report himself to the Secretary to Government, General and Revenue Departments, on or before 1st July as the Registrar may find it convenient to do.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
6	Fl 3925—B 3-11-2 ...	18	Balambigammal, c/o Tiruvengadaswamy Mudliar, Head Draughtsman, L. F. Engr.'s office, Vellore	Informs her that it is not possible to accede to her request that her share as joint nominee along with her step daughters, in respect of the policy of the late Kuppusamy Mudaliar, Record-keeper, Pulbic Works Department, French Rocks-Sub-Division, be paid to her, the portion due to her step daughters being kept in trust till they attain majority.
7	Fl 3985—B 27-11-2 ...	22	Compiler, *Mysore Gazette*	Notifying the appointment of Mr. R. Ranga Rao, B.A., B.L., as an Assistant to the Registrar of Co-operative Societies.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
8	Fl 4020-1—B. 2-11-12 ...	25	Comptr. and Registrar of Co-operative Societies.	Conveys sanction to the Registrar of Co-operative Societies subscribing for a copy of Co-operative News at a cost of Rs. 7-8-0 per annum from January 1912.

2	Fl 3567-8—S & A 441-11-2	5	Comptr. and Offg. Secy. to Govt., G.R.S. (Mily.)	Sanctioning a gratuity of Rs. 108 to Chinnasami, late 1st grade Sepoy, 3rd Battalion, Mysore Infantry.
3	Fl 3569-70—S & A 403-11-4	5	Comptr. and Presdt., Munl. Council, Mysore City	Condoning a break in the service of Bora, late Octroi Peon, Mysore City Municipality, caused by his removal from service on 15th January 1884 on account of negligence of duty and his subsequent reinstatement from 15th August 1884 and sanctioning to him a pension of Rs. 2-13-7 per mensem.
4	Fl 3573—S & A 308-11-8	5	Senior Surgeon ...	With reference to his letter No. G. 323, dated 17th February 1912, stating that even if the claims of Medical Pupils joining the Medical School at Madras are governed by the note to Article 603 of Mysore Service Regulations, they are in his opinion entitled to double batta, the rate allowed to non-gazetted officers, stating that Article 603A limits the application of Articles 602 and 603 and the note to the latter article as well and that Government in the exercise of the discretion given in this article, consider that only single railway fare and half the mileage are sufficient in the cases referred to.
5	Fl 3574-5—S & A 271-11-7	5	Ch. Comdt., Mysore State Troops, and Comptr.	In the matter of the allowances claimed by the Chief Commandant for the return journey from Delhi to Bangalore, observing that, as he is one of the Officers invited to the Delhi Durbar as a guest, he is not entitled to any allowances other than those given under Government Order No. G. 45, dated 12th October 1911, and that his claim to railway fare is therefore disallowed and sanctioning the allowances claimed for halts made by him at Bombay *en route* for the purpose of selecting and purchasing remounts for the Mysore Cavalry, with the remark that this is the third time that this Officer has gone to Bombay within the last three months for this purpose.
6	Fl 3582-3—S & A 152-11-10	5	Comptr., & Asst. Comptr. in charge of State Huzur Treasury	Directing that the pension of Jampanna Naik of Chitaldrug Pollegar family may be disbursed to him in full for the months of February and March 1912 without any deduction therefrom towards the marriage loan granted to him by Government, on the ground that he has some other demands to meet.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
7	Fl 3584-5—S & A 152-11-16	5	Comptr. & Asst. Comptr. in charge of State Huzur Treasury	Directing that the pension of Hire Madiker Naik of Chitaldrug Pollegar family may be disbursed to him in full for the month of Februar 1912 without any deduction therefrom toward the loan granted to him by Government, on th ground that he has some other demands t meet.
8	Fl 3596-7—S & A 397-11-2	6	I.-G. of Edn. and Comptr.	With reference to the Comptroller's objectio to pass the arrears of pay bill of Krishnamachai Teacher, Village Elementary School, Manchena halli, Goribidnur Taluk, on the ground that th period of 8 days' casual leave granted to him fo attending the Medical examination at Kolar fo his life insurance exceeded the maximum perio admissible under Article 163 of Mysore Servic Regulations, observing that the teacher i reported to have absolutely required a period o 8 days for procuring the Medical certificate, tha under the provisions of Article 165, the period during which he was actually occupied in the medical examination should be treated as casual leave not entailing forfeiture of pay, the fact that it exceeded the prescribed limit being immaterial, and that it is incorrect to limit the application of the provisions of Article 165 by those contained in 163 and requesting the Comptroller for these reasons to pass the pay bill of the teacher in question.
9	Fl 3605-7—S & A 454-11-2	6	Comptr. and Secy. to Govt, G. & R. Depts, and Rajasabhabhushana Dewan Bahadur K. P. SECTION 2—COURTS

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR MARCH 1912.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	Pol 732—Cts 124-11 ...	1	First Asst. to the Hon'ble the Resident	Requests sanction of the Government of India for the retention, till 30th June 1912, of the services of Sir Stanley Ismay, as Chief Judge of the Chief Court of Mysore.
2	J 2543—Cts 206-11-7 ...	1	Dt. Magte., Tumkur...	Intimates the issue, on the 24th February 1912, of an extradition warrant to the District Magistrate of Anantapur for the surrender to the Police Inspector of the Tiptur Taluk, of Jain Adirajappa and four others, accused of having committed the offences of house-breaking and theft.
3	J 2548—Cts 221-11-2 ...	1	Dy. Comr., Mysore ...	In the matter of the recovery of the institution fee of Rs. 345 due to Government from one Srinivasachar, plaintiff in Pauper Suit No. 10 of 1907-08, on the file of the Sub-Judge of Mysore, states that the execution application may, preferably be filed before the 20th March 1912.
4	J 2557—Cts 225-11-2 ...	4	Compiler, *Mysore Gazette*	Notifies the investiture of Mr. Narasinga Rao Purnaiya, Treasury Assistant Commissioner and 1st Class Magistrate, Tumkur, with power to take down the evidence of witnesses in cases tried by him with his own hand in the English Language.
5	Pol 737—Cts 294-10-4 ...	4	First Asst. to the Hon'ble the Resident	Requests him to move the Madras Government in the matter of granting the Durbar officers who appear before Courts in British India as witnesses in their official capacity, the allowances to which they are entitled under the Mysore Service Regulations for travelling on duty.
6	J 2571-2—Cts 223-11-2 ...	5	Regtr., Chief Court, and Comptr.	Sanctions the retirement from service of Mahomed Jaffar and Venkatakrishnaiya, Amins, Munsiffs' Courts, Nanjangud and Hole-Narsipur, respectively, with effect from the 1st July 1912, and observes that Government Order is not necessary in the case of Sham Singh who retires at his own option.
7	J 2578—Cts 196-11 ...	6	Mily. Secy. to H. H. the Maharaja	States, in continuation of letter No. J. 2111, dated 25th January 1912, that intimation has been received from the Residency that the deserter Syed Dastagir is not traceable at Krishnagiri.
8	Pol 745—Cts 216-11 ...	6	First Asst. to the Hon'ble the Resident	Requests the issue of extradition warrants to the District Magistrate of South Canara for the surrender to the Amildar and 2nd Class Magistrate, Koppa, of Koragu, Sandu and Rama charged with the offence of theft of sandalwood in the Kadur District.
9	Pol 747—Cts 125-11 ...	6	Do ...	Requests that, on the expiry of the term of one year's extension of service granted by the British Government to Rao Bahadur Mr. P. S. Krishna Rao, he may be permitted, under the provisions of Article 782A of the Civil Service Regulations and the note thereunder, to retire

				from the British Service for continuing in that of the Mysore State.
10	Pol 748—Cts 233-11-2 ...	6	First Asst. to the Hon'ble the Resident	Requests the issue of an extradition warrant to the District Magistrate of North Arcot, for the surrender to the Inspector of Police, Robertsonpet, of Varadan, charged with the offence of kidnapping.
11	J 2586—Cts 9-11 ...	6	Regtr., Chief Court ...	Records his letter No. 1431—115, dated 25th September 1911, reporting, in the matter of a complaint by Mr. E. C. Kent, a coffee planter, regarding certain warrants of arrest issued against him by the Munsiff of Chikmagalur, that there was not any irregularity or illegality in connection with Mr. Kent's arrest or attempted arrest under a warrant of court and that Mr. Kent does not appear to have any cause for complaint.
12	J 2587—Cts 9-11 ...	6	Mr. E. C. Kent ...	Intimates the above.
13	J 2601—Cts 215-11-6 ...	7	Dt. Magte., Kolar ...	Intimates that Mucha Lakshmiga was convicted under Section 457, Indian Penal Code, by the District Magistrate of Anantapur and sentenced to six months' rigorous imprisonment, on 31st January 1912, and enquires whether the surrender of the prisoner should be arranged for at once subject to the provisions of the Indian Extradition Act.
14	J 2602—Cts 191-11-12 ...	7	Do ...	Forwards a copy of letter No. 1317, dated 4th March 1912, from the First Assistant to the Resident, agreeing with the Durbar, that, in the interests of justice and for the convenience of the witnesses, the trial of Pulliga and 19 others, accused of grievous hurt and culpable homicide, may be held in British India.
15	J 2603—Cts 191-11-13 ...	7	Do ...	Forwards for needful action a copy of letter No. 33—Magl., dated 27th February 1912, from the District Magistrate, Chittoor, requesting that the records in connection with the above case may be transmitted to him.

Serial No.	Proceedings: Number	Proceedings: Date	Proceedings: To whom sent	Subject and Order
16	J 2605—Cts 56-11 ...	9	Regtr., Chief Court ...	Records his letter No. 1284—96, dated 11th September 1911, forwarding a communication from the District Magistrate of Chitaldrug, in the matter of inspection by the Sessions Judge, Shimoga Division, of the Court of the Assistant Commissioner and 1st Class Magistrate, Chitaldrug Sub-Division, and stating that the Judges are unable to see anything in the notes of inspection that is open to objection.
17	J 2610-12—Cts 224-11-2	9	Dt. Magte., Chitaldrug, Comptr., and P. Prosecutor, Shimoga Dn.	Sanctions a bill for Rs. 101, being the amount of fees due to Mr. Anantha Chetty, temporary Public Prosecutor, for having conducted prosecutions in the Chitaldrug Sessions Cases Nos. 1 and 2 of 1911-12, during the absence, owing to sudden ill health of the permanent Public Prosecutor Mr. Guru Rao, and directs that a proportionate remuneration for seven days during which period the cases lasted be withheld out of the salary of the Public Prosecutor, Shimoga Division.

Ramachandra Rao, Local Fund clerk of the Krishnarajpet Taluk, as Assistant Sanitary Inspector of the Seringpatam Municipality, with the observation that he should revert to his former post when a duly qualified hand is available for employment as Assistant Sanitary Inspector.
43	6702-4—Ml 280-09-8 ...	15	Dy. Comr., Hassan, Comptr., and Secy., Mysore State Life Insurance Committee	Directs that the date of birth of Ahmadulla Khan *alias* Ahmad Jan, octroi mutsaddi, Saklespur Municipality, be accepted as 15th May 1877 and that the necessary corrections be made in his service register and in the schedule of establishment.
44	6727-8—Ml 71-11-8 ...	16	Dy. Comr., Kolar, and Comptr.	Requests the Deputy Commissioner to draw as an advance from the funds of the Chikballapur Municipality the sum of Rs. 543-7-0, which has still to be paid to parties on account of lands acquired for the extension and improvement of Chikballapur town, to credit to "Advances recoverable" all recoveries made on account of sites made over and to submit a statement of account of receipts of the extension at the end of one year.
45	6748-59—Ml 47-11-73 ...	16	Comptr., Dy. Comrs. of Dts., Presdts. of the Bangalore and Mysore City Muni. Councils, and Presdt. of Sringeri Munly. (thro' the Dy. Comr., Kadur)	Directs with certain observations that the Municipal monthly accounts duly verified with the treasury figures in accordance with the instructions of the Comptroller be submitted punctually on or before the end of the month following that to which they relate.

Serial No	Proceedings: Number	Date	To whom sent	Subject and Order
46	6781—Ml 184-11-6 ...	18	Compiler, *Mysore Gazette*	Notifies the appointment or reappointment of certain gentlemen as members of the Mudagere Municipal Board.
47	6782—Ml 184-11-6 ...	18	Dy. Comr., Kadur ...	Forwards copy of the above and requests that an up-to-date list of members of the several minor Municipalities in the district may be submitted.
48	6814-5—Ml 26-11-8 ...	20	Presdt., Bangalore City Munl. Council, and Comptr.	Sanctions the entertainment till the close of the current official year of another temporary clerk on Rs. 15 per month in the Bangalore City Municipality for sorting the records.
49	6816-7—Ml 122-11-21 ...	20	Dy. Comr., Kolar, and Comptr.	Sanctions the acquisition of certain lands for the improvement of the surroundings of the Someswara and Kolaramma temples and the Demonstration Farm in the Kolar town.
50	6818—Ml 122-11-22 ...	20	Compilor, *Mysore Gazette*	Forwards for publication the declaration statement received in respect of the above.
51	6820-1—Ml 10-10-14 ...	20	Dy. Comr., Mysore, and Comptr.	Approves of the Deputy Commissioner's proposal recommending with reference to Government Order No. 2311-9—Ml. 4-10-5, dated 8th September 1910, that a cash security of Rs. 50 may be taken from the officials who are entrusted with collection work or who may have to handle Municipal money in all the Municipalities in the Mysore District except Seringapatam and Nanjangud and a cash security of Rs. 100 in the two last mentioned Municipalities.
52	6824—Ml 201-10-15 ...	21	Presdt., Bangalore City Munl. Council	Observes that the Municipal Council's resolution dated 31st July 1911 about the proposed deviation of the XVII cross road or the south end road of the Malleswaram Extension does not state what the decision of the Municipal Council was in regard to the question of the payment to the Municipality by the Mysore Mills Company of the difference of cost between the sanctioned and the revised estimates and invites attention to Clause (10) of Section 20 of the Municipal Regulation in the matter.
53	6825-6—Ml 195-11-4 ...	21	Presdt., Bangalore City Munl. Council, and Ch. Engr.	States that Government see no sufficient grounds to reconsider the order already passed in the matter of the maximum distance between one stand pipe and another and of the liability of house owners for the payment of water tax.
54	6831-5—Ml 136-11-7 ...	21	Chairman, Mysore City Impt. Trust Board, Ch. Engr., Sany. Comr., Presdt., Mysore City Munl. Council, and Comptr.	Approves generally of the programme of the drainage and other works to be carried out in the Mysore City costing in the aggregate Rs. 23,67,590 as now framed by the Trust Board, and gives an assurance that the usual grant of three lakhs of rupees will be continued until the programme is completely worked out, and requests the Board, with certain observations, to proceed to take up each project in the order of its importance and urgency and submit the same for the final sanction of Government.
55	6898-9—Ml 110-11-4 ...	23	Dy. Comr., Tumkur, and Comptr.	Sanctions the levy of octroi duty on betel leaves, tobacco, kerosene oil, jaggery and sheep in the Maddagiri Municipality and the employment of a mutsaddi on Rs. 8 per mensem for collecting the octroi duty.

Serial No.	Proceedings: Number	Date	To whom sent	Subject and Order
56	6933-6—Ml 156-08-18 ...	25	Gen. Secy., Y. M. C. A., Bangalore, Dy. Comr., Bangalore, President, Bangalore City Munl. Council, and Supt. of Gardens	Directs that the words "66 feet from N to O" occurring in para 2 of Government Proceedings No. 6494-7—Ml. 156-08-15, dated the 9th March 1912, sanctioning the grant of land to the Young Men's Christian Association, Bangalore, be read as "86 feet from N to O."
57	6938-9—Ml 112-11-4 ...	25	Dy. Comr., Chitaldrug, and Comptr.	Sanctions the Deputy Commissioner's recommendation to raise the pay of twenty sweepers of the Davangere Municipality from Rs. 5 to Rs. 6 each with effect from the 1st July 1912, and observes that the Municipal Council should be advised to effect retrenchments in other directions so that the total expenditure of the Municipality may not exceed its normal receipts.
58	6942-3—Ml 62-10-14 ...	25	Dy. Comr., Kolar, and Sany. Comr.	Records the letter from the Deputy Commissioner, Kolar District, stating that the Malur Municipality cannot afford to undertake the work suggested by the Sanitary Commissioner for supplying the town with pure drinking water and that the Municipal Council reiterate the question of improving the Gajagondla and its reservoir out of the provision of Rs. 300 made for the purpose in the current year's budget.
59	6976-7—Ml 170-11-9 ...	26	Dy. Comr., Tumkur, and Comptr.	Sanctions an additional grant of Rs. 40 to the current year's budget estimates of the Gubbi Municipality to meet the expenditure on account of local celebrations at the place in connection with the Imperial Durbar at Delhi.
60	6978-9—Ml 105-11-9 ...	26	Do ...	Sancions the proposal to meet the sum of Rs. 17 being the pay of two scavengers temporarily employed in the Kunigal Municipality with effect from the 10th June 1911, from the provision under "C2. Public Works Compensation" in the current year's budget estimates of the Kunigal Municipality.
61	6991-2—Ml 71-11-9 ...	26	Dy. Comr., Kolar, and Comptr.	Sanctions an additional grant of Rs. 500 to the Kolar Municipality to meet the Municipal share of the contribution towards the cost of the construction of a first class Police Station in the town owing to the conversion of the present building into quarters for the Lady Hospital Assistant.
62	7057—Ml 97-11-18 ...	29	Chairman, Mysore City Impt. Trust Board	States that the declaration statements in respect of the property the acquisition of which was sanctioned in Government Order No. 6034--5—Ml. 97-11-16, dated the 27th February 1912, will be forwarded to the Compiler, *Mysore Gazette*, for publication.
63	7058—Ml 97-11-19 ...	29	Compiler, *Mysore Gazette*	Forwards for publication the declaration statement in connection with the acquisition of the property referred to above.
64	7061—Ml 230-11-2 ...	29	President, Mysore City Munl. Council	Sanctions the levy of a lighting tax on the buildings in the Mysore City Municipality at one per cent on the annual letting value thereof with effect from the commencement of the official year 1912-13, and requests the President to take action under Section 60 of the Mysore Municipal Regulation for levying the said tax on vacant lands at one-fifth of the land tax.
65	7063-4—Ml 65-08-8 ...	29	Dy. Comr., Kolar, and Ch. Engr.	With reference to the petition of D. Venkataramanaiya and other residents of the Mulbagal town, praying that a good water-supply may be given to their town records the Deputy Commissioner's report that the Mulbagal

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
				Municipality is not in a position to undertake such a costly project as the town water-supply which involves Rs. 40,000 on account of initial cost and Rs. 3,000 on account of annual maintenance charges and that the Municipal Board would do well to defer the question for some time longer until their finances improve; and requests the Deputy Commissioner to inform the petitioners accordingly.
66	7065-6—Ml 245-11-2 ...	29	Dy. Comr., Chitaldrug, and Comptr.	Sanctions the estimate amounting to Rs. 196 being the cost of furniture, etc. proposed to be supplied to the Municipal Vice-President's office at Davangere.
67	7094-6—Ml 91-10-32 ...	30	President, Mysore City Muni. Council, Chairman, Mysore City Impt. Trust Bd., and Comptr.	Accords formal sanction to the retention of the pipe line establishment from the date of its transfer to the Municipality in July 1909 till the end of March 1912.
68	7097-9—Ml 219-11-3 ...	30	Chairman, Mysore City Impt. Trust Board, Comptr. and Ch. Engr.	Observes that the Chief Engineer's Circular No. 72, dated the 28th November 1911, about the allowance to Sub-Overseers and mestris does not apply *ipso facto* to the Trust Board subordinates, while they are in the service of the Board though they may happen to be in the substantive employment of Government in the Public Works Department and directs that they may continue to draw allowances at the rates now sanctioned to them.
69	7102—Ml 40-11-62 ...	30	Dy. Comr., Bangalore ...	Approves of the action taken by the Deputy Commissioner, Bangalore District, in having asked the Public Prosecutor to defend, on behalf of Government, the case relating to the lands acquired for opening a conservancy lane behind houses Nos. 1 and 2 in the Sheshadri road, Bangalore City.
70	7107—Ml 244-11-2 ...	30	Dy. Comr., Chitaldrug...	Informs him that he may take the necessary action for submitting a recommendation to Government with the resolution of the Chitaldrug Municipal Council in the matter of certain powers under Sections 144 and 145 of the Mysore Municipal Regulation, VII of 1906, for the prevention of dangerous diseases in the town.
71	7108-9—Ml 57-11-10 ...	30	Dy. Comr., Chitaldrug, and Comptr.	Under the circumstances stated, approves of the Deputy Commissioner's action in having permitted, in anticipation of sanction, lighting in the Hosdurga town, and sanctions, with an observation, an additional grant of Rs. 40 to the Hosdurga Municipality for the purpose during the current year.
